GENERAL SUMMARY.—The rainfall was general this week, but there is still a tract in North Bihar stretching across the north of Champaran, Muzaffarpur and Darbhanga where rain is still required and transplantation of paddy is retarded throughout North Bihar and the Bhagalpur Division. The recent rains in Patna, Gaya, Shahabad and the south of Champaran have rendered transplantation possible and improved the prospects of the *bhadoi* crops. The prospects of the *aman* crop are fair throughout the province (except in the portion of North Bihar referred to above), but some tracts in Puri and specially in Balasore have suffered from floods. The harvesting of jute and *aus* paddy is going on: the prospects of the jute crop are fair in Murshidabad and Purnea, but are not good in the other main jute-growing districts. Insect-pests are still causing some damage in the 24-Parganas and Puri. Prices have risen in Shahabad, Champaran, Cuttack, Ranchi, Palamau and Cooch Behar. The stock of food-grains is reported to be insufficient in Nadia, Balasore and Palamau, and it is reported that scarcity is apprehended in a portion of the Saran district. Cattle-disease is reported from Shahabad, Monghyr, Purnea, Sambalpur, Hazaribagh, Ranchi and Palamau. The test-works in Balasore have been closed, but there are still large numbers of people receiving gratuitous relief. Test-works in Bankura, Nadia, Cuttack, Angul, Puri, Hazaribagh and Ranchi were attended by 7,212, while gratuitous relief was given to 33,366, of whom more than half are in Orissa. The famine relief works in Ranchi were attended by 7,300 persons

SUMMARY OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL AND IN EASTERN BENGAL AND ASSAM FOR THE MONTH OF JUNE 1908.

THE Bay current arrived this year not far from the normal date, the actual date of establishment of the rains being about two days late in Bengal and five days in Behar and Chota Nagpur. The storms that were associated with its advance in this month were of a feeble character, although very heavy rain accompanied their passage inland. The tracks were somewhat abnormal in direction, probably owing to the weakness of the Arabian sea current, which usually feeds into the Bay disturbances after their passage inland and constrains them to take a trajectory across Northern India in some westerly direction. The first storm in the Bay formed close to the Sandheads on the 16th and 17th and drifted slowly in a northerly direction during the next four days. As is usually the case with slow moving storms, it tended to concentrate rainfall over the small area directly affected by it, and the present one was remarkable for the heavy rain it caused in Calcutta, where a total of 18·10 inches was recorded between 8 hours of the 17th and the same hour of the 19th. On the 23rd the depression either changed its course abruptly to the west or disappeared, while a fresh one appeared in a more westerly position. It then passed westwards through the Central Provinces and became merged in the trough of low pressure, which usually stretches at this time of the year from the Punjab to Bengal along the Gangetic plain. Towards the close of the month there was a marked falling off in the rainfall given by the Bay monsoon, and on the 30th a fresh depression formed at the head of the Bay.

Summary of Temperature.—Mean temperature was in general excess over the whole area, the departure being greatest in Chota Nagpur and Behar, where the average mean was about 2° above the normal mean of the month. The highest temperature recorded was 114°·3 at Dehri and the lowest 65°·4 at Monghyr.

The following table gives the summary of the temperature of each of the seven meteorological divisions of the Provinces of Bengal and of Eastern Bengal and Assam for the month of June 1908:—

Summary of Rainfall.—The rainfall work of the Province has been placed in the hands of the Director of Agriculture, Bengal, and the usual data regarding the actual and normal rainfall during the month are published by that officer. A short table, however, is attached to this report, giving the rainfall recorded during the month at the head-quarters of the various districts of the Province. Rainfall was very irregularly distributed. There was an excess of 72 per cent. in Bengal. Chota Nagpur received its normal amount, but elsewhere there was a general defect, which reached 51 per cent. in Behar.

Actual and average rainfall and departure from normal for the month of June 1908.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

PART IV.

Bills of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Chota Nagpur Tenancy Bill, 1908, together with the Bill as amended by the Committee, is, by order of the President published for general information.

F. G. WIGLEY,
Secretary to the Bengal Council.

THE CHOTA NAGPUR TENANCY BILL, 1908.

REPORT OF THE SELECT COMMITTEE.

WE, the undersigned, Members of the Select Committee appointed to consider the Bill to amend and consolidate certain enactments relating to the Law of Landlord and Tenant and the settlement of rents in Chota Nagpur, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

(1) Letter from the Revd. J. Hoffman, S. J. ... (Paper No. 1)
(2) Letters dated the 4th June, 1908, to the Commissioner of the Chota Nagpur Division and certain Associations, inviting opinions on the Bill. (Papers No. 2)
Letter No. 412, dated the 8th August, 1908, containing opinion by the British Indian Association.
(3) Memorandum No. 1041L.R., dated the 8th August, 1908, from the Commissioner of the Chota Nagpur Division, enclosing an opinion by the Ranchi Landholders' Association. (Papers No. 3)

2. We have made several amendments in the Bill, all the more important of which are mentioned in the following paragraphs.

3. *Clause 1.*—We have struck out the words "and Settlement" in the short title of the Bill, for the reason that a short title should be as short as it can conveniently be made.

4. *Clause 2.*—We have inserted a provision enabling the Local Government to exempt any Municipal area from the provisions of the Act. In doing so we have followed the precedent of the Bengal Tenancy Act, as amended by Bengal Act I of 1907 and Eastern Bengal and Assam Act I of 1908.

5. *Clause 3.*—We have defined "forest-produce," in much the same manner as has been done in the Indian Forest Act, 1878.

6. *Clause 7.*—We have added a proviso to declare that khunt-katti rights shall not be recognised, except in cases where the raiyat and his predecessors in title have obtained their lands by inheritance. We have also safeguarded the rights of persons who may have acquired a title to such tenancies before the commencement of the new Act.

7. *Clause 11.*—We have struck out of sub-clause (*1*) the words "mortgage" and "or otherwise", so as to require the registration of such transfers only as effect a complete change of ownership.

8. *Clause 13.*—A provision has been inserted for the protection of the rights of village headmen in their offices and lands on the resumption of resumable tenures.

9. *Clause 16.*—We have amended the provisions of the Bill which give the status of settled raiyats to Bhuinhars and Mundari khunt-kattidars, so as to make it incumbent upon such tenants to prove twelve years' continuous occupation of lands in the village before they can claim the status of a settled raiyat.

10. *Clause 17.*—We have expressly excluded landlords' privileged lands from the operation of this clause, and have excised sub-clause (*2*), as being unnecessary.

11. *Clause 18.*—We have altered the wording of the proviso to sub-clause (*3* so as to make it clear what particular class only of tenure-holders can acquire occupancy-rights by custom.

12. *Clause 25.*—An addition has been made to clause 25 (*b*) to declare that enhancements authorised by clause 61B, clause 93 or clause 98A may be made by the Deputy Commissioner acting under clause 27.

13. *Clauses 34A to 34C* of the Bill as introduced have been omitted, and an addition has been made to the proviso to clause 34 (*2*), with the object of making clauses 33 and 34, as to reduction of rent, cover also the case of decrease of rent in respect of decrease in area.

14. *Clauses 34D and 61B.*—Ordinarily, rents enhanced, reduced or commuted are not to be subject to alteration for a period of fifteen years. We have provided, however, that this rule shall not hold in the case of a general settlement of rents under Chapter XII of the Bill, or in the special circumstances mentioned in clause 34D.

15. *Clause 37.*—We have made two additions to clause 37, *first*, to provide for enhancements of rent in the case of khunt katti holdings over twenty years old, on the basis of a written contract entered into at the commencement of the tenancy; and, *secondly*, to declare that the special rights of a khunt-katti raiyat shall extend only to his khunt-katti lands, and not to other lands cultivated by him.

16. *Clause 49.*—In sub-clause (*a*) we have declared that sub-clause (*2*) of clause 47 shall not apply to Bhuinhars, because they have, up to the present time, had a right to sell their rights in their tenures without any consent of their landlords. We have also altered the date "1st January, 1908" to "1st October, 1908", because it is undesirable to invalidate transfers which have taken place between those dates.

17. *Clause 50.*—An addition has been made to this clause, specifically authorising Bhuinhars to sell their lands, with the sanction of the Deputy Commissioner, for building purposes.

18. *Clause 51.*—We have added a sub-clause empowering the Deputy Commissioner to give possession of the land to the landlord when the tenant refuses to accept payment for it.

19. *Clause 56.*—We have struck out the words "within three months from the date on which such rent became due," so as to authorise a tenant to deposit rent in Court at any time, as under section 61 of the Bengal Tenancy Act, 1885.

We have also struck out sub-clause (*2*) of clause 56, in view of the alteration which we have made in the first line of clause 58

20. *Clause 57.*—We have made an alteration to admit of rent deposited by a tenant in Court being repaid to him after a shorter period than three years when the circumstances render that course expedient.

21. *Clause 58.*—The wording of this clause has been altered to make it clear that when once a deposit of rent has been accepted by a Deputy Commissioner, any suit to recover rents due up to the time of the deposit must be brought within six months of the service of the notice on the landlord.

22. *Clause 59.*—We have altered the wording of the proviso to this clause, so as to make it clear that what is intended is that a raiyat paying his rent in full within the year in which it accrues due shall not be called upon to pay interest in excess of 6¼ *per cent.*

We have also made an addition to this clause, to the effect that interest on overdue cesses shall not be decreed at a lower rate than that specified in the Cess Act (*i.e.*, 12½ *per cent.*).

23. *Clause 61.*—The wording of this clause has been altered, and it is now laid down that the rent of a tenancy is a first charge thereon, but that a purchaser of a tenancy in execution of a decree for arrears of rent cannot be made liable for arrears that accrued due before his purchase

24. *Clause 61A.*—We have amended this clause, which relates to the commutation of rents payable in kind, in two ways, *first*, by making the clause apply to tenure-holders as well as occupancy-raiyats, and, *secondly*, by adding a proviso that, in these proceedings, Revenue-officers shall have regard to the special circumstances (if any) which gave rise to the assessment of the present rent.

25. *Clause 63.*—We have excised this clause, as being unnecessary.

26. *Clause 66.*—We have amended this clause by providing that, where a Deputy Commissioner orders the ejectment of a cultivator from korkar, he may award reasonable compensation to the cultivator, if he thinks it necessary to do so.

27. *Clause 68.*—We have amended this clause in order to indicate that only a raiyat who reclaims korkar is entitled to occupancy-rights in the same under the clause.

28. *Clause 70A* is new. It follows section 155 of the Bengal Tenancy Act, 1885, and provides that where a suit is brought for the ejectment of a raiyat for the reasons mentioned in clause 21 or clause 41 (*b*) or (*c*), no ejectment shall be ordered unless the raiyat refuses to remedy the misuse or breach complained of, or to pay reasonable compensation for the same.

29. *Clause 70B* is new. It provides that an ejectment order shall ordinarily be executed at the end of the agricultural year in which it is passed, subject to any special order of the Court if more speedy action is necessary.

30. *Clause 72.*—We have altered the section of Bengal Act I of 1879 which relates to relinquishment, and assimilated it to the provisions of section 86 of the Bengal Tenancy Act, 1885.

31. *Clauses 73 (3), 233 and 234.*—The period of limitation for the recovery of possession of his holding or village by an occupancy-raiyat or a village-headman has been reduced from six to three years.

32. *Clause 77.*—We have made an addition to give the Local Government power to declare any provisions of the Bill to apply to ghatwali or other service tenures or holdings.

33. *Clause 77A.*—We have inserted this clause to meet the case of homestead lands occupied by a raiyat otherwise than as part of his holding. It is based on section 182 of the Bengal Tenancy Act, 1885.

34. *Clause 78 (2).*—We have altered the date 1907 to 1903, following the precedent established by the Bengal Tenancy Act.

35. *Clause 84.*—We have amended this clause in two important points. *First*, we have indicated that ordinarily the settlement of fair rents shall take place after final publication of the record. In this respect, we have followed the Bengal Tenancy Act, 1885. *Secondly*, we have provided that a Revenue-officer may settle fair rents of his own motion only if specially directed by the Local Government to do so.

36. *Clause 86.*—We have added two provisoes, taken from section 106 of the Bengal Tenancy Act, 1885, with the object of safeguarding the interests of parties.

37. *Clause 93.*—We have added words to make it clear that no demand for rent in respect of an occupancy holding in excess of the rent recorded by a Settlement-officer shall be entertained in any Court, except as provided in this Chapter or in clause 31.

38. *Clause 95.*—We have excised this clause entirely from the Bill. We are agreed that, in the cases referred to in the clause, local inquiries are eminently desirable, and that it is often impossible for Subordinate Judges, Munsifs and Deputy Collectors employed at head-quarters to make such inquiries. We think, however, that injustice may be avoided, without subordinating decrees of Civil or Revenue Courts to subsequent decisions of Settlement-officers, if the Local Government appoints selected officers for the trial of these suits in areas under settlement. Such officers, having more time at their disposal, would be in a position to make local inquiries whenever necessary, and could also try cases locally if this be desired—*vide* sub-section (4) of section 36 of the Civil Courts Act (XII of 1887). The Local Government has already the power to invest any officer with the powers of a Civil Court in Chota Nagpur, under sub-section (*1*) of the section just mentioned. In these circumstances, the retention of clause 95 appears to be unnecessary.

39. *Clause 98A* is new. We have inserted it in order to admit of the enhancement of rents on the application of landlords in cases in which the Government may be unwilling to direct a general revision of a record-of-rights.

40. *Chapter XIV (landlords' privileged lands).*—We have re-cast several of the provisions of this Chapter. Under clause 117, as it originally stood, no lands could be recognised as landlords' privileged lands unless the same had been entered in a register prepared by a Revenue-officer acting under this Chapter. This provision has been excised. We have provided, however, in clause 120A, that, when a question arises in any Court as to whether lands are or are not landlords' privileged lands, the Court shall presume, until the contrary is proved, that the lands are not lands of that special character.

We have also inserted, in clause 120, a list of some of the details to which a Revenue-officer, acting under this Chapter, must have regard in inquiries relating to landlords' privileged lands; and we have provided in that clause that no judgment of a Civil Court, or of the Court of a Deputy Commissioner, shall be conclusive proof, in any inquiry under this Chapter, that land is landlord's privileged land.

We have also provided, in clause 121A, that when once a complete record of landlords' privileged lands is prepared in any area, no additional lands shall at any future time be recognised as lands of that character.

41. *Clause 123.*—We have amended sub-clause (*b*) of this clause so as specifically to make it include headmen of groups of villages. We have also

added an Explanation to the clause, to indicate that the words "rights of a village headman" include a right to hold his office.

42. *Clause 134.*—We have excised sub-clause (*5*) of this clause, because we consider that it is inexpedient to allow cases of the nature therein mentioned to be tried by Revenue Courts We have also amended sub-clause (*6*), making it somewhat more comprehensive.

43. *Clauses 150, 152, 153 and 154* have been omitted, as we do not think it necessary to adopt in rent suits such a severe form of procedure as they provided.

44. *Clause 156* has been amended so as to follow section 102 of the Code of Civil Procedure, 1882.

45. *Clause 172.*—We have made it obligatory upon the Deputy Commissioner, when he makes a local inquiry under this clause, to make, without delay, a note of relevant facts which he has observed.

46. *Clause 182A* is new. It declares that, ordinarily, a decree shall be executed by the Court which made it. It is proposed to provide by rules for cases where this is not possible.

47. *Clause 182B* is new. It provides for the presentation of applications for execution in proper form and verified, and is based on section 235 of the Code of Civil Procedure, 1882.

48. *Clause 183B* is new. It adds to the existing law by declaring certain properties to be exempt from attachment in execution, and follows section 266 of the Code of Civil Procedure, 1882.

49. *Clause 198.*—We have made an addition to this clause, authorising the sale of perishable property in a shorter period than ten days.

50. *Clause 203.*—We have amended the latter part of this clause, so as to leave it to the Local Government to make rules for the disposal of the sale proceeds of moveable property attached in execution.

51. *Clause 207, sub-clause (2) (b).*—We have amended this sub-clause so as to require that all sales in execution against immoveable property under clause 207 shall be made in accordance with selected provisions of the Code of Civil Procedure, 1882.

52. *Clause 211.*—We have added a proviso to this clause, prohibiting any application under the same when an application under clause 210 has been filed.

53. *Clause 219A.*—We have provided, on the lines of section 560 of the Code of Civil Procedure, 1882, for the re-hearing of an appeal heard *ex parte* in the absence of a respondent.

54. *Clause 221, sub-clause (2).*—We have made an addition to this sub-clause, to allow a second appeal to the High Court, in certain circumstances, from orders passed by the Judicial Commissioner in appeals in execution proceedings.

55. *Clause 222.*—Under the existing law, when, in analogous cases, some appeals lie to the Deputy Commissioner and others to the Judicial Commissioner, the Judicial Commissioner has power to transfer to his own file the appeals pending in the Deputy Commissioner's Court. To save inconvenience and expense, we propose, by an addition to clause 222, to allow appellants, in such analogous cases, in certain circumstances to file their appeals in the Court of the Judicial Commissioner, although the same should ordinarily be filed in the Court of the Deputy Commissioner.

56. *Clause 244.*—We have made an addition to this clause, to admit of the recovery of rent due to a landlord from a Mundari khunt-kattidar in the manner in which money due to the Government from a Mundari khunt-kattidar may be recovered.

57. *Clause 244A.*—We have made provision here for the recovery of sums due to a Mundari khunt-kattidar, by his co-sharers, on account of rent paid to a superior landlord.

58. *Clauses 253A and 253B.*—We have made provision here for the realisation and apportionment of costs incurred in proceedings under the Act.

59. *Clause 255.*—We have excised this clause, because we are of opinion that it would cause the greatest inconvenience and expense to the executants of documents, without any compensating advantages.

60. *Clause 257.*—We have made an addition to this clause, directing that, until rules are issued under sub-clause (*1*) of the same, certain sections of the Code of Civil Procedure, 1882, which are now in force under Bengal Act I of 1879, shall continue to be applicable to proceedings under the new law.

We have also inserted a sub-clause providing for the repeal of provisions of the Bill which may be superseded by provisions of the Code of Civil Procedure which are applied by rule made under sub-clause (*1*).

61. *Clause 260.*—We have amended this clause so as to make costs and interest in rent suits, and damages under clause 176, recoverable as if they were arrears of rent.

62. We recommend that the Bill, as now amended, be published in the Calcutta Gazette, and that it be taken into consideration by the Council on the 19th September.

(*c*) on the ground that he has broken a condition, consistent with this Act, on breach of which he is under the terms of a contract between himself and his landlord, liable to be ejected;

(*d*) where he has been admitted to occupation of the land under a registered lease, on the ground that the term of the lease has expired;

(*e*) on the ground that he has refused to agree to pay a fair and equitable rent determined under section 42, or that the term for which he is entitled to hold at such a rent has expired.

Conditions of ejectment on ground of refusal to agree to pay a fair and equitable rent.

42. (*1*) A suit for ejectment on the ground of refusal to agree to pay a fair and equitable rent shall not be instituted against a non-occupancy-raiyat unless the landlord has tendered to the raiyat an agreement to pay the rent which he demands and the raiyat has, within six months before the institution of the suit, refused to execute the agreement. [1885, s. 46 (1) to (9).]

(*2*) A landlord desiring to tender an agreement to a raiyat under this section may either—

(*7*) If the raiyat does not execute the agreement and file it under sub-section (*5*), he shall be deemed, for the purposes of this section, to have refused to execute it.

(*8*) If a raiyat refuses to execute an agreement tendered to him under this section, and the landlord thereupon institutes a suit to eject him, the Deputy Commissioner shall determine what rent is fair and equitable for the holding.

(*9*) If the raiyat agrees to pay the rent so determined, he shall be entitled to remain in occupation of his holding at that rent for a term of five years from the date of the agreement, but on the expiration of that term shall be liable to ejectment on the second ground mentioned in clause (*e*) of section 41, unless he has acquired a right of occupancy.

(*10*) If the raiyat does not agree to pay the rent so determined, the Deputy Commissioner shall pass a decree for ejectment.

(*11*) In determining what rent is fair and equitable, the Deputy Commissioner shall have regard to the rents generally paid by non-occupancy-raiyats for land of a similar description and with like advantages in the same village and (if the Deputy Commissioner thinks fit) in adjoining villages.

[1885, s. 72.]

(2) Where there is more than one tenant paying rent to the landlord whose interest is transferred, a general notice from the transferee to the tenants, published in the prescribed manner, shall be a sufficient notice for the purposes of this section.

[1885, s. 64(1).

(*4*) Any sum deposited as aforesaid may, in the absence of any order of a Civil Court to the contrary, be repaid to the depositor—

(*a*) at the discretion of the Deputy Commissioner, and after serving notice on the landlord and giving him an opportunity to object, and for reasons to be recorded in writing - at any time within a period of three years from the date on which the deposit was made, or

66. When any such application is made, the Deputy Commissioner may, after making such inquiry as he thinks fit,—

(*b*) that he has broken a condition, consistent with this Act, on breach of which he is, under the terms of a contract between himself and his landlord, liable to ejectment,

shall declare the amount of compensation which would reasonably be payable to the plaintiff for the misuse or breach, and whether, in the opinion of the Court, the misuse or breach is capable of remedy; and shall fix a period during which it shall be open to the defendant to pay that amount to the plaintiff, and, where the misuse or breach is declared to be capable of remedy, to remedy the same.

(*2*) The Court may from time to time, for special reasons, extend a period fixed by it under sub-section (*1*).

(*3*) If the defendant, within the period or extended period (as the case may be) fixed by the Court under this section, pays the compensation mentioned in the decree or order, and, where the misuse or breach is declared by the Court to be capable of remedy, remedies the misuse or breach to the satisfaction of the Court, the decree shall not be executed.

Surrender and Abandonment.

Surrender of land by raiyat.

72. (*1*) A raiyat not bound by a lease or other agreement for a fixed period may, at the end of any agricultural year, surrender his holding. [1885, s. 86 (*1*), (*2*), (*4*), (*6*), (*7*). *Cf.* 1879, s. 29.]

(*2*) But, notwithstanding the surrender, the raiyat shall be liable to indemnify the landlord against any loss of the rent of the holding for the agricultural year next following

the date of the surrender, unless he gives to his landlord, at least four months before he surrenders, notice of his intention to surrender.

(*3*) The raiyat may, if he thinks fit, cause the notice to be served through the Court of the Deputy Commissioner within whose jurisdiction the holding or any portion of it is situate.

(4) When a raiyat has surrendered his holding, the landlord may enter on the holding and either let it to another tenant or take it into cultivation himself.

(5) Nothing in this section shall affect any arrangement by which a raiyat and his landlord may arrange for a surrender of the whole or a part of the holding.

Abandonment of land by raiyat.

73. (1) If a raiyat voluntarily abandons the land held or cultivated by him, without notice to the landlord, and ceases either himself or through any other person to cultivate the land and to pay his rent as it falls due, the landlord may, at any time after the expiration of the agricultural year in which the raiyat so abandons and ceases to cultivate, enter on the holding and let it to another tenant or take it into cultivation himself. (*2*) If any landlord intending to measure any land which he has a right to measure is opposed in making such measurement by the occupant of the land,

or if any tenant, having received notice of the intended measurement of land held or cultivated by him, which is liable to such measurement, refuses to attend and point out such land,

the landlord may present an application to the Deputy Commissioner.

(*3*) On receipt of such application the Deputy Commissioner shall, after taking such evidence and making such inquiry as he considers necessary, pass an order either allowing or disallowing the measurement, and, if the case so requires, enjoining or excusing the attendance of any tenant.

The Chota Nagpur Tenancy Bill, 1908.

(*Chapter XI.—Custom and Contract.—Clauses 76—78.*)

(*4*) If any tenant, after the issue of an order enjoining his attendance, refuses or neglects to attend, any map or other record of the boundaries and measurements of the land, prepared under the direction of the landlord at the time when the tenant was directed to attend, shall be presumed to be correct until the contrary is shown.

93. (1) When the rent of an occupancy holding is entered in a record-of-rights which has been prepared and finally published under this Chapter or any law in force before the commencement of this Act, then, subject to the provisions of sections 86, 88 and 89, [1879, s. 28B, 1885, s. 113.]

such rent shall not, except on the ground of a landlord's improvement, be enhanced for a period of—

(*a*) fifteen years after the final publication of the record-of-rights, when such publication was made after the commencement of this Act, or

(*b*) seven years after the final publication of the record-of-rights, when such publication was made before the commencement of this Act ;

(*Chapter XII.—Record-of-Rights and Settlement of Rents.—Clause 94.*)

and such rent shall not be reduced within the said periods, respectively, save on the ground of alteration in the area of the holding or on the ground that the soil of the holding has, without the fault of the raiyat, become permanently deteriorated by a deposit of sand or other specific cause, sudden or gradual;

and no demand for rent in respect of an occupancy holding, in excess of the amount entered in the said record-of-rights, shall be enforceable, save as provided in this Chapter or in section 31:

Provided that, in any area in respect of which a record-of-rights has been finally published before the commencement of this Act, a Revenue-officer may, on the application of any landlord, made within two years from the commencement of this Act, assess a fair rent on lands which are included in a holding and are assessable with rent but for which no rent has been paid or has been entered as payable in the record-of-rights.

(*2*) The periods of fifteen years and seven years mentioned in clauses (*a*) and (*b*) of sub-section (*1*) shall be counted from the date of the final publication of the record-of-rights.

Expenses of proceedings under this Chapter.

94. (*1*) When the preparation of a record-of-rights has been directed or undertaken under this Chapter, [1885, s. 114, & Notfn.]

the expenses incurred in carrying out the provisions of this Chapter in any local area, estate, tenure or part thereof (including expenses that may be incurred at any time, whether before or after the preparation of the record-of-rights, in the maintenance, repair or restoration of boundary-marks and other survey marks erected for the purpose of carrying out the provisions of this Chapter), or such part of those expenses as the Local Government may direct,

shall be defrayed by the landlords, tenants and occupants of land in that local area, estate, tenure or part, in such proportions and in such instalments (if any), as the Local Government, having regard to all the circumstances, may determine.

(*2*) The cost of preparing copies of Survey maps and extracts from records-of-rights under this Chapter for distribution to landlords and tenants shall be deemed to be part of the expenses incurred in carrying out the provisions of this Chapter.

(*3*) The estimated amount of the expenses likely to be incurred for the maintenance, repair or restoration of boundary-marks for a period not exceeding fifteen years, or such part of such amount as the Local Government may direct, may be recovered in advance in the same manner as if such expenses had been already incurred.

(*4*) The portion of the expenses referred to in the foregoing provisions of this section which any person is liable to pay shall be recoverable by the Government as if it were an arrear of land-revenue due in respect of the said local area, estate, tenure or part.

96. In framing a record-of-rights, and in deciding disputes, under this Chapter, the Revenue-officer shall give effect to any lawful agreement or compromise made or entered into by any landlord and his tenant: [1885, s. 109 (1), (3), and Notfn.]

Provided as follows:—

(*a*) the Revenue-officer shall not give effect to any agreement or compromise the terms of which, if they were embodied in a contract, could not be enforced under this Act; and

(*b*) where the terms of any agreement or compromise are such as might unfairly or inequitably affect the rights of third parties, the Revenue-officer shall not give effect to such agreement or compromise unless and until he is satisfied by evidence that the statements made by the parties thereto are correct.

Illustration—A, a proprietor, agrees that B, his tenant, shall be recorded as an occupancy-raiyat. This affects the rights of the tenants of B. The Revenue-officer must, under proviso (*b*), inquire whether B is a tenure-holder or a raiyat, within the meaning of section 5 or section 6. If he finds, on the evidence, that B is a raiyat, he may give effect to the agreement. If he so finds that B is a tenure-holder, he must not give effect to the agreement.

Revision of record-of-rights, and new settlement of rents, under orders of Local Government.

98. (*1*) The Local Government may at any time, either of its own motion or on the application of any landlord or tenant, direct that any record-of-rights which has been finally published under this Act or under any law in force before the commencement of this Act, or any portion of any such record-of-rights, be revised, in the prescribed manner, but not so as to affect any rent entered therein. [1885, s. 104G (2), and Notfn.]

(*2*) At any time after the expiration of the period of—

(*a*) fifteen years from the date of the certificate of the final publication of a record-of-rights, when such publication was made after the commencement of this Act, or

(*b*) seven years from the date of the certificate of the final publication of a record-of-rights, when such publication was made before the commencement of this Act,

and thereafter at intervals of periods of fifteen years, the Local Government may, of its own motion or on the application of any landlord or tenant, direct—

(*i*) that such record-of-rights or any portion thereof be revised in the prescribed manner, and

(*ii*) that a settlement of rents payable by tenants be made under section 84.

(*3*) The foregoing sections of this Chapter shall, subject to any rules made in this behalf under section 256, apply to every revision and settlement referred to in sub-section (*1*) or sub-section (*2*).

Enhancement of rent where application under section 98 is rejected.

98A. If the Local Government rejects any application made by a landlord under section 98, sub-section (*2*), for a revision of a record-of-rights after the expiration of the period of fifteen years or the period of seven years, as the case may be, referred to in that sub-section, such landlord may apply to the Deputy Commissioner for the enhancement of any rent entered in such record-of-rights as being payable to him.

CHAPTER XIII.

PRÆDIAL CONDITIONS, AND THE COMMUTATION AND RECORD THEREOF.

Prohibition against new prædial conditions.

100. From and after the commencement of this Act,— [1897, s. 10 (1).]

(*a*) no tenancy shall be created with any prædial condition attached, other than rent-free tenancies with the sole condition of rendering personal service; and

(*b*) no new prædial condition shall be imposed on any tenancy in existence at the time of such commencement.

(*2*) *(Omitted.)*

Liability of tenant when original conditions of tenancy can not be ascertained.

101. When the original conditions of a tenancy cannot be ascertained, the tenant shall not be liable to any prædial conditions other than or in excess of those to which, by local custom or usage, he, in common with the general body of the class to which he belongs in the village, tenure or estate in which the lands of the tenancy are situated, is liable:

Provided that, in any case in which prædial conditions have been complied with by a tenant for a period of five years continuously, any Revenue-officer acting under this Chapter may, when commuting such conditions under this Chapter, presume that the same have been complied with in accordance with local custom or usage or in accordance with an express or implied contract made at the commencement of the tenancy.

Method of calculating present value of prædial condition.

102. When, in any proceedings under this Act, it becomes necessary for a Court to calculate the value of any prædial condition, such value shall be taken to be its average value during the ten years immediately prior to the proceedings, or during any shorter period for which evidence may be available.

Procedure in suit to recover value of prædial conditions.

103. When, in any suit for the recovery of rent, it is sought to recover the value of the prædial conditions appurtenant to a tenancy, an issue may be framed as to whether the value of the prædial conditions, when added to the rent payable in respect of the tenancy, exceeds a fair rent; and, if it is found that the resulting amount exceeds a fair rent, the Court shall decree the rent and so much (if any) of the value of the prædial conditions as, together with the rent, will not exceed the sum which would, having regard to the special circumstances of the case, be a fair rent.

Voluntary commutation of prædial conditions.

104. (*1*) When any land is held subject to any prædial conditions, the tenant or the landlord may apply in writing to a Revenue-officer for commutation of such conditions. [1897, s. 4.]

The Chota Nagpur Tenancy Bill, 1908.

(Chapter XIII.—Prædial Conditions, and the Commutation and Record thereof.—Clauses 105, 106.)

(2) The Revenue-officer shall thereupon cause a notice to be served on the landlord or the tenant, as the case may be, and shall fix a day for considering the application ; and on such day, or any day thereafter to which the hearing may be adjourned, shall proceed to inquire into the matter and to determine the amount which, in his judgment, is fairly and equitably payable in commutation of such conditions.

(3) In calculating the said amount, the Revenue-officer shall have regard only to the conditions to which the tenant is liable in accordance with local custom or usage or with any contract made when the tenancy commenced, and to the money value of such conditions at the time of making such calculation, and shall follow the procedure provided in section 102:

Provided that the amount payable in commutation shall be so fixed that the total annual rent of the land, including such amount as aforesaid, shall not exceed the sum which would, having regard to the special circumstances of the case, be a fair and reasonable rent if the land were not held subject to any prædial conditions.

Power to order record of prædial conditions, with or without commutation.

105. (1) The Local Government may, in any case in which it is, in its opinion, expedient so to do, make an order directing either— [1897, s. 5.]

(a) that a record of all prædial conditions to which the lands within any local area or any estate, tenure or part thereof are subject shall be prepared, and a commutation of such conditions made, by a Revenue-officer; or

(b) that a record as aforesaid be made by a Revenue-officer without commutation of such conditions as aforesaid.

(2) A notification in the Calcutta Gazette of an order under this section shall be conclusive evidence that the order has been duly made.

(3) The record of prædial conditions shall be prepared in the prescribed manner.

Preparation of record.

106. (1) Whenever an order is made under section 105, the Revenue-officer shall thereupon proceed to prepare a record containing the following particulars, namely :— [1897, s. 6.]

(a) the name of each tenant;

(b) the name of his landlord ;

(c) the rent payable for the lands held by each tenant at the time the record is being prepared ;

(d) the prædial conditions to which all or any of such lands are subject;

(e) the amount which, in the judgment of the Revenue-officer, may fairly be deemed payable in commutation of such conditions, and

(f) any other prescribed particulars.

(2) In calculating the amount payable in commutation of such conditions, the Revenue-officer shall be guided by the provisions of section 104, sub-section (3).

The Chota Nagpur Tenancy Bill, 1908.

(Chapter XIII.—Prædial Conditions, and the Commutation and Record thereof.—Clauses 107—110.)

(*1*) When the Revenue-officer has prepared a record under section 106, he shall cause a draft of the same to be locally published in the prescribed manner and for the prescribed period, and shall receive and consider any objections which may be made to any entry therein or to any omission therefrom during the period of publication. [1898, s. 7.]

(*2*) When objections have been considered and disposed of in the prescribed manner, the record shall be finally framed and published in the prescribed manner.

Provided that no such direction shall be made until reasonable notice has been given to the parties concerned to appear and be heard in the matter.

Procedure where a survey and record-of-rights are being made.

110. In every local area, estate, tenure or part thereof, in which a survey is being made and a record-of-rights is being prepared under this Act or under any law in force before the commencement of this Act, [1897, s. 9A.]

and in which a record of prædial conditions is being prepared and a commutation thereof is being made under an order issued under section 105,

(*2*) In calculating the cash value of such conditions, the Revenue-officer shall be guided by the provisions of section 104, sub-section (*3*).

(*3*) The Revenue-officer shall enter in the *khatiyán* of each tenant the cash value of the prædial conditions (if any) to which such tenant is liable, as ascertained under clause (*1*).

The Chota Nagpur Tenancy Bill, 1908.

(Chapter XIII.—Prædial Conditions, and the Commutation and Record thereof.—Clauses 111—115.)

(7) After the disposal of objections, the said statement, and the entries in the *khatiyan* relating to prædial conditions, shall be finally published at the same time and in the same manner as the record-of-rights.

(8) At any time within three months from the date of the certificate of the final publication of the record-of-rights, a suit may be instituted before a Revenue-officer, for the decision of any dispute regarding any entry in the record relating to prædial conditions or regarding any omission to enter any such conditions in the record; and the Revenue-officer shall hear and decide the dispute.

[1879, s. 113.]

Payment of purchase money.

202. (*1*) The price of every lot shall be paid at the time of sale, or as soon thereafter as the officer executing the warrant may direct; and, in default of such payment, the property shall again be put up and sold. [1879, s. 114.]

203. (*1*) From the proceeds of the sale, the officer executing the warrant shall make a deduction, at the rate of one anna in the rupee, on account of the costs of the sale, and shall transmit the amount so deducted to the Deputy Commissioner in order that it may be credited to the Government. [1879, s. 115.]

(*2*) The said officer shall deal with the rest of the proceeds in the prescribed manner.

204. (*1*) If, before the day fixed for the sale, a third party appears before the Deputy Commissioner and claims a right or interest in any of the moveable property seized in execution, the Deputy Commissioner shall examine such party or his agent according to the law for the time being in force relating to the examination of witnesses; and, if he sees sufficient reason for so doing, may stay the sale of such property. [1879, s. 148.]

(*2*) The Deputy Commissioner shall, after taking evidence, adjudicate upon such claim, and shall make such order thereupon as he thinks fit. [1879, s. 119.]

(*3*) If the claimant fails to establish his right to the property seized in execution, the Deputy Commissioner may, by his order under sub-section (*2*), award to the judgment-creditor against the claimant, in addition to the costs of the proceedings, such sum as the Deputy Commissioner may consider sufficient to cover any loss of interest or any other damage which the judgment-creditor has sustained by reason of the postponement of the sale. [1879, s. 120.]

(*4*) The party against whom any order is passed by the Deputy Commissioner under this section may, at any time within one year from the date of the order, bring a suit in the Civil Court to establish his right: [1879, s. 21.]

Provided that, if the property has been sold, the suit shall not be for the recovery of the property, but for damages against the judgment-creditor by whom the property was brought to sale.

Irregularities not to vitiate sale.

205. No irregularity in publishing or conducting a sale of moveable property under a warrant of execution issued under this Chapter shall vitiate such sale; but nothing contained in this section shall bar any person who sustains damage by reason of any such irregularity from recovering damages by suit in the Civil Court, if instituted within one year from the date of the sale. [1879, s. 122.]

Sale of tenure or holding in execution of decree for arrears of rent.

(*b*) stay any such sale for any period specified in the order:

Provided also that any sale of a resumable tenure under this section shall not affect the right of the grantor or his successor in title to resume such tenure, but shall be made subject to such right.

(*2*) When a warrant of execution has been issued under this Chapter against the person or moveable property of the judgment-debtor, no application shall be received under sub-section (*1*) while such warrant remains in force.

207. (*1*) If, after the sale of a tenure or holding in pursuance of section 206, any portion of the amount decreed remains due, process may be applied for against any other property, moveable or immoveable, belonging to the judgment-debtor. [1879, s. 123, para. 5.]

(*2*) Notwithstanding anything contained in sub-section (*1*), a decree-holder may, with the permission of the Deputy Commissioner, granted for reasons to be recorded in writing, proceed against any other property, moveable or immoveable, of the judgment-debtor, without first making application for the sale of the tenure or holding in respect of which the arrear has accrued.

the Deputy Commissioner shall examine such party according to the law for the time being in force relating to the examination of witnesses; and if he sees sufficient reason for so doing, and if such party deposits in Court or gives security for the amount of the decree, the Deputy Commissioner shall stay the sale, and shall, after taking evidence, adjudicate upon the claim:

Provided that no such adjudication shall be made if the Deputy Commissioner considers that the claim was designedly or unnecessarily delayed:

Provided also that no transfer of a tenure shall be recognised unless it has been registered in the office of the landlord or sufficient cause for non-registration is shown to the satisfaction of the Deputy Commissioner.

(*2*) The party against whom judgment is given by the Deputy Commissioner under sub-section (*1*) may, at any time within one year from the date of the judgment, bring a suit in the Civil Court to establish his right. [1879, s. 126.]

C. E. A. W. OLDHAM,
Secretary to the Government of Bengal.

ORDER.

1. This order may be cited as the Calcutta Tramways (Behala) order, 1908.

2. The tramway authorised under this order shall be subject to all the provisions of the Bengal Tramways Act, 1883, and the Calcutta Tramways Company, Limited (who and their assigns are hereinafter called "the promoters"), shall, in addition to the powers and authorities herein contained, have all the powers and authorities conferred by the said Act.

3. The promoters are hereby authorised to construct, maintain and work, subject to the provisions of this order, and in accordance with the plans and drawings deposited with the Government of Bengal, an Electric Tramway with double lines on the following route, viz.:—

Along and upon the Diamond Harbour Road from the Calcutta Municipal Boundary at Shahpore Road to the village of Behala.

4. The promoters have entered into the agreement with the Chairman of the Municipal Commissioners of the South Suburban Municipality, which is set out in the Schedule hereto, and which is hereby confirmed. The Commissioners of the South Suburban Municipality shall have power to purchase the said tramway with the plant, machinery, land, buildings, rolling stock, stores and all other things used in connection therewith belonging to the promoters within the South Suburban Municipality in the manner and upon and subject to the terms and conditions specified in clauses 4 and 5 of the said agreement.

5. The roadway along that portion of the said route which traverses the Behala Bazar shall be widened by the Government of Bengal up to a total width of 35 feet 7 inches, and such land as it may be necessary to take up for that purpose shall be acquired by the Government of Bengal under the Land Acquisition Act, 1894. The expenses of and incidental to such widening and acquisition as aforesaid shall be borne and paid, as to Rs. 1,000, part thereof, by the Commissioners of the South Suburban Municipality, as to one moiety of the balance thereof by the promoters, and as to the remainder thereof by the Government of Bengal.

6. The said tramway shall be completed and opened for traffic within two years from the date of this order; or, if the construction thereof shall be necessarily delayed beyond that period in consequence of the non-completion of the widening of the roadway as hereinbefore mentioned, then within such further time as shall be commensurate with the period of such delay.

7. The said tramway shall be constructed on a gauge of 4 feet 8½ inches. The rails shall be of the grooved girder type, weighing not less than 101 pounds per yard, and in general shall be laid on a concrete stringer foundation and held to gauge by means of tie-bars spaced according to the standard practice. The promoters may from time to time, with the approval of the Government of Bengal, adopt any such improvements in the rails, in the situation of the same, and in the substructure upon which they rest, as they may deem necessary for the proper working of the said tramway.

8. The promoters shall, at their own cost, metal the roadway between the rails and to the width of 18 inches beyond the outermost rail on each side, and in addition thereto, metal a width of not less than 6 feet of the roadway in contiguity to and throughout the whole length of the track.

The promoters may, with the consent of the Government of Bengal, cut down or lop any tree standing on or alongside the road which is likely to interfere with the operation of the cars, or which may be a source of danger to the tramway traffic.

10. Subject to the approval of the Government of Bengal, the promoters may from time to time make all such crossings, passing places, sidings, junctions or other works in addition to those particularly specified in or authorised by this order as may be necessary or convenient for the efficient working of the said tramway, or for providing access to any building or works of the promoters.

11. The motive power of the said tramway shall be electrical energy conveyed by means of underground cables and overhead trolley wires, suspended either by bracket arms attached to steel poles, or by galvanised steel span wires strung between poles, as the case may require. The rails shall be used as return conductors and for this purpose shall be adequately provided at the joints with copper bonds to ensure a complete circuit.

12. The promoters shall at all times, to the satisfaction of the Government of Bengal, maintain and keep in good repair, and in such condition as not to afford danger to the ordinary traffic, the rails and the substructure of the tramway and about 29 feet of roadway, that is, up to 18 inches beyond the rails on each side of the road.

13. This order is made on the condition that the promoters do, and shall in the construction, maintenance and working of the said tramway, at all times conform to and govern themselves by all and every the rules for the time being in force, regulating the generation and use of electrical energy, under the Indian Electricity Act, 1903, or any statutory modification or re-enactment thereof for the time being in force, the provisions of which rules shall be deemed to be incorporated in, and to form part of, this order in like manner as if the same had been expressly recapitulated herein. The said tramway shall not be opened for public traffic, until the same shall have been inspected by the Electrical Inspector to the Government of Bengal and certified by him to be fit for such traffic.

CAUTION WHEN APPROACHING GERMAN COASTAL WATERS.

No. 360 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1202 of 1908), are republished:—

Subject.—The German Government has given Notice that under certain circumstances, such as manœuvres, ordinary exercises, or for other causes, it may be necessary to prohibit free entrance into German harbours and river mouths by night.

Signals.—To indicate that entrance to a harbour is closed, or that obstructions exist therein, three red balls by day and three red lights by night, placed vertically one above the other, will be shown in a conspicuous position near the approach to the harbour.

Caution.—Vessels must then approach the harbour with the greatest caution. At night it is advisable, when possible, to anchor until daybreak outside the prohibited area.

The same course should be pursued if search lights are at work, or signals given, the meaning of which is not recognisable from the Sailing Directions or Light Lists.

Examination—

Service.—All merchant vessels desirous then to enter or leave these privileged harbours, must not enter or leave without a pilot, and must submit to examination if required.

The establishment of an Examination service will not be notified publicly, but, so far as possible, the requisite reports and directions will be given to approaching vessels by Patrol ships, which will also carry the abovementioned signals, viz., three red balls by day and three red lights by night, and also, under certain circumstances, the pilot flag.

The Examination commission (and pilots) are on board the Patrol ships; it is in the real interest of Masters of vessels to comply with all directions received from them.

Under all circumstances vessels are prohibited from passing the line of Patrol ships without communicating with them.

On a gun being fired or signal made from a Patrol ship, all merchant vessels must stop immediately.

No. 121G.M., dated Calcutta, the 20th June 1908.

From—H. M. PEAT, Esq., Chairman, Garden Reach Municipality,
To—The Magistrate of the 24-Parganas, Alipore.

WITH reference to your No. $\frac{24}{1}\frac{2}{2}$M. of 1908-09, dated the 13th instant, I have the honour to submit the following report on the working of the Licensed Jute-Warehouse and Fire-Brigade Act in the Municipality for the year 1907-08.

2. During the year under review licenses were granted to 29 warehouses, including wood, fire-wood and straw-depôts and the amount of license fees levied was Rs. 1,047-8. Besides the above a sum of Rs. 99 was realized under section 25, clause (*b*) of the Fire-Brigade Act, in respect of the Kapidanga, the Bathal and the Kasaipara bustees. The total revenue, therefore, was Rs. 1,146-8 and the share of expenditure allotted to this municipality by the Commissioner of Police, which was discharged by two instalments, was Rs. 2,019. This deficit of Rs. 872-8, which was due to levy of license fees in respect of warehouses in strict accordance with the provisions of section 10 of the Fire-Brigade Act, was met from the general funds of the municipality.

3. There was no fire of a serious nature in the municipality during the year under report.

4. A statement of licensed warehouses within this municipality during the year 1907-08 is submitted below :—

No. 8404, dated Calcutta, the 30th July 1908.

From—F. L. HALLIDAY, M.V.O., Commissioner of Police, Calcutta,
To—The Secretary to the Government of Bengal, Municipal Department.

I HAVE the honour to submit, in accordance with section 41, Act I of 1893, the following report on the working of the Fire Brigade in the town and suburbs of Calcutta and in Howrah during the year 1907-08.

2. The force at the close of the year under review is shown in Appendix I attached. There has been no alteration in the strength of the Fire Brigade during the year under review.

3. A statement showing the receipts and expenditure of the Fire Brigade Fund is shown in the Appendix II.

The year opened with a balance of Rs. 20,471-9-9, the receipts amounted to Rs. 83,709-4-6 and the total expenditure to Rs. 96,089-6-3, leaving a balance of Rs. 8,091-8-0, at the close of the year.

Receipts.—Fees under the Petroleum Act were better than the estimate by Rs. 390; hire of engines and judicial fines under the Act realised Rs. 1,208 and Rs. 52 respectively, but there was a less amount realised by the sale proceeds of unserviceable stores and recovery of telephone rent. The net result was an actual increase in receipts of Rs. 1,247-4-6 over the estimate.

Expenditure.—

(*a*) Under the head of "Establishment" there was an increase over the Budget Estimate due to the grant of grain compensation allowance. The amounts shown in the "Decrease" column represent savings of Rs. 1239-1-5 on account of vacancies in the khalasi staff.

(*b*) The net increase under the head of "Contingencies" was principally due to an additional charge on account of pension owing to the retirement of the Chief Engineer and to the purchase of two horses.

(*c*) Under the head "Other charges" the increased expenditure of Rs. 842-5-4 was due to the fact that the cost of establishment for collection of rates for the year 1906-07 was paid during the year under report to the Cossipore-Chitpur Municipality.

4. One hundred and forty-eight fires of all degrees occurred during the year 1907-08.

Thirty-six serious fires in Town, River and Docks, 24 in the suburbs and 10 in Howrah and a further one in the Aratoon Jute Mill at Dakindary Road, Dum-Dum, at which the Fire Brigade attended.

There were also 77 petty fires, 28 in the Town, on the River and in the Docks, 44 in the suburbs, and 5 in Howrah.

Twelve of the total number of fires occurred in buildings licensed under the Licensed Warehouse and Fire Brigade Act, I of 1893.

9. *Prosecutions, etc.*—Four licenses were granted under section 36, Act I of 1893, for letting off fire-works, rockets, etc. None of them were suspended under section 37 of the Act during the year. Seven persons were arrested, of whom five were convicted and fined, for letting off fire-works under section 66, Act IV of 1866, one for selling fire-works without license, section 36, Act I, 1893, and one case was struck off.

Two prosecutions were instituted under Act IV of 1884 for possessing fire-works for sale. The accused were convicted and fined. Two licenses for the sale of fire-works were cancelled during the year.

10. *Water supply*—The water used by the Brigade is obtained from the street mains, wherever the unfiltered water supply has been extended. It is however necessary, as soon as the Brigade leaves the station, for the Pumping Station to be rung up on the telephone and a request made to put on pressure.

Where there are no street mains available, water is obtained from any tank, and in some cases, when the tide allows, from the river Hughli direct.

In Howrah the supply of water from tanks is very scanty and is getting less and less every year, there is no other source of supply except from the river Hughli.

Howrah, Chitpur, Garden Reach, and a portion of the added area are not supplied with unfiltered water.

The East Indian Railway goods sheds have a supply of water of their own for the protection of their goods sheds. They also keep 2 manual engines and a supply of hose and a staff of men to work their appliances.

They are also arranging for "Sprinklers" and electric pumps for the new three-storied godowns lately erected on the river front.

They also intend to put instantaneous instead of screw couplings wherever necessary, in order to bring their appliances into line with the Calcutta Fire Brigade.

11. *Telephones and Fire alarms.*—At the Head quarters Lal Bazar there is a telephone exchange with 55 connections (and space for 45 more) to all Police Stations.

Communication can also be obtained through the Head Telephone office and Government Telegraph Office with any subscriber on the General Telephone Exchanges.

The direct communication from Head-quarters is principally with Thanas and Pumping Stations and also to the Fire-Float stationed off Fort Point.

The East Indian Railway goods sheds are in direct telephonic communication with Howrah Fire station and also have a direct Fire alarm (the only one in Calcutta) to the Howrah Fire Station. Besides the telephone, for the purpose of reporting fires there are lookouts at all Fire Stations where steam or manual engines are kept.

At Head-quarters and Howrah, Tell-tale clocks have lately been introduced on the Look-out Towers and have proved a useful check.

The Port Commissioners and the Jute Association have been approached on the subject of introducing street fire alarms, and the suggestion has also been thrown out that the Mills and Press Houses within the area served by the Calcutta Fire Brigade should be connected with the Fire stations by a direct telephone system and alarm bells. At present the only connection most of the Mills have is a private wire to their own offices. This is far from satisfactory, as much valuable time may be lost before the Brigade is even advised of a fire having broken out. A delay of even a few minutes may mean a considerable loss of valuable property.

New Fire Appliances.—Sanction has been applied for to allot funds in the coming year's Budget to enable the Brigade to purchase a 65-foot combined Water-Tower and Fire-Escape. Although the majority of buildings in Calcutta are so built that escape from them on the outbreak of a fire, is easy, still a large number of very tall structures are being put up in Calcutta, for instance Chowringhee Mansions and the New Chartered Bank in Clive Street, where an escape might be necessary.

Water-Tower and Escape.

But the principal use to which it is intended to put this Water-Tower will be, at large Jute and Cotton Fires when the walls are in an unsafe condition and it is not possible to pump water direct on to the fire turn them.

By means of the Tower, a stream of water can be driven right into the heart of the flames.

A "Pompier" Ladder was during the year obtained from England and has already proved itself useful.

Ladder.

13. At the Aratoon Jute Mills fire, the Brigade had to drive some 7 miles from Head-quarters, and a portion of that distance was through the badly lighted Suburban roads and lanes.

Lamps.

In consequence, a pair of Acetylene head lights were purchased and have proved a great success, not only in Suburban lanes, but on foggy nights during the cold weather, in the town.

Two Acetylene hand lamps have been purchased. They have proved greatly superior to the old-fashioned oil lamps, which have hitherto been used when moving about at a fire.

The Port Commissioners' Fire Float materially assisted the Brigade on several occasions, by pumping water for the Engine from the River. On one occasion the Port Commissioner's Fire Engine stationed at the Port Commissioners' Docks came up to Chitpur to assist at a Jute Fire, but as the river was too distant, she was unfortunately unable to render help. This Engine should be supplied with a portable tank so that she can work at a distance, from the River or Docks with the assistance of the Fire Float.

Buckets.

Collapsible canvas buckets (German Army Pattern) have been substituted for galvanised iron. This is a great saving in weight as well as space.

These are principally used for carrying feed water to the boiler of the engine at fires. The Calcutta unfiltered water has so much dirt in it, that it is practically impossible to use it for the engine boilers. Clean water has to be frequently carried considerable distances. The Calcutta Corporation are unable to supply the Calcutta Fire Brigade with filtered water, when the supply is interrupted, as it usually is at night, when fires are most prevalent. The continuous supply of filtered water will, when universally introduced, considerably benefit the Brigade as well as the public.

Portable telephones.

Enquiries are being made as to the practicability of purchasing a portable telephone to communicate between the engine and firemen who often work at a considerable distance from the fire-engine.

It would also be most useful in communicating with Head-quarters by means of an attachment to over-head telephone wires.

Tourniquets.

Twenty-five Tourniquets or hose clamps of an instantaneous pattern were purchased during the year. They are exceedingly handy and easily and quickly fixed in case of a leak in the hose.

14. *Calls.*—Calls to the number of 148 were recorded during the year, being an increase of 28 over the previous year. The above figures include 7 River fires attended by the Brigade assisted by the Port Commissioners' Fire Floats. The distance travelled to and from fires by the Brigade was 326·5 miles. Eighty three fires were attended by the Brigade during the year. The average distance travelled per fire was 3·93 miles. Five horses died or were destroyed (under medical certificate) during the year.

15. *Fatality.*—The only fatality during the year was in the case of one Binda Bewah, an old woman, aged 90 years, who was burnt to death in a gole-patta hut, in which she was sleeping at 5 A.M. on 15th January 1908.

16. *Miscellaneous.*—There is a forge attached to the Brigade which does most useful work not only in shoeing the horses, but in making up a great deal of iron work.

Chief Engineer J. Holmes was granted combined leave for 23 months on August 30th, 1907.

Mr. J. G. Fulthorpe was appointed Chief Engineer in his place and took over charge from him on the 1st September 1907.

17. *Conference.*—The Port Commissioners, Jute Mills Association, Calcutta Fire Insurance Agents Association and Calcutta Fire-Brigade met in conference to consider the question of introducing a universal standard of hose (both in quality and size) and connections during the year under review.

The question of Fire Alarms was also considered. A final settlement had however not been arrived at before the close of the period under report.

I have the honour to be,

SIR,

Your most obedient servant,

F. L. HALLIDAY,

Commissioner of Police.

Hose reels with 350 feet of hose and necessary gear are posted at Fenwick Bazar, Taltolla, Sukea Street, Jorabagan, Kumartuli, Burtolla, Ballygunj, Muchipara and Alipur Thanas. These reels are used by the local police in case of fire, but can only work during the hours when water pressure is on; the supply being interrupted.
It is proposed to place another hose reel this year at Ekbalpur Thana, as the unfiltered water is now extended to that jurisdiction.

CALCUTTA,
The 30th July 1908.

F. L. HALLIDAY,
Commissioner of Police.

ANNUAL REPORT FOR 1907-08 UNDER THE LICENSED WAREHOUSE AND FIRE-BRIGADE ACT I OF 1893, AS AMENDED BY ACT I OF 1894.

Dated Howrah, the 16th June 1908.

From—A. W. Cook, Esq., Chairman of the Howrah Municipality,
To—The Magistrate of Howrah.

I HAVE the honour to report that 309 warehouses were licensed in 1907-08 out of 347 registered during that year, against 314 out of 366 registered in 1906-07; the details are as follows:—

	Year.	Jute.	Cotton.	Hay.	Straw.	Wood.	Resin.	Waste paper.	Varnish.	Total
egistered	1906-07 ...	42	39	·1	42	238	1	3	...	366
	1907-08 ...	43	41	1	33	223	1	3	2	347
censed	1906-07 ...	35	30	1	34	211	1	2	...	314
	1907-08 ...	38	28	1	29	209	1	1	2	309

2. The income from license-fees during the year under report amounted to Rs. 6,977, of which Re. 1-8 were collected on account of arrears and Rs. 57 were due to a few extra items of demand on account of the year 1906-07, but realised in 1907-08.

3. The demand, collection, remission and balance for 1907-08 are shewn in Appendix A, and the details of licenses granted in this year to jute and cotton warehouses are entered in Appendix B. Owing to the comparative unimportance of the 243 licenses granted for the storage of straw, wood, hay, resin, waste paper and varnish in 1907-08 against 249 in the previous year, they have not been entered in Appendix B, and it may be noted that such license-fees have only been levied under the Fire-brigade Act since July 1893, prior to which they were levied under section 261 of the Bengal Municipal Act.

4. The decrease in collection is due to the reduction of rates—*vide* Resolution of the Commissioners passed at a meeting held on 27th April 1907 on account of the reduced demand of the Commissioner of Police, Calcutta, for Fire-brigade establishment and also on account of the Commissioners undertaking to meet half that demand from General Revenues under section 10 of the Licensed Warehouse and Fire-brigade Act.

5. There were 60 prosecutions in the year under review, which realized Rs. 164 against 36 in the previous year, which produced Rs. 126.

6. The expenditure incurred in assessing and collecting license-fees amounted to Rs. 1,025, as detailed below:—

	Rs.
Salary of General Supervisor and Assessor ...	600
Ditto Inspector	180
Commission of Inspector	125
Salary of clerk	60
Ditto peon	51
Contingencies	9
Total ...	1,025

7. The Fire-brigade establishment continued under the control of the Commissioner of Police, Calcutta. The Fire-brigade station in Howrah stands in a very central position north of the Municipal market, and from a wooden stage raised over it the whole town is overlooked. There were eleven fires during the year, the details of which are given in Appendix C. Besides these

there were five other petty fires: the brigade turned out to all of these fires and extinguished them, except one which was extinguished by neighbours before the arrival of the brigade. The eleven large fires above mentioned were all extinguished by the Fire-brigade.

8. The Commissioner of Police demanded Rs. 8,884 for the maintenance of the Fire-brigade in 1907-08, and this amount was remitted to him during the year.

From—The Hon'ble Sir Charles Allen, Kt., I.C.S., Chairman of the Corporation of Calcutta,

To—The Secretary to the Government of Bengal, Municipal Department.

I have the honour to submit the following report under section 41 of Act I (B.C.) of 1893 for the year 1907-08.

2. The amount to be realised by fees during the year was Rs. 28,266 as against Rs. 34,368 in the year 1906-07. The rate for calculating the fees under section 10 was in consequence reduced from $8\frac{1}{2}$ to $6\frac{1}{2}$ per cent. on the annual valuation of warehouses.

3. The work of assessment under the Act was done, as heretofore, by the general assessing staff of the License Department.

4. During the year 132 licenses were granted and 18 refused. In 1906-07 the figures were 132 granted and 15 refused. The following statement gives the result of applications for license :—

Observations, warnings and Prosecutions.

2. In Calcutta and Howrah there was an average emission of dense black smoke for 2·5 minutes in the hour in March 1908, against 3·28 minutes in the hour in April 1907 and 13 minutes in the hour in April 1906, when the work of the Commission was first commenced. This result is satisfactory. Gas and electric motive power supplied from street mains are being introduced into a few factories in place of steam-power so as to avoid smoke.

Reduction of smoke in Calcutta and Howrah.

3. The Commission received during the year 15 written complaints, all of which were attended to promptly. Formerly considerable difficulty was experienced in getting the chimneys of mill factories raised, but this difficulty is likely to diminish, as owners realise that a better draught, easier steam, and smaller consumption of fuel are obtained by so doing. The Lieutenant-Governor recognizes with pleasure the assistance afforded to the Commission by factory owners and those in charge of furnaces in trying to prevent smoke.

Complaints.

4. The thanks of the Lieutenant-Governor are due to the President and other members of the Commission, and particularly to the non-official members who have willingly given their time and services to its work.

ORDER—Ordered that a copy of the Resolution be forwarded to the Government of India, Department of Commerce and Industry; the President of the Smoke-nuisances Commission; the Commissioners of the Presidency and Burdwan Divisions; the Commissioner of Police, Calcutta; the Secretary, Bengal Chamber of Commerce; the Secretary, Calcutta Trades' Association; and the Secretary, Bengal National Chamber of Commerce.

Ordered, also, that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

W. A. INGLIS,

Secretary.

RESOLUTION ON THE ANNUAL REPORT OF THE CIVIL VETERINARY DEPARTMENT, BENGAL, AND OF THE BENGAL VETERINARY COLLEGE FOR THE YEAR 1907-08.

REVENUE DEPARTMENT—AGRICULTURE.

Calcutta, the 11th September 1908.

RESOLUTION—No. 3963Agri.

READ—

The Annual Report of the Civil Veterinary Department, Bengal, and of the Bengal Veterinary College for the year 1907-08.

Lieutenant-Colonel Raymond,. F.R.C.V.S., held combined charge of the Bengal Veterinary College and the Provincial Civil Veterinary Department throughout the year. He was assisted by Mr. Harris, who joined his appointment as Superintendent, Civil Veterinary Department, Eastern Bengal and Assam, on 28th May 1907, and by Mr. D. Quinlan, the present Superintendent of the Civil Veterinary Department, Bengal.

2. *The Bengal Veterinary College.*—The popularity of the Bengal Veterinary College has increased considerably. There were 151 students on the roll during the year, compared with 104 in the previous year, of whom 60 came from Eastern Bengal and Assam and 12 from Burma, Madras, the United Provinces and the Punjab. That the students have been able to appreciate the instruction is proved by the report of the Board of Examiners, which shows that 82, 90 and 88 per cent. of the students passed in the first, second and third years, respectively. The Institution itself has grown rapidly, and during the year the new hostel to accommodate 156 students, the *post-mortem* room, and quarters for the Assistant Surgeon and the Overseers were completed. Lieutenant-Colonel Raymond has been able to do much scientific work in the new bacteriological laboratory, and in addition to ordinary research he has made important investigations in connection with rabies cases and the Glanders and Farcy Act. It is unfortunate that the completion of the buildings has been retarded this year through want of funds. Lieutenant-Colonel Raymond has now organised the administration of the Glanders and Farcy Act in Calcutta. The area has been divided into six districts, each in charge of a Veterinary Inspector. No animal has been destroyed except after personal examination by Lieutenant-Colonel Raymond, whose administration of the Act has been most tactful.

3. *The Veterinary Infirmary, Belgachia.*—The popularity of the Infirmary has increased, and the number of cases treated was 4,132 as compared with 3,095 in 1906-07. It is satisfactory to note also that the number of out-door patients has increased nearly 100 per cent.

4. *Veterinary Hospitals and Dispensaries.*—There are now 25 Veterinary dispensaries in Bengal. One dispensary at Arrah was opened during the year, and dispensaries at Chapra and Bhagalpur haye been completed since the end of the year. The latter, on which over Rs. 10,000 have been spent, was due to the liberality of Babu Ramani Mohan Singh. The Lieutenant-Governor would draw the attention of the Superintendent to last year's Resolution and again ask him to record more fully his opinion about the working of the several institutions during the year and the causes of their comparative success or failure. During the present year there has been a very large increase in the cases treated at Hooghly, the 24-Parganas, Nadia, Jessore, Darjeeling, Bhagalpur, Angul, Puri and Ranchi, and a large decrease in Darbhanga, Monghyr, and Hazaribagh. The causes of these fluctuations should be ascertained by the Superintendent, and in the case of the Sonthal Parganas, an explanation of the remarkable increase should be submitted to Government. The total number of patients rose during the year from 32,736 to 61,557. The number of horses treated during the year was 10,430 (which is almost the same as last year), but the number of cattle treated has increased from 18,525 to 49,458.

5. *Diseases.*—The information given in Table II of the number of deaths from contagious diseases is founded upon the reports of chaukidars, checked in a few cases only by the Veterinary staff. The results at present obtained in this way are not reliable, and in the particular case of the 24-Parganas are so obviously incorrect that the Superintendent will be asked to submit a special report on them. Leaving the figures of that district out of account the number of deaths from contagious diseases was 10,557 compared with 21,025 last year. There were 259 cases of death from glanders, of which 249 were detected in Calcutta. It is observed that there has been a large decrease in the number of cattle inoculated for rinderpest from 22,613 to 5,978. The reasons for this considerable falling-off should be reported to the Lieutenant-Governor, who attaches the greatest importance to this branch of the Superintendent's work. The percentage of fatal cases was only ·33.

6. *Breeding Operations.*—The Lieutenant-Governor is pleased to see that some progress has been made in the improvement of the breed of cattle, and that steps are being taken to protect the Bramhani breeding bulls in the districts. There are now three herds of cattle at Sripur, Pusa and Kalimpong respectively, and in time it will be possible to supply good bulls to the surrounding villages.

7. *Fairs and Shows.*—There were 13 fairs and shows held during the year, and all but two were attended by officers of the Department.

8. *General.*—During the year the scheme for the reorganisation of the Civil Veterinary Department received the final sanction of the Secretary of State and the service has been made pensionable. According to this scheme there will ultimately be two Veterinary Assistants in every subdivision in the Province with a superior staff consisting of 30 Inspectors and 9 Deputy Superintendents. The scheme will be brought into force gradually as funds permit. The separation of the Civil Veterinary Department from the administration of the Bengal Veterinary College was sanctioned during the year and took effect from the 1st of April 1908. Mr. D. Quinlan, who was under training with Lieutenant-Colonel Raymond, has been appointed Superintendent of the Civil Veterinary Department, while Lieutenant-Colonel Raymond takes charge of the Bengal Veterinary College and the administration of the Glanders and Farcy Act in Calcutta. The first Imperial Veterinary Conference was held at Calcutta in February 1908 when the members visited the Bengal Veterinary College.

9. The Lieutenant-Governor desires to acknowledge the uniformly excellent character of Lieutenant-Colonel Raymond's work, and he endorses the opinion expressed by him of the good work done by Mr. D. Quinlan, I.C.V.D., and Mr. E. H. Brand, the Assistant Principal of the College.

By order of the Lieutenant-Governor of Bengal,

F. W. DUKE,

Offg. Chief Secy. to the Govt. of Bengal.

SUMMARY OF THE RAINFALL OBSERVATIONS TAKEN IN BENGAL DURING THE MONTH OF AUGUST 1908.

During the month of August, the rainfall was in general defect throughout Bihar and Bengal proper, Bankura, Midnapore and Calcutta excepted, where it was slightly in excess of the normal. It was heavy in Orissa, Ranchi, and Singbhum. Expressed in percentage figures, Sambalpur, Angul, Cuttack, Balasore, Puri, Ranchi, and Singbhum received 199, 137, 152, 149, 157, 131 and 146 per cent. of rain respectively. In Bihar the fall was in defect. The deficiency was greatest in the districts of Patna, Champaran, Muzaffarpur, Darbhanga, Monghyr, Bhagalpur, and Purnea. All the above districts recorded less than 60 per cent. of the normal fall. On an average South-West Bengal received 10·04 inches, Bihar 6·29 inches, Orissa 19·32 inches, and Chota Nagpur 13·71 inches. The departure from the normal was −1·70 inches in South-West Bengal, −5·54 inches in Bihar, +7·04 inches in Orissa, and +0·37 inches in Chota Nagpur.

From the Divisional percentage tables attached it will be seen that South-West Bengal received 86 per cent., Bihar 53 per cent., Orissa 157 per cent., and Chota Nagpur 103 per cent. of rain.

The total rainfall from January to August was 105 per cent. in South-West Bengal, 59 per cent. in Bihar, 102 per cent. in Orissa, and 90 per cent. in Chota Nagpur.

The following table compares the rainfall in the four divisions during the month of August with the normal fall, the actual being given as a percentage of the normal. The table also shows the actual falls for each of the previous months of the year expressed in the same way, and the last column of the table shows the total rainfall of the past eight months of the year 1908:—

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; p, passing temporary showers; g, dark, gloomy; t, thunder; ≤, lightning d, drizzling rain.

THE BENGAL COURT OF WARDS (AMENDMENT) BILL, 1908.

A

BILL

further to amend the Court of Wards Act, 1879.

Ben. Act IX of 1879.

WHEREAS it is expedient further to amend the Court of Wards Act, 1879; It is hereby enacted as follows:—

Short title.

1. This Act may be called the Bengal Court of Wards (Amendment) Act, 1908.

Amendment of Bengal Act IX of 1879, section 50.

2. At the end of section 50 of the Court of Wards Act, 1879, the following shall be added, namely:—

"or mortgages on immovable property."

[*Cf.* U. P. Act, III of 1899, s. 33, concluding clause]

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to introduce into Bengal the concluding clause of section 33 of the United Provinces Court of Wards Act, 1899 (U. P. Act III of 1899). The clause will admit of loans being made from the funds of one estate under the administration of the Court of Wards to another such estate. Such loans would only be granted from the funds of solvent estates, and the experience of the Court of Wards in the United Provinces has proved them to be both a remunerative investment and a convenient and economical means of providing funds for indebted estates.

STATEMENT OF OBJECTS AND REASONS.

1. The object of this Bill is so to amend the Chota Nagpur Encumbered Estates Act, 1876 (VI of 1876), as to impose further checks on the reckless expenditure so prevalent among the landholders in the Chota Nagpur Division; to give increased facilities to Managers appointed under the Act for the proper management of encumbered estates; and to secure estates which, by the operation of the Act, have been restored to solvency from further mismanagement by the proprietors.

2. An explanation of the several amendments proposed is given in the subjoined Notes on Clauses—

NOTES ON CLAUSES.

Clause 2.—Under the existing law, a Deputy Commissioner cannot move to have the Act applied to the immovable property of a proprietor, except when all or any portion of such property has been attached in execution of a decree. Sales of estates and tenures in execution of mortgage decrees do not require the issue of attachment orders by the Civil Courts; consequently a Deputy Commissioner cannot interfere in such cases, nor would mere information of such intended sales enable him to take any steps. It is, therefore, now proposed to empower a Deputy Commissioner to make application also when a proclamation for sale of the immovable property has been issued.

Further, it seems expedient that a Deputy Commissioner should have power, when he is satisfied that the holder of an estate has entered upon a course of wasteful extravagance likely to dissipate the estate, to apply that the Act should be brought into operation regarding it. Proprietors often refrain from making application until they are very heavily encumbered with debts. In consequence of this, estates have often to be kept under the protection of the Act for very lengthy periods, and funds for improving the properties are not available to the extent required. As a restriction upon the application of the Act in the class of cases here referred to, it is proposed that the consent of the Lieutenant-Governor should not be given unless either (1) the holder of the estate belongs to a family of political or social importance, or (2) the Lieutenant-Governor is satisfied that the application of the Act is desirable in the interests of the tenants.

It is considered that intervention by the Deputy Commissioner of the nature proposed would be advantageous, as not only could the remedy be applied at an earlier stage than is now possible, but much-needed improvements could be more easily carried out.

Clause 3.—A Deputy Commissioner will require a statement of facts and figures to support his application.

Clause 4.—The amendment projected in this clause is rendered necessary by clause (c) of the proposed new section 18 (clause 10 of the Bill). The re-payment of loans should find an early place in the order of disbursements, in order to give greater security to investors.

Clause 5.—The provision that notices should be published in English, Urdu and Hindi has been found inconvenient in the case of estates or areas where neither Hindi nor Urdu is the vernacular.

Clause 6.—It is a common practice in Chota Nagpur for a proprietor coming under the Act to keep back a portion of his estate for his use while the rest is being managed; he thus defeats his creditors. Generally such portions of the estate are handed over to the wife or one of the sons, nominally as *khurposh*, or for maintenance. Sometimes a proprietor gives away landed property without any written instrument or gives rent-free grants to his relatives or favourites. The estates are thus impoverished, and it seems right that the Manager should have power, under section 9, to cancel, or at least charge for, such grants. It is proposed, however, that cancellation may be made only with the previous sanction of the Commissioner, and only if he is satisfied that the grants were not made in good faith.

Clause 7.—This is consequential on the new section 10A.

Clause 8.—Under the Act no appeal lies against the decision of the Deputy Commissioner refusing to consider an application by an heir to set aside a lease on the ground of inadequate consideration. It seems expedient that the Commissioner should have power to interfere in any case where a Deputy Commissioner has shown lack of judgment.

Clause 9.—This amendment is consequential upon clause (c) of the proposed new section 18 (clause 12 of the Bill).

Clause 10.—This clause is designed to check improvidence. Proprietors do incur bond debts during the period of their disqualification, at rates of interest which are extravagantly enhanced, owing to their disability to enter into contracts involving them in any pecuniary liability. The result is that as soon as these estates are released, such bond debts are

validated by these proprietors, who very soon find themselves compelled to apply again for protection in order to escape these obligations. The enactment of the proposed new section 12A would tend to make *mahajans* reluctant to advance money, and thus prevent reckless expenditure by the Chota Nagpur landlords.

Clause 11.—It is proposed to introduce by this clause the last clause of section 37 of the Court of Wards Act, 1879 (Ben. Act IX of 1879), and also the penal provision of section 57 of the same Act. The power on the part of a Deputy Commissioner to call for titles and investigate claims is in every way as essentially necessary for the due management of an encumbered as of a ward's estate, and the absence of such a provision in the Act has been found inconvenient.

Clause 12. New section 18.—The Government is advised that, regard being had to sections 4 and 18 of the Act, a Manager of an encumbered estate cannot borrow money elsewhere than from the Government unless he demises to the lender, by way of usufructuary mortgage for a term not exceeding twenty years, the whole or a portion of the estate, and such loans can only be taken for the purpose of paying off the debts and liabilities of the holder. It is expedient that a Manager should be able to borrow from Trust Funds or from any other source, where the terms as to interest are advantageous and are approved by the Board of Revenue, not only for the purpose of paying off debts but also for that of improving the estate. In such cases a simple mortgage will be preferable to a mortgage with possession.

Clause 12. New section 18A.—This new section will merely re-enact two of the provisions of the present section 18.

Clause 12. New section 18B.—Though a Manager can at present grant leases under section 17, he has no power to accept fresh leases, nor has the proprietor who is debarred under section 3 (c). It is proposed that full powers for the proper management of the estate should be given to a Manager.

Clause 13.—A Manager may, under clause "*thirdly*" of section 4, expend money on the education of a proprietor's children, but there is no power under the Act to compel their being educated, such as is given by the Court of Wards Act, 1879 (Ben. Act IX of 1879). The natural guardians generally set very little value on the proper education of their sons. It is highly desirable that power should be given to the Board of Revenue to enforce the proper education of these boys, since without it no steps to improve them can be taken effectually. Consequently when they succeed to the family estates, they are very prone, like their predecessors, to mismanage the property.

Clause 14. New section 21A.—The Board of Revenue should, it is thought, have power to exercise a general supervision and control, similar to that exercised by it under the Court of Wards Act, 1879.

Clause 14. New section 21B.—Under section 16 of the Act, the Manager can bring suits without joining the proprietor as a party, but this power is confined to suits for the realization of rents and profits. Experience has shown that this power should be extended to title and other suits. A disqualified proprietor may, under the existing law, be left to defend a suit for title against his estate and be compelled to borrow money at a high rate of interest for the purpose of the suit, necessitating fresh encumbrances, and a second application of the Act to his property. Moreover, a disqualified proprietor can at present waste money by presenting appeals in cases where there is no chance of success. The proposed new section 21B is intended to provide a check against extravagant and useless litigation, and to remove the difficulties which arise where the proprietor is antagonistic to the management of his estate under the Act.

Clause 15.—The amendments here proposed are consequential upon the proposed new section 21B.

Particulars ... All the lights at the entrance of Mandovi River were re-established on the 1st September 1908.

On account of the natural change of the bar of the Mandovi River the direction now indicated by the two beacons "Alto da Conceição" and "Gaspar Dias" is to be altered and the beacons are to be replaced by two other beacons: one of them is to be placed on Malim Hill, in Bardez, and the other at the Campal, in Panjim.

These beacons will consist of an equilateral triangle on top of a mast which has at its foot the watchman's house. The triangles and house are painted white.

At night a white incandescent light will be hoisted on each of these two masts.

These beacons will be temporary and will be replaced in a short time when another notice will be issued.

The beacon "Tejo" has fallen into the sea and has been replaced by a wooden mast painted white with crossed boards nailed on to it which have been painted black and white alternately. The light placed on this beacon has been altered from red to green.

The course to be made by a ship entering the Mandovi River is to steer in the new direction towards "Campal" and "Malim" instead of making the former course towards "Gaspar Dias" and "Alto da Conceição."

REPORT ON THE ADMINISTRATION OF THE EXCISE DEPARTMENT IN BENGAL DURING THE YEAR 1907-08.

NOTIFICATION.

No. 821S.R.—The 22nd September 1908.—The following extracts from the Report of the Commissioner of Excise on the administration of the Excise Department in Bengal during the year 1907-08, and from the letter from the Board of Revenue reviewing the Report, are published for general information.

C. E. A. W. OLDHAM,
Secretary to the Govt. of Bengal.

No. 4860B., dated Calcutta, the 4th September 1908.

From—PANDIT RAMA BALLABH MISRA, M.A., Secretary to the Board of Revenue, L. P.,

To—The Secretary to the Government of Bengal, Financial Department.

I AM directed by the Board of Revenue to submit the Report of the Commissioner of Excise, Bengal, on the administration of the Excise Department during the year 1907-08.

Member in charge:
THE HON'BLE MR. E. W. COLLIN, I.C.S.

2. *Administrative changes.*—The administrative changes of the year included the further extension of the Contract Distillery system to an area of 45,451 square miles as against 21,655 square miles in the preceding year. The working of the system is considered in a later paragraph. The whole machinery of the Local Excise administration came under examination during the year in consequence of a series of Resolutions in which the Government of India reviewed the various reforms recommended by the Indian Excise Committee. As the result of the discussions the following measures were adopted during or since the close of the year :—

(1) Triennial instead of annual settlement of *pachwai* shops paying an annual license fee of over Rs. 200.
(2) Extension of distillery areas in Bihar.
(3) Fixing of maximum prices and issue strengths in the central distillery areas in certain districts of the Patna Division, the Sonthal Parganas, Bhagalpur and Ranchi.
(4) Revision of rates of duty in twelve districts, including Calcutta.
(5) Levy of different rates of duty in urban and rural areas in the districts of the Patna Division (except Shahabad).
(6) Constitution of a distillery area in the district of Ranchi.
(7) Restriction of the limits of retail sale of country liquor.
(8) Abolition of passes for the transport of imported liquor.
(9) Revision of the rates of fees of imported liquor in Railway Refreshment Rooms.

Further steps were taken for the amendment of the Excise Law for the Province which had been held in abeyance until receipt of the orders of the Government of India on the Indian Excise Committee's Report and a revised Bill was prepared. It has since undergone further modification in the light of the criticisms of the Government of India, and their final sanction is awaited.

Among other reforms may be mentioned the imposition of restrictions on morphia and novocain, and the enhancement of the rate of duty on locally manufactured beer from one anna to two annas per imperial gallon.

3. *Revenue.*—The total receipts of the year amount to 170¾ lakhs, which represent an increase of 10 lakhs or 6 per cent. on the figures of the previous year. Country spirit, *ganja* and opium account for 94 lakhs, 20½ lakhs and 26¼ lakhs or 55 per cent., 15 per cent. and 15 per cent., respectively, of the total revenue of the year. The receipts from

country spirit and opium show an increase of 7 lakhs and $2\frac{3}{4}$ lakhs, or 8 per cent. and 11 per cent., respectively, while the receipts from *ganja* show a falling off to the extent of 1·4 per cent. During the year under report, the incidence of taxation per gallon of L.-P. spirit under the Sadar Distillery system was Rs. 5·5, and under the Contract Distillery system Rs. 4·3, and the average fee for each outstill was Rs. 2,393. The corresponding figures for the preceding year were Rs. 5·5, Rs. 3·7 and Rs. 1,940, respectively, taking the same geographical areas, irrespective of the change of system. Owing to the increase of duty, the difference between the incidence of taxation in areas under the two systems is being removed, but the figures, as noted in the report for the preceding year, indicate that the taxation in the Contract area is capable of further increase.

4. *Country spirit.*—Calcutta was again responsible for more than 25 per cent. of the total revenue from country spirit, the Russa distillery continuing to be the source of supply. There was an increase of 25,897 L.-P. gallons in the consumption of the Russa spirit, accompanied by an increase of 1,942 gallons in the consumption of country rum, the total increase being 8·2 per cent. on the aggregate consumption of country spirit and country rum taken together. This result is attributed chiefly to the fact that the vendors laid in large stocks in March 1908 in anticipation of the increase in duty. It does not appear that the increased consumption has been attended with any increase of drunkenness, the number of convictions for which decreased from 7,042 in 1906-07 to 6,807 in 1907-08. The Excise Commissioner has, referred to the appointment of a Committee to examine certain questions connected with the liquor trade in Calcutta. Since the close of the year under report the following measures have been taken to check consumption, viz.—(1) the increase of duty from Rs. 5 to Rs. 5-10 per gallon L.-P., (2) the reduction in the number of shops, and (3) the reduction of the limit of retail sale and possession from 12 to 6 bottles. The situation will be carefully watched.

It is interesting to learn from the report that the large decrease in the amount of license fees obtained at the last settlement of country spirit shops in the district of Angul and Khondmals is due to a movement on the part of the Khonds to give up drinking.

5. *The reduction of the outstill area.*—In consequence of the further development of the Contract Distillery system and the extension of the central distillery areas in some parts of Bihar and in the district of Ranchi, the outstill area of the Province has been reduced since 1st April 1905 from 71,140 to 60,101 square miles or by 11,039 square miles. It is proposed to extend the Contract system next year to the Monghyr, Bhagalpur and Purnea districts. The main difficulty of further reducing the outstill area arises from the fact that the people of Bihar and Chota Nagpur drink a very weak liquor, which cannot be conveyed for long distances. There is a danger that, by introducing the Distillery or Contract system, the people may be induced to drink a stronger liquor than at present.

6. *Contract Supply system.*—The Excise Commissioner has reported fully on the working of the system, the main features of which are the concentration of the preparation of liquor in the hands of a few contractors, the supply of liquor at fixed strengths and prices, and the separation of manufacture and retail vend. The advantages of the system, as stated by the Indian Excise Committee, are that it ensures the supply of liquor at a low and constant price for a specified period, with the result that accurate and profitable taxation is facilitated. The distiller is put in a position to meet the requirements of Government on a definite basis, while the retail vendor can calculate accurately the fee which he can afford for his license. The system has been gradually introduced since 1905-06, and it is too early to properly estimate its effect. It would appear that the difficulties of the retail vendors have not been removed, as the percentage of the revenue paid by them in the shape of license fees in districts to which the Contract system was extended in 1905-06 varies from 57 per cent. in Puri to 30 per cent. in Midnapore, while the variations are equally noticeable in the districts brought under the system in 1906-07. The figures given in the report show large increases

in the settlements of license fees in the Contract areas for the current year, which do not appear to be justified by the consumption so far as it has been ascertained. It is understood that the varying incidence of the license fees accounts for the differences in the revenue derived by Government from the increased consumption of country liquor. For instance, in Midnapore the profit to Government from this increase was at the rate of about Rs. 2 per gallon, whereas in Howrah and Hooghly it was over Rs. 9 per gallon. Now that the price of the liquor is fixed, and the consumption can be estimated with some accuracy, and can also be regulated by raising or lowering the duty, the position of vendors is capable of improvement, and more responsible licensees can be introduced, as suggested by the Indian Excise Committee. This matter should be borne in mind at the next settlement.

In addition to the advantages referred to above, as anticipated from the introduction of the Contract system, the Excise Commissioner points to other results which affect the consumer. Good liquor has been provided at reasonable prices, and the temptation to drink cheap foreign liquors, or to distill liquor privately, has been removed. It appears that in most of the districts in the Contract area the consumption of country liquor has considerably increased. The Excise Commissioner shows that, on the whole, there has been a decrease, but his figures include those of the Manbhum district, which are obviously inaccurate. Excluding this district and the portion of Bankura, in which the outstill system was in force, there was an increase of consumption of 33 per cent.. The largest increases were in Nadia (107 per cent)., the Sonthal Parganas (99 per cent)., Sambalpur (80 per cent.), Burdwan (73 per cent)., Murshidabad (63 per cent.) and Birbhum (53 per cent).

The increase is ascribed partly to the substitution of country liquor for imported spirits and to the decrease of illicit distillation. The report of the Excise Commissioner, however, shows that the sale of imported liquors has increased, and, so far as figures showing the detection of illicit distillation are any evidence, there has been an increase of such practices. In both cases, however, the information of the Excise Department is not very reliable, and the Board are disposed to agree with the Commissioner that the introduction of good and cheap country spirit must have had an effect in displacing the use of imported or illicitly distilled liquors. It is possible that the figures of consumption for the previous year, when the above-mentioned districts were served by local distilleries, were incorrectly recorded, but it is observed that the yearly increase of revenue from distillery liquor is more noticeable in districts under the Contract system than in others. The reports also of the Collectors point to an increase not only in consumption, but in the number of consumers, and they ascribe it partly to the popularity of the new liquor due to its improved quality and cheapness, and to the closer supervision over the vendors. This result appears to have been anticipated by the Indian Excise Committee, who were of opinion that, with improved administration, it would be necessary to raise the duty on liquor, especially in the Eastern districts of the Province. This subject has received the constant attention of the Board. The rate of duty was raised in ten districts from the beginning of the year, and was raised in two subdivisions of the Burdwan district from the 1st November 1907. The working of the system was reviewed during the year in consultation with the District Officers, and the license fees for the current year were raised. It was decided to await the complete results of the year's working, and to see the effect of the increase of license fees, before raising the rates in any district, and this matter is now under consideration. Meanwhile steps are being taken to increase the price of country liquor in Burdwan, Birbhum and the Sonthal Parganas. The question of the rate is one of some difficulty, as there is a danger of driving the people to illicit distillation, and the Preventive Staff of the Excise Department is insufficient to deal with such practices. A proper system of taxation is not possible without effective control, and it is hoped that this deficiency will be supplied when the proposals for completing the Excise Staff are complete.

12. *Ganja.*—The decrease of more than a quarter of a lakh of rupees in the license fees realised from *ganja* during the year under report is attributed to the absence of competition at the annual sales caused by the high price of the drug at Naugáon. The wholesale price of *ganja* has in recent years varied from Rs. 20 to Rs. 400 per maund, introducing thereby an element of speculation into the trade. The undesirability of such violent fluctuations in the price of an exciseable article was during the year brought to the notice of the Board of Revenue, Eastern Bengal and Assam, and the matter is under consideration. The Excise Commissioner reports that the discontinuance of the importation of Rajshahi *ganja* into Sambalpur and the issue of Khandwa *ganja* alone in that district have led to the smuggling of Garhjat *ganja* on an extensive scale. The information on the subject, however, is not complete. It was believed that the introduction of the Cooch Behar system of supplying *ganja* into the Garhjat States had entirely suppressed the cultivation of *ganja* in those States, and from a report of the Superintendent of Tributary Mahals in Orissa it appears that there has not been any appreciable revival of illicit cultivation in those Mahals. In his opinion, the *ganja* smuggled is produced in the district of Ganjam in the Madras Presidency. The subject of the illicit cultivation of *ganja* in Ganjam and its smuggling into the bordering districts of Orissa has been brought to the notice of the Madras Government, and the Board of Revenue, Madras, have promised to cause a thorough investigation to be made in the matter.

* * * * * *

14. *Opium.*—There was a large increase in the sale of opium during the year under report. The great increase of 193 maunds 31 seers in Calcutta is attributed by the Superintendent of Excise Revenue, Calcutta, to the activity of smuggling operations in Rangoon and in Burma generally. Several important cases of opium smuggling were detected during the year. The suggestions recently made by the Government of Burma as to the measures which should be adopted to check smuggling of opium into that Province are under consideration. It may be mentioned in this connection that during the year under report arrangements were made with the East Indian Railway, the Eastern Bengal State Railway and the Bengal-Nagpur Railway authorities to allow Excise officers to examine the parcel registers at their Railway stations, when necessary, with a view to ascertain the names of the consignors and consignees of suspected parcels. The consent of the Inspector-General of Prisons, Bengal, was also obtained to officers of the Excise Department, of rank not below that of a Sub-Inspector, being allowed permission to interrogate any prisoner in the jail in connection with Opium and Excise cases. Since the close of the year, rules have been framed with a view to keeping the Opium Agents better informed by the Excise Department of cases of smuggling of opium from districts within their respective Agencies, in order that they may trace the identity of the prisoner and the source from which the illicit supplies were obtained.

The consumption of opium in the districts of Cuttack, Angul, Puri and Sambalpur shows an increase in spite of an increase of the treasury prices, while that in Balasore shows a decrease of 24 maunds. The increase in Cuttack and Sambalpur is attributed partly to increased supplies taken by the Feudatory States, while the decrease in Balasore is said to be due to smaller supplies being taken for the same States. The subject requires further consideration. Opium has always been popular among the people of Orissa both as a household remedy and as a prophylactic against malaria. The consumption probably depends to a large extent on the ability of the people to purchase the drug, which was lessened last year in Balasore by the prevailing scarcity. The Board have approved the Excise Commissioner's suggestion that steps should be taken to put down the hawking of opium in *hâts* which was allowed to continue in certain parts of the Orissa Division till recently.

The increase in the consumption of opium in Midnapore is attributed to the smuggling of duty-paid opium into Balasore and Mourbhanj. The retail selling price, however, in both the districts is the same, viz., Rs. 45 a

seer, and smuggling cannot be profitable unless the vendors themselves carry it on. It seems necessary that a close watch should be kept on the supplies of opium taken by the vendors in Midnapore and on their disposal of them.

The Excise Commissioner again brings to notice, though without comment, the increase in the habit of opium smoking in Calcutta and in Orissa. He quotes the opinion of the Superintendent of Excise Revenue, Calcutta, that the opium dens continue to flourish and multiply, and that, in consequence of the difficulties in the way of Excise officers getting access to such places, opium smoking is more freely indulged in than when these premises were under Government control. The licensing of shops for the manufacture and sale of *madak* and *chandu* was abandoned in this Province from the 1st April 1896 as the result of the recommendation of the Royal Commission on Opium. Since then, the aggregate quantity of opium preparations or admixtures that may be possessed by a party of smokers has been limited to five tolas with the object of enabling the Excise and Police officers to deal with evasions of the Opium Rules by members of opium-smoking clubs. In 1903, the Board after consulting the Commissioner of Excise reported to Government that the rules restricting the possession of preparations or admixtures of opium by individuals to one tola and by a party of smokers to five tolas were working successfully, and that the suppression of the smoking of *madak* and *chandu* was a matter of preventive action and could only be effected gradually. A reversion to the old system of licensing premises for opium smoking will not be possible, except upon the clearest evidence of the failure of the policy adopted upon the recommendation of the Opium Commission. A separate report on the subject will be called for by the Board from the Excise Commissioner.

It appears that the use of pills containing *morphia* manufactured in Calcutta has been acquiring a certain vogue in some parts of the Province. The working of the rules recently issued restricting the possession and sale of *morphia* and its preparations will be watched.

15. *Cocaine.*—It is satisfactory to find evidence of the success of the measures taken to suppress the illicit traffic in cocaine. The drug is now chiefly smuggled into Calcutta by lascars on board the vessels trading between Europe and India. The detection of such cases requires special watchfulness on the part of the Customs Preventive Officers. The Collector of Customs, Calcutta, will be asked to hold out to these officers promises of liberal rewards for the detection of such offences.

16. *Offences.*—There was an increase in the number of persons convicted during the year, especially under the head of illicit distillation of country liquors (467 persons against 293). There was a corresponding decrease of offences under the *pachwai* regulations, owing, it is said, to a growing taste for the improved country spirit. The returns are swollen by a considerable increase under the head of other offences (104 against 8) due to conviction in the 24-Parganas of persons smuggling Russa liquor into the Contract area. The increased number of convictions for illicit distillation is not held to be an indication of the prevalence of such practices. It was due to the special activity of the Excise staff in particular areas. The working of the year emphasizes the necessity of reorganizing the preventive establishments, especially in the Contract areas, in order to obtain the full effect of the system. This subject is under consideration.

The Excise Commissioner renews the complaint of the want of interest evinced by the Police Department in Excise work. This subject was noticed in last year's review and is still under discussion. The inadequate sentences passed by Magistrates in cases, which end in conviction, show that the importance of the suppression of illicit practices is not fully realized. The Excise Department should press for exemplary punishment in cases of opium smuggling and illicit distillation of country liquor, and the attention of District Officers should be called to any failure of the Court to pass adequate sentences.

No. 45E., dated Calcutta, the 5th August 1908.

From—B. FOLEY, Esq., M.A., I.C.S., Offg. Commissioner of Excise and Salt, Bengal,

The net revenue shows an increase of Rs. 9,57,136 or 6·2 per cent. over the figures of the previous year, and is the highest on record.

* * * * * *

Revenue under different heads.

11. There was an increase under every head except ganja, imported liquors and beer. The largest increase was manifest, as in the previous year, under the head of country spirits, being Rs. 7,09,706. Opium comes next with an increase of Rs. 2,67,525, followed by tari, rum and pachwai, which yielded an increase of Rs. 47,131, Rs. 26,804 and Rs. 9,068, respectively. The largest decrease (Rs. 36,395) is to be found under the head ganja. The fluctuations in the revenue from the different exciseable articles are discussed in detail under each head.

12. * * * Taking the population of Bengal according to the last census at 51 millions, the incidence of the excise revenue of the year is 5 annas 4 pies per head, against 5 annas in the previous year; but if an allowance of 7 per thousand per annum, which represents the average annual growth of population, is made, the incidence of the excise revenue is 5 annas 1 pie per head.

Result of settlements up to 31st May 1908.

13. * * * There was a total increase of Rs. 4,48,372 shared by all the Divisions, except Patna, which showed a decrease of Rs. 1,59,334, the net increase being Rs. 2,89,038.

* * * * * *

SECTION II.—COUNTRY SPIRIT.

Systems.

14. There are three systems for the manufacture and sale of country spirits, viz., the central distillery, the outstill and the contract supply system. The revenue contributed by each is shown in the margin.*

* Receipts in 1907-08—

	Rs.
Central distillery system	36,25,490
Outstill system ...	39,69,483
Contract supply system	19,06,152

Distillery revenue and consumption.

15. The total distillery revenue was Rs. 35,25,490 against Rs. 33,39,646† in the previous year, showing an increase of Rs. 1,85,844. There was an increase of Rs. 78,136 in license fees and of Rs. 1,53,462 in duty, while there was a decrease of Rs. 45,754 in distillery fees. The consumption of distillery liquor was 646,579

† Excluding Rs. 9,37,104, being the distillery revenue of the districts and subdivisions where the contract supply system was introduced during the year.

gallons L.-P. against 612,071* in the previous year, showing an increase of 34,508. The increase was most marked in Calcutta (25,897 gallons L.-P.) which is due chiefly to the fact that vendors had laid in large stocks in March 1908 in anticipation of the increase in duty; it is also attributed to the progressive increase of population, increased facilities of railway communication and the transport of distillery liquor to the Barrackpore and Baraset subdivisions, where consumers prefer it to contract spirit. The decrease of 6,619 gallons L.-P. in Patna is attributed to the high price of food-grains. The distilleries in the Patna Division and in Monghyr and Bhagalpur were leased to single distillers in order to cheapen the cost of production and to improve the present methods of manufacture and supply. There was a decrease of Rs. 45,754 in distillery fees due to the fact that distillery fees are not imposed on single distillers.

* Excluding 142,048, gallons L.-P., being the consumption of distillery liquor in the districts and subdivisions where the contract supply system was introduced during the year.

Outstill revenue.

16. The outstill revenue was Rs. 39,69,433 against Rs. 36,74,073 † showing an increase of Rs. 2,95,360. The increase was large in Gaya (Rs. 79,560), Ranchi (Rs. 59,600), Patna (Rs. 48,094), Palamau (Rs. 46,759), Hazaribagh Rs. 36,558), and Purnea (Rs. 30,805), and was due to keen competition at the annual sales.

† Excluding Rs. 3,19,550 being the outstill revenue of the districts of Bankura and Manbhum, into which the contract supply system was introduced during the year.

Districts and subdivisions in which contract supply system was in force.

17. In accordance with orders received from the Board of Revenue the working of the contract supply system is described in detail. This system was in force in 18 districts (including parts of districts) during the year 1907-08, viz., in Burdwan, Birbhum, Bankura, Midnapore, Hooghly, Howrah, Nadia, Murshidabad, Jessore, Khulna, Darjeeling, Cuttack, Balasore, Puri, Manbhum, the Baraset, Basirhat, Barrackpore and Diamond Harbour subdivisions of the 24-Parganas district, the Deoghur, Jamtara, Rajmehal and Pakour subdivisions of the district of the Santhal Parganas, in Giridih (distillery area) in the district of Hazaribagh, and in the distillery area of Sambalpur. The system was first introduced into the districts of Midnapore, Cuttack, Balasore and Puri in 1905-06, and into the districts of Darjeeling, Murshidabad, Jessore and Khulna in 1906-07. It was extended to the remaining districts and subdivisions in 1907-08. The main grounds for the extension were (1) that a more wholesome spirit would be supplied, (2) that the price of country spirit in many districts was excessive as compared with the price of imported spirit and the consumption of the latter spirit was thereby encouraged, (3) that the issue of contract spirit would check illicit distillation and smuggling among the poorer and the use of foreign liquor among the richer classes, and (4) that there would be a considerable saving in distillery establishment.

* * * * * *

Revision of rates of duty.

19. The contract areas, excluding Sambalpur and Darjeeling, were divided into three zones or belts according to the material condition and drinking habits of the people, the first comprising the metropolitan districts of the 24-Parganas, Nadia, Jessore, Khulna, Howrah and Hooghly (excluding Arambagh subdivision), where a duty of Rs. 5 per gallon L.-P. was fixed as in Calcutta; the second comprising the districts of Burdwan (excluding the Asansol subdivision), Midnapore (excluding the former outstill area), the Arambagh subdivision of Hooghly and Murshidabad, where the duty was fixed at Rs. 3-12 a gallon L.-P.; the third comprising the Asansol subdivision of Burdwan, the Deoghur, Jamtara, Pakour and Rajmehal subdivisons of the Santhal Parganas, the distillery area of the Hazaribagh district, Manbhum, Bankura, Birbhum, Balasore, Cuttack and Puri, where the duty was fixed at Rs. 2-8 per L.-P. gallon. In Asansol, however, the duty was raised to Rs. 3-2 per gallon L.-P. at the beginning of the year. In Darjeeling the existing rate of duty, Rs. 3 per gallon L.-P., for strengths over 70 U.-P. and 10 annas per gross gallon for 70 U.-P., was maintained. In Sambalpur the duty remained at Re. 1-4 per L.-P. gallon.

Preferential rate of duty.

20. A preferential rate of duty at 4 annas per gross gallon was fixed for 70° U.-P. in the districts of Manbhum and Bankura and in the old outstill tract of the district of Midnapore. The object was to prevent stronger being substituted for weaker liquor and to discourage illicit distillation among the aboriginal tribes. In Darjeeling also the duty on 70° U.-P. liquor, at which strength liquor is chiefly in demand in the district, was fixed at 10 annas per gallon.

* * * * * *

In accordance with the recommendations made by the Excise Committee in paragraphs 186 and 253 of their report, the issue strengths have been fixed at 20°, 50° and 70° U.-P. throughout the contract areas. Liquor at 70° U.-P. has only been issued in districts where the people are accustomed to weak liquor. In most of the other districts difficulty has been experienced in inducing the vendors even to take liquor of as low a strength as 50° U.-P.

* * * * * *

Limits of retail sale.

25. The limit of retail sale before the introduction of the contract system had been 12 bottles in Burdwan, Birbhum, Bankura (distillery area), Hooghly (except within three miles of Chandernagore), Howrah, 24-Parganas (Baraset, Basirhat, Barrackpore and Diamond Harbour subdivisions), Nadia, Murshidabad, Jessore, Khulna, Cuttack, Balasore and the Sonthal Parganas (Deoghûr, Jamtara, Rajmehal and Pakour subdivisions). In all these districts the limit was reduced to 3 bottles on the introduction of the system except in Cuttack and Balasore, where it was reduced to one. In the Bankura and Midnapore outstill areas the limit had been 6; this was retained for the strength of 70° U.-P. only, while for other strengths the limit was fixed at 3 bottles in Bankura and at one bottle in Midnapore. In Darjeeling the limit was reduced from 6 to 2, and in Manbhum from 6 to 3, except for 70° U.-P. liquor where 6 was retained. In Hooghly, within three miles of Chandernagore, and in Puri the limit remained at 1 bottle, in Giridih (distillery area) in Hazaribagh at 3 bottles and in Sambalpur at 1 seer. The limit was reduced partly in order to check the smuggling of outstill liquor into contract areas and of contract liquor into Calcutta, and partly to stop illicit sale and excessive private drinking.

* * * * * *

The total consumption of contract spirit during the year was 442,938 gallons L.-P., against an estimated 452,530 gallons L.-P. (240,335 gallons L.-P. distillery and contract spirit and 212,195 gallons L.-P., estimated outstill liquor in Bankura and Manbhum) in the previous year. The total revenue in contract areas was Rs. 19,06,152 against Rs. 16,77,650 (Rs. 13,58,100 on account of distillery and contract spirit and Rs. 3,19,550 on account of outstills) in the previous year.

The working of the contract system can fairly be judged from the remarks made above. It will be seen that certain advantages claimed for the system have no doubt been secured. Good liquor has been placed within the reach of every one at reasonable prices, and the temptation to substitute foreign for country spirit has in certain places been removed. There is no doubt also that in other districts the effect has been to decrease illicit practices. A great advantage of the system is also that it enables Government to watch and control the consumption. If the consumption in any part of the country shows an undue increase, the duty and the maximum price of the spirit can at once be raised and the consumption forced down. Thus the system provides a machinery for carrying out the avowed policy of Government to exact as large a revenue as possible from as small a consumption as possible. Increased preventive establishment is necessary for the proper working of the system, but it is hoped that this will be provided in the near future. The chief objection brought against the system is that, if introduced into areas where weak liquor is drunk, it may tend to encourage the taste for strong liquor among the people and to cause the disappearance of the weakest kinds of liquor. This forms the chief obstacle to its introduction in Behar. So far, however, such an effect has only been noticed in the distillery area of Giridih. The best remedy seems to multiply the number of warehouses for storage in out-of-the-way places. The Balarampur warehouse in Manbhum and the

Raipur warehouse in Bankura have been particularly successful. It would be advisable to increase the number of these as funds permit. On the other hand, it must be acknowledged that where the people are accustomed to a high strength of liquor the contract system provides a machinery for trying to disabuse them of this taste. It is true that efforts so far have not been very successful in most districts, but the process must be a gradual one, and the increase in the consumption of 50° U.-P. in more than one district, where the people were accustomed to much stronger liquor, is encouraging. Incidentally the revenue has largely increased, though this is not the main object of the system.

* * * * * * *

Total number of licenses and revenue.

27. The number of licenses for the sale of country spirit (distillery, outstill and contract liquor) was 3,039 against 3,060 in the previous year, shewing a decrease of 21. There was a decrease especially in Sambalpur, where formerly the right to sell liquor within a limited area was leased out to a vendor, who set up a main outstill in a central position and supplied liquor to between one to four branch shops. Taking these outstills and branch shops together, a decrease of 47 was effected during the year. The total revenue was Rs. 94,01,075 against Rs. 86,91,369, shewing an increase of Rs. 7,09,706.

Sites.

28. In Darbhanga one and in Sambalpur two outstills were removed in deference to public opinion. In Midnapore, Murshidabad, Patna, Gaya, Saran, Muzaffarpur and Monghyr several distillery, tari and pachwai shops were removed to unobjectionable sites. In Ranchi 32 and in Hazaribagh 30 outstills have since the close of the year been removed from bazars and *hats*.

Indian Excise Committee.

29. The Resolutions of the Government of India on Chapters III to VI, X, XI and XII of the Report of Indian Excise Committee relating to the consumption of country spirit, the methods by which its production and taxation should be controlled, the disposal of licenses for retail vend, the number, location and licensing of liquor shops and the conditions under which liquor should be sold were received during the year. The following measures have been taken in consequence:—

(1) *Extension of distillery areas.*—The outstills in Manbhum and in the jungly parts of Bankura were abolished and the contract supply system was introduced. Since the close of the year, the distillery areas in Muzaffarpur, Bhagalpur and Monghyr have been extended to 439,495 and 179 square miles, respectively, and a portion of the Ranchi district has been made a distillery area.

(2) *Prohibition of the sale of liquor to children or to drunken persons by the holders of outstill licenses.*—There is already a condition forbidding the sale of liquor to children under 14 years of age. The sale of liquor to drunken persons was prohibited.

(3) *Reduction in the number of distillers.*—The distilleries in the Patna Division and Monghyr and Bhagalpur were leased to single distillers. Since the close of the year, the distilleries in the Dumka and Godda subdivisions of the Southal Parganas have also been settled with single distillers. The number of distillers in the Russa Distillery in the 24-Parganas was reduced from 19 to 8 and the wholesale price of liquor was fixed throughout the year, with a view to place the business in respectable hands and to improve the methods of manufacture. The 8 distillers have been forbidden to hold retail shops in Calcutta.

(4) *Enhancement of rates of duty.*—The rates of duty in contract areas were revised during the year. The rate of duty in Calcutta has been raised from Rs. 5 to Rs. 5-10 per gallon L.-P., and in the Dumka and Godda subdivisions of the district of the Southal Parganas from Rs. 2 to Rs. 2-8 a gallon L.-P. from the 1st April 1908. In Patna, Gaya, Muzaffarpur, Darbhanga, Saran and Champaran, the rate of duty in the urban areas has been raised from Rs. 2 to Rs. 2-8 per gallon L.-P., the existing rate of duty, viz., Rs. 2 per gallon L.-P., being retained in the rural areas. In Sambalpur the duty has been raised from Re. 1-4 to Re. 1-14 a gallon L.-P. from the 1st July 1908 to check increased consumption.

(5) *Annual Excise Settlements.*—Orders were issued that the annual settlement of country spirit shops should be conducted by the Collector in person.

(6) *Appointment of a local Committee in Calcutta.*—A special Committee was appointed at the end of 1907 to examine certain questions connected with the liquor trade in Calcutta. This Committee sat throughout the cold weather and submitted a report towards the close of the year. Their recommendations and the action taken by Government will be more properly dealt with in the Administration Report for the current year.

(7) A report on the action to be taken on the Resolution of the Government of India on Chapters XI and XII of the Indian Excise Committee's Report was submitted at the end of March 1908.

Convictions for drunkenness and action taken against licensees for permitting it.

30. In Burdwan, Hooghly and Sambalpur drunkenness is reported to have increased. In Burdwan the number of convictions was 247 against 170 in the previous year, and in Hooghly 473 against 357. Convictions for drunkenness form of course no criterion of the actual prevalence of drunkenness, for the institution of these cases is usually determined by several other considerations, but in Sambalpur, though convictions only rose from 6 to 17, it seems practically certain that there was an increase of drunkenness within the distillery areas due to the cheaper price of liquor. The price and the duty have been raised since the close of the year. No action was taken against licensed vendors for permitting drunkenness in their premises except in Midnapore, where a tari vendor was convicted for allowing drunkenness in his shop. In the Sonthal Parganas a country spirit vendor received a warning.

Drunkenness in Ranchi.

31. During the year complaints were received of drunkenness in Ranchi, and to check this it was decided that a distillery should be erected in Ranchi town, and the thanas of Ranchi, with its outposts Armanjhi and Angora, and Silli should be brought under the distillery system. Seven outstills in remote parts of the district have also been closed.

Extension of the Contract Supply System.

32. The Contract Supply System will be extended to the districts of Monghyr, Bhagalpur and Purnea from the 1st April 1909.

SECTION III.—COUNTRY RUM.

License fees.

34. The receipts from license fees amounted to Rs. 17,140 against Rs. 16,087 in the previous year, showing an increase of Rs. 1,053. The increase was due to the fact that one of the four rum shops in Calcutta had been closed for a considerable portion of the previous year.

Source of supply.

35. Rum was supplied from the Rosa distillery in the United Provinces, from several distilleries in the Madras Presidency and from the distillery at Konnagar.

* * * * * * *

The consumption of Shajehanpur and Konnagar rum increased by 2,368 and 2,811 gallons L.-P., respectively, while Madras rum declined by 3,876 gallons. The place of Madras rum has been largely taken by the contract spirit received from that province. The net increase in consumption was 1,092 gallons L.-P. This increase is small compared with the decrease of 12,623 gallons in 1906-07. Of the total quantity imported 7,483 gallons were issued duty-free on account of Government.

* * * * * *

Rum shops in Calcutta.

39. The suggestion of the Indian Excise Committee to close all the rum shops in Calcutta came under the consideration of the Calcutta Committee. There are at present 4 rum shops in Calcutta. The Committee supported the recommendation of their abolition as rum shops, but raised the question whether

they might be required for the sale of foreign liquor. Government has since the close of the year decided to close all these as rum shops, but to license two of them for the "on" sale of imported liquor.

SECTION IV.—IMPORTED LIQUOR.

Licenses.

40. The total number of licenses issued for the sale of imported liquor was 526 against 556 in the preceding year, shewing a decrease of 30. Most of the shops which were abolished were situated in the Burdwan and Presidency Divisions.

Revenue.

41. The total receipts, which were derived from license fees alone, amounted to Rs. 2,68,288 against Rs. 3,00,058 in the previous year, a decrease of Rs. 31,770.

SECTION VI.—TARI.

Statistics.

49. The total number of licenses issued for the sale of fermented and fresh tari was 12,651 against 13,214 and the total receipts were Rs. 11,82 201 against Rs. 11,35,070 in the previous year. There was a decrease of 563 in the number of licenses and an increase of Rs. 47,131 in revenue.

* * * * * *

The receipts from fermented tari amounted to Rs. 11,79,461 against Rs. 11,32,158 in the previous year, shewing an increase of Rs. 47,303. The largest increase was in the 24-Parganas, Rs. 10,253, which is due to better settlements. The seven districts of the Patna Division with Monghyr and Bhagalpur contributed Rs. 7,44,376 or nearly 63 per cent of the total revenue. In these districts the evils noticed in previous reports still exist, but a distinct progress is manifest in the administration of the tari revenue with the reduction of shops. Previously the shops had practically no monopoly value, but though exactions on the *Pasis* are still made by the zamindars, the license fees are now every year advancing.

SECTION VII.—PACHWAI.

Statistics.

55. The total number of licenses issued for the retail sale and home-brewing of pachwai was 10,879 against 10,723 in the previous year, shewing an increase of 156. The receipts rose from Rs. 6,06,877 to Rs. 6,15,945 or by Rs. 9,068.

* * * * * *

The revenue increased from Rs. 5,83,448 to Rs. 5,93,732 or by Rs. 10,284.

* * * * * *

Licenses for home-brewing.

57. The number of licenses increased from 9,043 to 9,163, but the revenue decreased from Rs. 23,429 to Rs. 22,213. In the 24-Parganas the issue of pachwai home-brewing licenses and collection of pachwai fees in the Sunderbans portion of the 24-Parganas had been transferred in the previous year to the Salt Department. There was a decrease of Rs. 1,987, but Rs. 1,738 of this is due to the fact that the collections made by the Salt Department were credited to the wrong head. In Purnea there was an increase in consequence of more accurate information having been obtained about the number of Santhals in the district.

SECTION IX.—GANJA.

Retail licenses.

66. The number of licenses issued for the retail sale of ganja was 2,040 against 2,026 in the previous year, showing an increase of 14.

* * * * * *

68. As in previous years, ganja was consumed in every district in the Province. Excluding exports of duty-paid ganja beyond the province, the actual sales were largest in Calcutta (479 maunds). The consumption was also considerable in Shahabad (202 maunds), Monghyr (196 maunds), the 24-Parganas (188 maunds), Bhagalpur (181 maunds) and Purnea (181 maunds).

Consumption and export of duty-paid ganja.

* * * * * *

69. The total receipts amounted to Rs. 26,37,531 against Rs. 26,73,926 in the previous year, the decrease being Rs. 36,395. The decrease was most marked in Calcutta (Rs. 49,419), which was due to diminished exports to London and Mauritius.

Total revenue.

70. The incidence of license fees per seer was 8·7 and of duty 10·8, giving a total taxation of Rs. 19·5, the figures for the previous year being Rs. 8·8, Rs. 10·8 and Rs. 19·6 respectively. The incidence of license fees on consumption was high in Nadia (Rs. 20 a seer), and also in the districts of Khulna, Burdwan, Birbhum, Singhbhum, Bankura, Hooghly, and the Sonthal Parganas, where it varied from Rs. 11 to Rs. 15 a seer. The duty receipts form only 55 per cent. of the total ganja revenue.

Incidence of taxation.

SECTION XIII.—OPIUM.

88. The total number of licenses issued for the retail vend of opium was 1,339 against 1,313 in the previous year, shewing an increase of 26. Ten new shops in Shahabad, 6 in Patna, 5 in Jessore and 5 in Sambalpur were opened to meet local demand and to check illicit practices. Seven shops in Balasore were closed with the object of restricting consumption.

Licenses for retail sale.

* * * * * *

91. The revenue from license fees rose from Rs. 6,20,655 to Rs. 6,22,531 or by Rs. 1,876.

License fees.

* * * * * *

92. The quantity of opium sold was 2,430 maunds 31 seers, against 2,122 maunds 10 seers in the previous year, an increase of 308 maunds 21 seers.

Consumption and duty.

* * * * * *

Mr. Baboneau, the Superintendent of Excise Revenue, Calcutta, makes the following remarks about the Calcutta figures:—

"There has been an almost phenomenal increase in the consumption, to which the large increase in the revenue is due. The consumption of opium has shown a steadily increasing expansion for the past four years. The almost unprecedented increase (193 maunds 31 seers) of the past year, following, as it does, an increase of 22 maunds 7 seers of the preceding year, leaves no room for doubt that this result is mainly due to the activity of smuggling operations in Rangoon and Burma generally. These results may be said to bear eloquent testimony to the fundamental principle of excise administration recognised from earliest times that taxation and repression when carried beyond a certain point invariably lead to the graver evil of systematic law-breaking which illicit practices engender.

Mr. Baboneau calculates the profits on a smuggled seer of opium at Rs. 50 at the least, so that 10 to 15 maunds landed in the year would mean a profit of Rs. 20,000 to Rs. 30,000.

* * * * * *

The question of what measures can be adopted to check smuggling to Burma has been carefully investigated since the close of the year and is now under consideration.

* * * * * *

93. The total receipts amounted to Rs. 26,19,207 against Rs. 23,51,682, showing an increase of Rs. 2,67,525, Rs. 1,876 from license fees and Rs. 2,65,649 from duty.

Total receipts.

* * * * * *

SECTION XIV—COCAINE.

Licenses and revenue.

98. The total number of licenses issued was 245 against 227 in the previous year; the receipts from license fees amounted to Rs. 248 against Rs. 233.

Imports.

99. Permission to import cocaine through channels other than the Post Office was granted during the year to 9 medical firms in Calcutta, 1 in Patna, 2 in Kurseong, 1 Medical Mission in Hazaribagh and to Civil Sugeons of districts for the sake of the charitable dispensaries under their control. The question of slightly enlarging the list is under consideration.

Abuses.

100. In Calcutta the various restrictions that have been placed on the import, sale, transport and private possession of the drug have checked the illicit trade to a considerable extent, and the traders have, the Superintendent of Excise Revenue reports, been compelled to supply an adulterated article to their customers. The drug appears now chiefly to be smuggled into Calcutta by lascars on board the vessels trading between Europe and India, who have plenty of opportunity to elude the examination of the Customs officers. Mr. Baboneau considers, however, that such imports can hardly support the illicit trade to any appreciable extent. Outside Calcutta the cocaine habit is reported as present, though decreasing, in the towns of Patna, Muzaffarpur, Monghyr and Bhagalpur.

Novocaine.

101. Under Government Notification No. 737S.R., dated the 17th December 1907, novocaine was declared to be an intoxicating drug, and its import, sale, etc., were placed under the same restrictions as cocaine.

* * * * * *

107. During the year the fines imposed and realised amounted respectively to Rs. 61,750 and Rs. 43,163 against Rs. 51,226 and Rs. 42,885 in the previous year, the percentage of realisation being 69·9 against 83·7 in previous year. General Summary.—The rainfall during the week was general but moderate except in Bihar, where the weather was hot and cloudy with a few light showers. Sugarcane is still doing well. Prospects of *aman* paddy are fair except in the unirrigated tracts of Bihar, where transplantation could not be done for want of sufficient rain. Prices have risen in Gaya, Saran, Champaran, Monghyr, Balasore, Puri and Ranchi, and have fallen in most districts of the Presidency Division as well as in Patna, Shahabad, Darbhanga, Purnea, the Santhal Parganas, Cuttack, Hazaribagh and Palamau. Stocks of food-grains are insufficient in Balasore and Palamau. Scarcity is apprehended in parts of Darbhanga. The supply of fodder and water is sufficient. Cattle-disease is reported from Burdwan, Shahabad, Saran, Bhagalpur, Purnea and Hazaribagh. Gratuitous relief was given to 24,634 persons, of whom 18,231 are in Orissa. Test works in Bankura, Nadia, Cuttack, Angul, Puri and Ranchi were attended by 4,710 persons. The number of persons on famine relief works in Ranchi was 594.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; p, passing temporary showers; d, drizzling rain; t, thunder; g, dark gloomy; ≤, lightning; R, thunderstorm; /, strong wind.

No. 1586T.G.—The 26th September 1908.—The following resolution of the Government of India is republished for general information:—

H. C. STREATFEILD,
Offg. Secy. to the Govt. of Bengal.

No. 8627—8663-6, dated Simla, the 16th September 1908.

RESOLUTION—By the Govt. of India, Dept. of Commerce and Industry.

In a letter No. 152-154, dated the 7th January 1908, the opinion of Chambers of Commerce and Trades Associations was invited on a proposal, which had been made by the Director-General of the Post Office of India, that the maximum limit of weight of inland parcels, which may be conveyed by post, should be reduced from 2,000 tolas (25 seers) to 800 tolas (10 seers). In support of this proposal it was urged that, in view of the facilities which were now available to the public for the transmission of heavy parcels by railway, it was no longer necessary to despatch parcels exceeding ten seers in weight by post. Such parcels were a source of considerable inconvenience to the Post Office—especially in cases where steamer or tonga services or "bhangy runners" had to be employed for the purpose. Moreover, it appeared from the statistics which had been collected that heavy parcels were sent through the Post Office only to a very limited extent. Figures supplied by the Director-General showed that only about 1,700 parcels of more than ten seers in weight were received from the public for conveyance by post in 1906-07.

2. When the replies of the various Chambers of Commerce and Trades Associations were received, it was found that the majority of these bodies were generally in favour of the proposal. Some objections to the withdrawal of what was alleged to be a facility to trade were, however, put forward. The principal objections raised were as follows:—

(*a*) that in 1907 a considerable increase was believed to have occurred in the number of heavier parcels carried over the number conveyed in the previous year;

(*b*) that the withdrawal of the concession would cause inconvenience to members of the public who live off the railway.

3. The Director-General of the Post Office was instructed to examine the statistics of the parcel traffic of 1907-08. The examination made has shown that the total number of private parcels exceeding 800 tolas in weight posted during that year was 1,128, as compared with 1,700 posted in the preceding year, and of these only one-half had to be conveyed from the office of posting to the office of destination over runner and tonga lines. It is clear,

therefore, that not only has the traffic in heavy parcels not increased, but that it has actually diminished by about a third in one year. No serious inconvenience to the public can, therefore, be apprehended, and it may be added that a large proportion of the heavy parcels actually sent could no doubt be made up into a larger number of lighter parcels, which would not exceed in weight the proposed limit of 800 tolas.

4. The Government of India have accordingly decided that from the 1st October 1908 the limit of weight of private inland parcels carried by the post should be reduced to 800 tolas. From the same date the limit of weight of official parcels will be raised from 600 to 800 tolas, so that the limits may be uniform.

ORDER.—Ordered that this Resolution be published in the *Gazette of India*.

ORDERED, also, that the Resolution be communicated to all Departments of the Government of India, to all Local Governments and Administrations, to all Heads of Departments subordinate to this Department, the Secretary to the Railway Board and the Examiner of Telegraph Accounts.

AT THE COURT AT GOODWOOD HOUSE.

The 1st day of August 1908.

PRESENT:

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS section 8 (3) of "The Mail Ships Act, 1891," provides that it shall be lawful for Her Majesty in Council to make rules for carrying into effect, as respects British Possessions, the provisions of that Act with respect to the security given by mail ships, and in particular with respect to the commencement of a legal proceeding by service of

a writ or process in the Possession, and to the notices to be given to arresting authorities in the Possession, and the evidence to be receivable by such authorities of the security having been given or withdrawn, and the application of the security in discharge of any damages, fine, debt, claim, sum, or forfeiture, where the same are or is recovered or payable either in the British Possession, or under proceedings pending concurrently in that British Possession, and in any other British Possession, or the United Kingdom:

NOW, THEREFORE, His Majesty is pleased, by and with the advice of His Privy Council, to order, and it is hereby ordered, as follows:—

Notices of Exemption.

1. Any rules of the High Court of Justice in England, made under the provisions of "The Mail Ships Acts, 1891 and 1902" (hereinafter referred to as "the Acts"), shall be transmitted by a Secretary of State to the Government of every Possession to which the Acts are applied for the purpose of a Convention, and shall be published by such Government in the Gazette of the Possession, and also in such local official Gazettes, published in the Possession as the Government of the Possession may prescribe.

2. A copy of every notice and list published by the Board of Trade under the Acts, or under any rules of Court made under the Acts, shall be transmitted by a Secretary of State to the Government of every Possession to which the Acts are applied for the purpose of a particular Convention.

3. A copy of every such Notice and list, signed by a Secretary to the Government of the Possession, or other prescribed officer, shall be published in the official Gazette of the Possession, and a copy of such Gazette Notification shall be kept publicly exhibited in the Court-room of every Colonial Court of Admiralty in the Possession, and a copy of the said Gazette containing any such Notification shall be receivable in evidence by every arresting authority in the Possession.

4. If notwithstanding its exemption an exempted mail ship is arrested in the Possession, the Government of the Possession, on being informed by the owner of such arrest and of the arresting authority, and on being satisfied that the ship is an exempted mail ship, shall forthwith send a special Notice to the arresting authority, informing him that the ship is an exempted mail ship, and as such entitled to release.

Actions Against Exempted Ships.

5. An action may be commenced against the owners of an exempted mail ship in the like cases, in the same manner and subject to the same rules as an Admiralty action *in rem*, and in any Colonial Court of Admiralty having jurisdiction in the Possession in which such an action might have been brought if the ship were not an exempted mail ship.

Orders, by Courts having jurisdiction in British Possessions, for Application of the Security.

6. Any order of a Court having jurisdiction in a British Possession directing any security to be applied shall recite the name of the Court and of the action or proceeding, the cause of action, and the judgment debt, and shall comprise a certificate by the Judge of the Court that the ship in respect of which the Judgment is given is an exempted mail ship, and might but for such exemption have been arrested and sold in execution thereof, and that the Judgment debt is still unsatisfied, and is payable out of the security lodged in or under the control of the High Court of Justice in England in respect of the ship.

7. The order may require payment to be made either in London to a named agent of the execution creditor, or in the Possession to some named officer of the Court from which the order issues.

8. Every such order shall be sealed with the seal of the Court, and shall be drawn up in duplicate, addressed to the Admiralty Registrar, Royal Courts of Justice, London, and shall be transmitted under cover to the prescribed officer of the Government of the Possession.

9. The said duplicate orders when received by the prescribed officer shall be countersigned by him, and shall be forthwith transmitted to a Secretary of State, who shall cause one of such orders to be delivered to the Admiralty Registrar, and the Admiralty Registrar shall, subject to any direction of the High Court, make an order upon the Paymaster-General for payment of the required sum out of the security in accordance with these rules.

10. Unless the High Court shall otherwise order, and subject to existing rights of priority of liens, orders for the application of any security shall be paid in the order in which they are received by the Admiralty Registrar; but where two or more orders are received at the same time, they shall be paid in the order of their respective dates.

11 Where the order requires payment to a named agent of the execution creditor in London, the money shall be payable at the rates of exchange current on the day on which the order is received by the Secretary of State.

12. If the order requires payment to be made to a named officer of the Court from which the order issues, such an amount shall be paid out by the Paymaster-General, to a person nominated by the Secretary of State, as will at the rates of exchange current on the day on which the order is received by the Secretary of State be necessary to purchase a draft for the amount of the order payable at sight in the Possession, and such draft shall be in favour of the said named officer of the said Court.

13. Where any action or proceeding against the owners of an exempted mail ship is pending in a Court having jurisdiction in a British Possession, involving a claim against the security lodged in the High Court in England, the Court in the British Posession shall transmit to the Admiralty Registrar notice of the pendency of such action or proceeding, stating the nature and amount of the claim and the proceedings taken in regard thereto; and in case of the subsequent discontinuance or other conclusion of such action or proceeding, whereby the security ceases to be affected, the Court shall transmit notice of such discontinuance or conclusion. Every such notice shall be sealed, drawn up, addressed and transmitted to the Admiralty Registrar in like manner as an order for the application of the security.

Miscellaneous Provisions.

14. In every British Possession to which these rules apply, the Governor in Council may, by order, prescribe any matter directed by these rules to be prescribed, or necessary for carrying them into effect.

15. In the application of these rules to British India, the following provisions shall have effect:—

(*a*) The Presidencies of Madras and Bombay, the Bengal division of the Presidency of Fort William, the Province of Eastern Bengal and Assam, and the Province of Burmah shall be deemed to be separate British Possessions.

16. In the application of these rules to any British Possession in which there is a Vice-Admiralty Court, and no Colonial Court of Admiralty, these rules shall be read as if "Vice-Admiralty Court" were substituted for "Colonial Court of Admiralty."

17. In these rules "judgment debt" means any damages, fine, debt, claim, sum, or forfeiture found by any Court to be payable by the owner of a ship, and "execution creditor" means the person entitled to a judgment debt.

Other expressions have the same meaning as in the Act.

18. This order may be cited as "The Mail Ships (Rules) Order in Council, 1908."

And the Right Honourable the Earl of Crewe, K.G., the Right Honourable Viscount Morley of Blackburn, O.M., and the Righ Honourable Sir Edward Grey, Bart., three of His Majesty's Principal Secretaries of State, are to give the necessary directions herein, as to them may respectively appertain.

No. 731—743, dated Simla, the 1st September 1908.

RESOLUTION—By the Government of India, Home Department.

THE Government of India have for some time past had under their consideration the question of encouraging the scientific study of Sanskrit and Arabic by natives of India. They believe that great advantage will result from aiding students to acquire the critical and scientific methods of Western scholarship, by studying the classics under European professors and by acquiring a knowledge of French and German which is indispensable for making full use of the researches of European Orientalists.

2. They have accordingly decided, with the sanction of the Secretary of State, to allot for the present four scholarships tenable in Europe, three for the study of Sanskrit and one for the study of Arabic. Not more than two will be awarded annually. The scholarships will be open to well qualified students with a genuine taste for oriental studies and to gentlemen already employed as professors of Sanskrit and Arabic in India. The value of each scholarship will be £150 a year, and it will be tenable for two years. The Secretary of State will decide the courses of study of each scholarship-holder and the special conditions to be observed, if necessary, by students who elect to study in continental Europe rather than in England. A scholarship-holder will be provided with a free second class passage to Europe, and also with a return passage if he completes the full period of residence or is compelled by sickness to return within that period. He will be required for disciplinary purposes to conform to such rules as the Secretary of State may make in this behalf.

3. In the first year one scholarship will be awarded for Sanskrit and one for Arabic. In the following year two scholarships for Sanskrit only will be awarded. Each Local Government or Administration is invited to submit during the current financial year the name of one candidate for a Sanskrit and one for an Arabic scholarship, and in the following year the names of two candidates for a Sanskrit scholarship, this procedure being followed in alternate years. It is requested that the names of the candidates may be accompanied by a full description of their qualifications, and with the views and recommendations of the Local Government thereon. The power of selection will rest with the Government of India who will award the scholarships to those whom they may consider best fitted to hold them. Local Governments and Administrations are requested to submit their recommendations so as to reach the Government of India by the 31st March of each year at latest. Those for the current year should be sent in as soon as possible.

QUESTIONS AND ANSWERS.

SIBPUR COLLEGE.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked:—

Will the Government be pleased to say what steps have been taken to give effect to its promise to establish classes in mining engineering, electrical engineering and mechanical engineering, imparting instruction to a standard equal to that of the technical colleges of Europe? Have the classes in the Sibpur College on the above subjects been affiliated with the Calcutta University for the purpose of granting degrees in them? When will the said graduate classes be opened?

The Hon'ble MR. STREATFEILD replied:—

"I refer the Hon'ble Member to what I said on this subject in the course of the last budget debate, which was as follows:—'The Hon'ble Babu Jogendra Chandra Ghose has made a serious grievance of the delay in opening the graduate classes in Engineering at Sibpur. I find, however, that the University is not prepared to examine for these degrees till 1911, and as a two years' course is involved, it is useless and impracticable to start these classes till 1909. The first intermediate examination in Engineering will be held in 1909. This course was opened in 1907, and those who are now reading the course and who succeed in passing the examination in 1909 will be eligible to read the graduate course then and not before.' That statement was and is correct."

INDUSTRIAL CHEMISTRY.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked:—

Will the Government be pleased to say in what stage is the scheme for starting graduate classes in industrial chemistry?

The Hon'ble Mr. STREATFEILD replied:—

"The scheme for establishing classes in technological chemistry and the chemistry of dyeing at Sibpur is still under the consideration of the Government of India."

WEAVING SCHOOL AT SERAMPORE.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked:—

Will the Government be pleased to say whether there is any likelihood of opening the Weaving School at Serampore in the near future? Is the Government in a position to say by what time at the latest the school will be started?

The Hon'ble MR STREATFEILD replied:—

"The appointment of a Principal for the Serampore Weaving School has been made. The gentleman selected is at present employed by a private firm in Bombay. It is hoped that he will join the appointment at once and that the school will be started within two months from the present date."

SILK INDUSTRY.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked:—

Will the Government be pleased to say whether all the recommendations of the Silk Commission have been given effect to, and what steps are being taken for imparting instruction in improved methods of sericulture?

The Hon'ble MR DUKE replied :—

"The remedial measures recommended by the Silk Committee appointed in June, 1906, were accepted by Government, except on two points. Conferences were held at Calcutta and Berhampur with the leading representatives of the Silk Industry and it was ultimately agreed that the control of the operations and the disbursement of the funds should rest with a Committee consisting of three representatives of European Silk Firms, one representative of the Indian Silk Firms, the Collector of Murshidabad and the Director of Agriculture (President). It was further decided that one large central nursery in addition to the small nurseries should be maintained. The Government of Eastern Bengal and Assam preferred to have a separate Superintendent of Sericulture, so that the operations are confined to this Province. The management of the Sericultural School at Rajshahi and the two nurseries there have been handed over; but the Government of Eastern Bengal and Assam have agreed to train six students from this Province every year.

"The members of the Committee were recently nominated and rules for their guidance published. Meanwhile, Rs. 22,000 had been provided in the budget and Babu Apurba Coomar Ghose has been appointed Sericultural Superintendent. Under his guidance, about 60 bighas of land have been planted with mulberry and the construction of the central nursery and four small nurseries at Berhampore has been undertaken. Other model rearing houses will be established as soon as the organization is complete and funds permit.

"Instruction in improved methods of Sericulture is given at Rajshahi and at Sabang in the district of Midnapore. As soon as it is possible to open more model rearing houses facilities for imparting instruction will be extended."

AGRICULTURAL SCHOOLS.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked :—

Will the Government be pleased to consider the advisability of establishing comparatively inexpensive lower grade agricultural schools for training practical agriculturists, in which a high literary qualification for admission will not be required, as in the Central Provinces, one in each division or one in connection with each of the existing demonstration farms?

The Hon'ble MR. DUKE replied :—

"Until the Provincial Agricultural College at Sabaur can supply elementary teachers it does not seem advisable for the Government to start lower grade agricultural schools; but a class for the practical training of some of the cultivators, such as is in existence at Cuttack, will be opened at each of the Experiment Stations. For the Cuttack class no literary qualification is necessary beyond ability to read and write the vernacular."

DRINKING-WATER IN RURAL AREAS.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked :—

Having regard to the answer given by the Government to a question on the subject which showed the extreme inadequacy of the amount spent in the districts of the Presidency Division during the last five years for the supply of good drinking water, and having regard also to the great water scarcity experienced during the hot season this year, will the Government be pleased to make a systematic effort by taking measures for the excavation of 20 or a sufficient number of good tanks every year in the interior of each of the districts of the said Division, through the District Boards, by making special grants for the purpose?

The Hon'ble MR. OLDHAM replied:—

"In the answers given to Questions Nos. V and VI put by the Hon'ble Member at the meeting of this Council held on the 21st March last, the policy of this Government in respect of making grants for the supply of drinking water in rural areas was explained. No change has since been made in that policy. Under the extended powers given to them by the provisions of the Bill for the amendment of the Local Self-Government Act recently passed in this Council, Union Committees will be enabled to undertake measures of the nature referred to by the Hon'ble Member. Government will look to the people in the first instance to take action of their own accord when necessary under these provisions. It will be left to District Boards and Union Committees to initiate measures in the direction suggested. It is only thus that the Act recently passed will be justified."

VILLAGE SANITATION.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked :—

Having regard to the fact that the new provisions about sanitation by means of Union Committees will be infructuous on account of the very insufficient funds that can be raised by the said Committees, will the Government be pleased to consider the advisability of making an adequate grant for sanitary purposes to the said Committees?

The Hon'ble MR. OLDHAM replied:—

"The provisions recently added in the Bill to amend the Local Self-Government Act have not yet come into operation. It is, therefore, premature to discuss whether the funds that it will be possible for the Union Committees to raise under those provisions will be insufficient for the purpose of measures of village sanitation."

CHARITABLE DISPENSARIES IN THE PRESIDENCY DIVISION.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked :—

Will the Government be pleased to furnish a statement showing the grants made by it and the amounts spent by the District Boards in each of the districts of the Presidency Division for affording medical help to the people living outside the district and sub-divisional towns? Will the Government be pleased to consider the advisability of establishing a larger number of charitable dispensaries than that which exists at present in the said districts?

The Hon'ble MR. OLDHAM replied:—

"A statement has been prepared (marked A) showing the grants made by Government and the total expenditure in the case of each dispensary in the Presidency Division outside the district and sub-divisional towns during each of the last three years. Government has not got information to show what grants are made by each District Board to each dispensary and what amounts are received from other sources.

"From another statement (marked B), it will be seen that the Presidency Division is already much better off in respect of dispensaries than any of the other Divisions. It may be left to the local authorities to move for the establishment of other dispensaries as local conditions may demand."

CHARITABLE DISPENSARIES IN THE SUNDARBANS.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked:—

Will the Government be pleased to consider the advisability of establishing a few charitable dispensaries and of also appointing a few travelling Doctors during the cholera season in the Sundarbans, where there is practically little or no medical aid available?

The Hon'ble MR. OLDHAM replied:—

"To provide adequate medical relief in the Sundarbans tracts of the Khulna and 24 Parganas districts is an extremely difficult task, on account of the large area and the scattered population. The District Boards of Khulna and the 24-Parganas are alive to their responsibilities in the matter; and they have from time to time made special arrangements for dealing with cholera outbreaks. The former Board maintains four dispensaries in the south of the settled area; and the latter, three. The 24-Parganas District Board also maintains a floating dispensary in the Sundarbans tract, and proposes to establish another permanent dispensary on the edge of this tract.

"It seems to the Lieutenant-Governor desirable that another floating dispensary should be established for the Sundarbans tracts of the Khulna district; and Government will be prepared to make a contribution towards the cost thereof. The Commissioner of the Division is being addressed on the subject."

EXPENDITURE ON PRIMARY SCHOOLS.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked:—

Will the Government be pleased to furnish a statement showing the actual amount now spent by it annually on primary schools, without including in it the charges for inspection and direction, in each of the districts of the Presidency Division, and also the population of the said districts?

The Hon'ble MR. STREATFEILD replied:—

"A statement giving the information asked for by the Hon'ble Member is laid on the table."

showing the amount spent from different Public funds during the last three years on Primary schools in each of the ts of the Presidency Division (excluding charges for Inspection and Direction), and also the population of the istricts.

PRIMARY EDUCATION.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked:—

Will the Government be pleased to say whether it has any scheme before it for the extension of primary education, and whether it intends to materially increase the number of primary schools in these provinces in the near future?

The Hon'ble MR. STREATFEILD replied:—

"As the Hon'ble Member is aware, the question of the abolition of fees in Primary Schools has recently been considered by all Local Governments. This question is now awaiting the decision of the Government of India; and it is clear that on that decision future action with regard to primary education must depend. Meanwhile, no definite schemes for increasing the number of Primary Schools in this Province is under the consideration of Government."

MANUFACTURE OF SALT IN BENGAL.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked:—

Will the Government be pleased to consider the advisability of recommending the Government of India to allow one or two Companies, which are intended to be established by a Special Committee of the Association for the advancement of Scientific and Industrial Education of Indians, consisting of Raja Peary Mohan Mukerji and a few other gentlemen interested in the subject, to make once again the experiment of manufacturing salt in these Provinces without duty for three years, and also whether it is possible for it to afford any other help for the purpose of furthering the said object?

The Hon'ble MR. OLDHAM replied:—

"The views of Government as to the manufacture of salt have been already communicated to the Hon'ble Member in the answers given to questions put by him in this Council at the meetings held on the 2nd February, 1907, and the 4th April, 1908.

"Any proposals which the Special Committee referred to may desire to make had better be submitted, in an explicit and detailed manner, by the Committee for the orders of Government in the Financial Department. They will then receive due consideration."

BHAIRAB VALLEY DRAINAGE SCHEME.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked:—

Will the Government be pleased to say in what stage are the Bhairab Valley Drainage Scheme and the Jessore Drainage Scheme, and whether any steps are being taken for the making of water-works in Jessore town?

The Hon'ble MR. OLDHAM replied:—

"Government has no recent information in respect of the progress of the scheme for the drainage of the Bhairab Valley. The Commissioner of the Presidency Division will be asked to obtain from the Collector of Jessore a report as to how the project now stands. On receipt, the information will be supplied to the Hon'ble Member.

"The Sanitary Engineer reports that the designing of the Jessore Drainage Scheme has been practically completed, and there only remains the tracing of the original drawings to be done. The scheme will be ready for submission to the Municipal Commissioners by the end of the year.

"That officer also reports, in regard to the water-works project, that it has been found impossible to obtain a good supply of water from wells sunk in the bed of the Bhairab, and that, therefore, the source of supply will have to be tanks. The Municipal Commissioners have been asked to decide along which streets pipes should be laid."

LAW COLLEGE.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked :—

Will the Government be pleased to say whether it intends to make a large grant for the Law College proposed to be established by the Calcutta University? Will the Government be pleased to consider the admittedly inadequate means at its command, and whether there is any special necessity for such a college, and also the urgency of other educational demands which it is unable to meet, before making any such grant?

The Hon'ble MR. STREATFEILD replied :—

"This Government is fully convinced of the need for the Law College which the Calcutta University propose to establish. It is not anticipated, however, that much financial assistance will be required from Government; and it would be obviously premature to pretend to determine, at the present time, the amount of the grant that may be required or that may be reasonable."

THE MIDNAPUR CASE.

The Hon'ble BABU RADHA CHARAN PAL asked :—

(*a*) Is it a fact, as stated by Mr. Keays, Barrister-at-law, a defence Counsel in the Midnapur case, and reported in the *Statesman* of the 5th instant, that the refusal of the copies of the confession and the admission was made on the ground that they were not formally on the record, although they were used as an argument for not granting bail to the accused?

(*b*) Has the attention of the Government been drawn to a report of the *Amrita Bazar Patrika* of the 9th September, that a Police Sub-Inspector had brought back the Raja of Narajole from the door of the Court-room, "touching his neck from behind," and is this a fact?

(*c*) Is it a fact that Asutos Das, who, it is said, had been suffering from sinus in the hand, was arrested by Police who were in plain clothes, without a warrant, and handled so violently that his piteous cries compelled his mother to come to the protection of her son when she was seriously injured by the Police?

The Hon'ble Mr. DUKE replied :—

"None of these matters has been reported to Government. They are all matters which will either come before the Court of the Magistrate inquiring into the case in ordinary course or with which he is competent to deal if brought to his notice. Government does not consider that its intervention is called for at present."

THE BENGAL REPEALING BILL, 1908.

The Hon'ble MR. OLDHAM moved that the Bill to repeal the Howrah and Suburban Municipal Police Act, 1884, be taken into consideration.

The motion was put and agreed to.

The Hon'ble MR. OLDHAM also moved that the Bill be passed.

He said :—"As I explained on the last occasion, this is merely a formal measure. As the Howrah Municipality has been relieved of all police charges by the Government of India, and as the Suburban Municipality was abolished in the year 1888, there is no longer any necessity to retain this Act on the Statute Book. For these reasons it is proposed to repeal it. I move now that the Bill be passed."

The motion was put and agreed to.

THE CHOTA NAGPUR ENCUMBERED ESTATES (AMENDMENT) BILL, 1908.

The Hon'ble MR. DUKE moved for leave to introduce a Bill further to amend the Chota Nagpur Encumbered Estates Act, 1876.

The motion was put and agreed to.

The Hon'ble MR. DUKE introduced the Bill and moved that it be read in Council.

He said:—"The Chota Nagpur Encumbered Estates Act was passed thirty-two years ago in order to check the transfer of the patrimonies of ancient families who had formerly been the independent or semi-independent Feudal Chiefs of the country to alien purchasers.

"This process had attained serious proportions and threatened to be politically disastrous, for the Zamindars of old families, although often improvident, were respected by the people, and themselves respected the customary and traditional usages connected with land tenure, which are very different in Chota Nagpur to the more ordinary contractual relations of Bengal.

"New purchasers on the other hand in many cases, men of alien descent, whose sole aim and object is to make money, often insist on exacting as much as they can from the tenantry without regard to customary rights and privileges and their conduct has more than once provoked serious disturbances.

"That the law was wisely conceived and has generally answered the purpose for which it was passed is made clear by the fact that in March 1908, thirty-two years after it was passed, no less than 125 estates were being managed under its provisions.

"Experience has, however, exposed several defects in its operation.

"One of the most serious is that it may operate to render a reckless proprietor still more improvident in incurring debt.

"Once he realizes that the estate is so dipped that it cannot recover in his own time, he is under some temptation to continue his course as long as he can borrow anything at all, relying on Government to preserve the estate continually for his heirs. In several cases this has been carried so far that redemption has been found hopeless and Government has been obliged to stand aside and see an historic family dispossessed.

"To remedy this state of things, it is proposed that when it has become clear that a course of wasteful extravagance has been entered on, the Government may intervene and take the estate under management.

"The provision is contained in the second sub-clause of clause 2.

"Strong as it is the measure has been approved in principle by a majority of the great landowners of Chota Nagpur who have been consulted on it. It is recognized, however, as a measure which should only be used in exceptional circumstances; and it is therefore provided that the Local Government shall only approve such action in the case of families of political or social importance, or when it is desirable in the interest of the tenants. In order to enable the Deputy Commissioner to initiate action under this section, he is given by clause 3 power to obtain the necessary information as to the income of the estate and debts of the proprietor. Another important proposal is to give greater facilities to the Managers of encumbered estates to borrow money, whether for the consolidation of debt or for improvements. At present they can only borrow from Government or upon usufructuary mortgage and then only for re-payment of debt. It is then proposed by clause 12 to give power to borrow from any proper source at rates of interest approved by the Board of Revenue, and not only for payment of debt but also for the improvement of the estate. This may, in the long run, prove the best means for extinguishing debt.

"This necessitates clause 4 also, as provision has to be made for the repayment of debts so contracted.

"Another proposal is to prevent grants or assignments made to relatives in view of pending insolvency.

"Such grants defeat the creditors and make it difficult for Government to rehabilitate the estate, but it is only proposed in clause 6 to deal with them when the Commissioner is satisfied that they were not made in good faith.

"The next amendment to which I would direct the attention of the Council is that contained in clause 10. It has been found that improvident proprietors, whose estates have been taken under protection, continue to raise debts on bond, which being without security are generally at ruinous interest. As soon as the estate is released, they validate these bonds so that the estate shortly again becomes insolvent. It is therefore proposed to render a proprietor who has been restored to the possession of his property incapable (without the sanction of the Local Government) of again encumbering or of alienating the property. At one time it was thought that to render this measure effective, it would be necessary to incapacitate the heir also, but it has now been decided that it would be unfair to impose such a disability on a person who is not responsible for the original insolvency.

"The next two matters appear to have been mere oversights in the original law.

"Clause 11 empowers the Manager of an encumbered estate to investigate the titles of tenure-holders and under-tenure-holders.

"Clause 12 empowers the Manager to except leases—new section 18B.

"Clause 13 makes provision for the compulsory education of the children of proprietors, but only of such as have not been brought under protection by the initiative of the Deputy Commissioner.

"In fact the force of the provision is that, if a proprietor voluntarily seeks the protection of this law, he must agree to educate his family, and by so doing, to provide the best safeguard against their falling into similar difficulties.

"By clause 14 it is proposed to give the Board of Revenue the general power of supervision and control which it has under other Revenue laws and which can only be an additional safeguard for the proper exercise of the law.

"Clause 15 aims at preventing a disqualified proprietor from wasting money in litigation in which the Manager is not joined as a party.

"The Bill which I have had the honour to introduce and of which I have described the principal provisions is modest in its pretensions; it seeks only to remedy some of the more obvious defects in the existing law, but it is hoped that, so far as it goes, it will result in estates coming less frequently under the operation of the law, at least for a second time; in their remaining under protection for a shorter period, and in the production of a class of proprietors more alive to their obligations and to their best interests."

The Hon'ble BABU KALI PADA GHOSH said:—"I was not aware that the Bill would be introduced in today's meeting of the Council until entering the Council Chamber I saw the list of business placed on the table. I have had no opportunity to read the Bill, much less to consult any constituents.

The Hon'ble MR. DUKE introduced the Bill and moved that it be read in Council.

The motion was put and agreed to and the Secretary accordingly read the title of the Bill.

The motion was put and agreed to.

The Hon'ble MR. DUKE also moved that the Bill be referred to a Select Committee consisting of the Hon'ble Mr. Greer, the Hon'ble Mr. Streatfeild, the Hon'ble Mr. Chapman, the Hon'ble Babu Kali Pada Ghosh, the Hon'ble Maharajadhiraja of Burdwan, the Hon'ble Babu Deba Prasad Sarbadhikari and the Mover.

The motion was put and agreed to.

THE BENGAL COURT OF WARDS (AMENDMENT) BILL, 1908.

The Hon'ble MR. GREER moved for leave to introduce a Bill further to amend the Court of Wards Act, 1879.

The motion was put and agreed to.

The Hon'ble MR. GREER introduced the Bill and moved that it be read in Council. He said:—

"The Bill is a very short one. I do not think I need detain the Council with any lengthy description of it.

"The object is two-fold:—to facilitate the raising of loans for a ward's estate for the liquidation or consolidation of its debts, and to enable the Court of Wards to invest the surplus funds of an estate to better advantage.

"Under the existing law in this Province, loans for a ward's estate on mortgage of landed property can only be obtained from private parties. The number of capitalists who possess local knowledge of the conditions of an estate is usually so small that there is practically no free competition and, consequently, a higher rate of interest has to be paid than is justified by the security offered.

"At the same time there is always some estate which is in a position to advance the money from its surplus funds. Both estates, accordingly, are the losers. The clause will admit of loans being made from the funds of one estate under the administration of the Court of Wards to another such estate. Such loans, of course, would only be granted to solvent estates. The experience of the Court of Wards in the United Provinces has proved them to be both a remunerative investment and a convenient and economical means of providing funds for indebted estates. There is no reason why the estates under the Court of Wards in Bengal should be in a less favourable condition."

The Hon'ble BABU GAJADHAR PRASAD said:—"With Your Honour's permission, I would like to say something in support of this measure. My experience of Bihar, tells me that it sometimes happens an estate under the Court of Wards may have money in deposit, but cannot advance it on safe credit, because it does not find a safe debtor. Another estate, under the Court of Wards, may be in urgent need, but may not find a suitable creditor, and the Court of Wards is helpless and cannot do anything in the matter. Sometimes Civil Courts are requested to postpone execution for months and months at the instance of the Court of Wards, but the Court of Wards is unable to raise the money in time. I think it will be affording benefit to both, because money will be always safe in the hands of the Court of Wards, and I think this measure should be carried."

The motion was then put and agreed to, and the Secretary accordingly read the title of the Bill.

The Hon'ble MR. GREER also moved that the Bill be referred to a Select Committee consisting of the Hon'ble Mr. Duke, the Hon'ble Mr. Oldham, the Hon'ble Mr. Chapman, the Hon'ble Rai Kishori Lal Goswami, Bahadur, the Hon'ble the Maharajadhiraja of Burdwan, the Hon'ble Mr. Brown and the Mover.

The motion was put and agreed to.

THE CHOTA NAGPUR TENANCY BILL, 1908.

The Hon'ble MR. VINCENT moved that the Report of the Select Committee on the Bill to amend and consolidate certain enactments relating to the law of landlord and tenant and the settlement of rents in Chota Nagpur be taken into consideration.

The motion was put and agreed to.

The Hon'ble MR. VINCENT moved that the clauses of the Bill be considered in the form recommended by the Select Committee.

The motion was put and agreed to.

The Hon'ble RAI KISHORI LAL GOSWAMI, BAHADUR, moved that, in clause 12A (*now* 13)* of the Bill, for the words "or his agent" the words "or of his agent if specially authorized in that behalf" be substituted. He said:—

"I propose this substitution in order to make the sense quite clear and to bring the language into conformity with that used in the Bengal Tenancy Act, in order to convey the same idea. Sir, it is extremely desirable that uniformity of language to express a common idea should be preserved in all the enactments of a Legislature. There is no doubt, Sir, as to what is intended by the words 'or his agent'. What is really intended is, that only a specially authorized agent can, by written consent, validate the sub-division of a tenancy made by a tenant. To make this sense quite clear, I propose this substitution, and I hope this motion will be acceptable to all the Hon'ble Members."

The Hon'ble BABU KALI PADA GHOSH seconded this motion.

The motion was put and agreed to.

The Hon'ble MR. VINCENT moved that, in clause 16 (*now* 18) of the Bill, for the words "sub-sections (*4*), (*5*) and (*6*) of section 15 shall apply to such persons" the following be substituted, namely:—

sub-sections (*5*) to (*6*) of section 15 shall apply to such persons as if they were raiyats.

He said:—"This amendment is in the main a drafting amendment. In one particular there is, however, a substantial change proposed in the Bill. We have provided that Bhuinhars and Mundari khunt-kattidars who hold, and have held their lands in a village for a period of 12 years, shall be deemed to be settled raiyats of a village. It was pointed out that no provision had been made for the case of a Bhuinhar or Mundari khunt-kattidar who had inherited land from his father within a period of 12 years, although the joint occupation of father and son might exceed this period. To meet this we have made sub-section (*5*) of section 15 apply to the case of such tenants."

The motion was put and agreed to.

The Hon'ble RAI KISHORI LAL GOSWAMI, BAHADUR, moved that, in sub-clause (*a*) of clause 24 (*now* 26) of the Bill, for the word "seven" the word "three" be substituted. He said:—

"The object of clause 24 (*now* 26) is to annul enhancements of rent brought about by private contract during the last seven years. Under the existing law, which regulates the relations between landlord and tenant in Chota Nagpur Division, there is no specific prohibition against enhancement of rent by private contract. As a matter of fact, as stated in the Notice on Clauses appended to the Bill, rents have been increased in a very large number of cases by private contract. Now, Sir, if it is declared by a stroke of the pen by this Legislature that such enhancements made in the course of the last seven years are invalid, it will, I fear, be regarded as a great hardship by the landlords of Chota Nagpur. Sir, in the present Bill, a provision has been introduced by which enhancement of rent by private contract is altogether prohibited. This is a drastic measure, and in point of stringency goes beyond the Bengal Tenancy Act. I, however, Sir, do not raise my word of protest against that provision, for it is just possible that, in a backward place like Chota Nagpur, the bulk of the rural population, as a rule, may be yet in such a stage of primitive simplicity as not to be able to hold their own in

* The clauses and sub-clauses of the Bill having been re-numbered under the direction of the Council, the present number of each clause and sub-clause is inserted in brackets, wherever the new numbering differs from the old.

entering into a contract with the zamindars; but, Sir, to make a clean sweep of all contracts for enhancement of rent during the last seven years, will, I consider, be a great source of grievance to them. Section 29 of the Bengal Tenancy Act deals with the enhancement of rent by private contract. That provision of law, as Your Honour is aware, subject to certain limitations, validates enhancements of rent, if the enhanced rent has been paid continuously for three years. Sir, I will ask the Council to follow the precedent of the Bengal Tenancy Act, and to allow the retrospective operation of this provision of the law only in regard to contracts made within three years from the commencement of this Act."

The Hon'ble BABU KALI PADA GHOSH said:—"I regret I am unable to support the amendment moved by my hon'ble friend. He says there is no provision existing in the Chota Nagpur Rent Act by which private enhancement is in any manner prohibited, but if we have a look at section 21 of the existing Rent Act of Chota Nagpur, we find that it lays down: 'No other under-tenant or raiyat having a right of occupancy shall be liable to any enhancement of the rent previously paid by him, otherwise than in the manner provided under this section.' Reading this section as it stands, one would infer that the enhancement of rent payable by an occupancy raiyat can only be effected by filing a petition before the Deputy Commissioner. This section was subject to great discussion; and reading section 44 of the Rent Act along with section 21, one may say that private enhancements were not altogether interdicted. But, at any rate, section 21 of the existing Rent Act, as it stands, did not allow private enhancement, in the same sense as the Bengal Tenancy Act does, and it should also be borne in mind that there is a limit put by the Bengal Tenancy Act on all private enhancements, namely, that such enhancements should not exceed two annas in the rupee of the rent previously payable by the raiyat. And when private enhancement in Chota Nagpur was under no such limit, if there had been any private enhancement, I think that it is very necessary to see that such enhancement was fair and equitable, but three years' payment does not give us a guarantee that it was so. Under the circumstances, I do not think the period of three years would be quite adequate, though at the same time I am rather doubtful whether the period of seven years is not too long, and I may have to say something on the next amendment, when moved."

The Hon'ble MR. VINCENT said:—"I regret that I am unable to recommend the Council to accept this amendment. Under the existing Law, as will be seen on an examination of section 24 of Act I of 1879, all enhancements of the rent of an occupancy raiyat made otherwise than by order of the Deputy Commissioner are prohibited. It has been found, however, that in many cases, this provision of the Law has been evaded, and to meet such cases the proposals contained in clause 24 (*now* 26) of the Bill have been made. It does not appear to me that landlords have any reasonable ground for complaint in the matter; in fact a very great concession is being made to them. They have enhanced rents in direct violation of the existing Law: nevertheless, in order to avoid creating disturbances and dissensions, the Government is prepared to validate such illegal contracts, provided that the rents have been paid for a space of 7 years, and no sound reasons have been given for reducing that period.

"The argument in favour of a period of three years based on section 29 of the Bengal Tenancy Act is of no weight. Enhancements under section 29 are subject to two conditions—firstly, the contract must be in writing and registered, and secondly, the enhancement is not to exceed two annas in the rupee. The proviso regarding 3 years' payments only affects the condition that a contract must be in writing and registered, and if enhancements of over two annas in the rupee are made, then payments for 5 or 7 years will not, under the Bengal Tenancy Act, validate a claim for the enhanced rent. To argue therefore that, in legalizing enhancements, provided they are not unfair and inequitable, in Chota Nagpur, we should follow the 3 years' rule of the Bengal Tenancy Act is unsound. We admit enhancements over

two annas in the rupee if they are not unfair but we require a reasonably lengthy period of payment to raise a presumption that the rent is fair and that the raiyat has willingly paid it."

The motion was put and lost.

The Hon'ble RAI KISHORI LAL GOSWAMI, BAHADUR, moved that since the last amendment was lost, in sub-clause (*a*) of clause 24 (*now* 26) of the Bill for the word "seven" the word "five" be substituted. He said:—

"Since the foregoing amendment is lost I make this alternative proposal. I think it will be under the circumstances the better course to accept a mean between 3 and 7 years for annulling enhancements of rents arranged under private contracts. It seems to me, Sir, that the Hon'ble Member in charge of the Bill is wrong in interpreting the provision of the Bengal Tenancy Act in regard to enhancements of rent by private contract. Three years' continuous payment of rent will under that law validate enhancements of rent, even if the contract for enhancement is not in writing and is not registered, provided the increment is not more than two annas in the rupee. If it is in writing and registered, then three years' continuous payment of enhanced rent is not a *sine quâ non*, but the limitation of two annas in the rupee applies to it as well. I trust, 5 years' limit will be acceptable to the Hon'ble Members."

The Hon'ble BABU KALI PADA GHOSH said:—"I am not sure whether the period of 7 years is quite proper, it seems to be a little too long. If the Hon'ble Member in charge accepts this amendment, I am with him."

The Hon'ble MR. VINCENT said:—"I am not prepared to accept this amendment. The period of 7 years, as specified, has been accepted in these cases by the Settlement Department in Chota Nagpur for some years, I believe, and I am unwilling to reduce it. I regret the fact that I did not apparently make myself clear in regard to the meaning of section 29 of the Bengal Tenancy Act. That section is really quite clear. Where there is an enhancement over two annas in the rupee, 3 or 4 or 5 years' payment will not validate it; therefore, it is not safe, I say, to argue from the analogy of that Act to the Chota Nagpur Act. I see no reason to alter the period or diminish the period of 7 years as stated in the Bill."

The motion was then put and lost.

The Hon'ble RAI KISHORI LAL GOSWAMI, BAHADUR, moved that, after the first proviso to sub-clause (*1*) of clause 27 (*now* 29) of the Bill, the following be inserted, namely:

> Provided, further, that when the enhancement is claimed on the ground of a rise in prices,—
>
> (i) the Deputy Commissioner shall compare the average prices during the decennial period immediately preceding the making of the application with the average prices during such other decennial period as it may appear equitable and practicable to take for comparison;
>
> (ii) the enhanced rent shall bear to the previous rent the same proportion as the average prices during the last decennial period bear to the average prices during the previous decennial period taken for comparison; provided that, in calculating this proportion, the average prices during the later period shall be reduced by one-third of their excess over the average prices during the earlier period;
>
> (iii) if, in the opinion of the Deputy Commissioner, it is not practicable to take the decennial periods prescribed in clause (*i*), he may, in his discretion, substitute any shorter periods therefor.

The Hon'ble RAI KISHORI LAL GOSWAMI, BAHADUR, also moved that the following proviso to sub-clause (*1*) of clause 27 (*now* 29) of the Bill be omitted, namely:

> Provided, further, that all enhancements shall be limited in the prescribed manner (if any).

He said:—"I take these two amendments together at the request of the Hon'ble Member in charge of the Bill, though they deal with different questions. The first amendment is to add the proviso just read by me to clause 27 (*now* 29) of the Bill. It is merely a reproduction of section 32 of the Bengal Tenancy Act. The second ground laid down under clause 27 (*now* 29) of the Bill authorizes enhancements of rent, on the basis of a rise in the average local prices of staple food-crops. It is found, as a matter of fact, that it is difficult to work out enhancements on that ground, unless some definite lines are indicated as to the method of inquiry to be pursued for the purpose of determining what would be a fair enhancement on that basis. Owing to a general rise in the price of food-crops, the cultivators at the present time derive a substantially larger profit by the sale of their field produce. The rise in the price is due to circumstances not brought about either by the exertions or at the cost of either the tenant or the landlord. Under such circumstances, Sir, the unearned increment ought to be fairly apportioned between the landlord and the tenant. A definite rule of proportion for such apportionment ought therefore to be laid down in the body of the law itself for the guidance of the Courts, which will have to deal with cases for enhancement of rent on the basis of the rise of price of staple food-crops. Section 32 of the Bengal Tenancy Act formed part of that Act when it was passed in the year 1885. I think, Sir, you will pardon my referring briefly to the antecedent literature which led to the framing of that section in the Bengal Tenancy Act. Sir, you are well aware that an important Commission was appointed a few years before the Bengal Tenancy Act was launched to investigate thoroughly all questions relating to landlords and tenants, with particular reference to the Permanent Settlement Regulations and the immense volume of literature on the subject, and to examine the then state of the laws regulating the relations of the landlord and the tenant. The members of the Commission submitted a valuable report, and the Tenancy Act of 1885 is mainly grounded on it. Speaking about enhancements of rents on the basis of rise in the average prices of food-grains, the report says:—

> From this analysis it will appear that the component elements of this ground of enhancement are sufficiently complex; and looking at the above considerations, it is not very easy to say how the increment arising from increase of price ought to be divided so as to make the division fair to both parties.

"The Commission recommended that the increment should be equally divided between landlord and tenant on that ground. But the Select Committee, which sat to consider the Bill which afterwards became the Bengal Tenancy Act of 1885, preferred to follow the proportion laid down in the well-known case, popularly called the Great Rent Case, which was decided by a Full Bench of the Calcutta High Court, consisting of all the learned Judges of that Court, during the Justiceship of the late Sir Barnes Peacock. They accordingly fixed that one-third of the increment will go to the tenant and two-thirds to the landlord. The reason the Select Committee assigned for giving the one-third to the tenant was to cover the increase of cost of production. The Select Committee, on this point, reported as follows:—

> We recognised the difficulty of making the Courts ascertain the actual cost of production, and as it was necessary to fix an arbitrary limit, we have fixed the deduction of one-third as a general rule.

"Sir, this was the state of the law in the year 1885, and it stands unchanged even now, in spite of the several revisions it has gone through, notably the last exhaustive revision by Your Honour's Council last year. I think, Sir, that the rule of proportion laid down in the Bengal Tenancy Act is supposed to be fair and equitable even now. I therefore submit, Sir, that the addition of this proviso will be a great help to the judicial and executive officers in ascertaining fair enhancements of rents on the basis of the rise in the average prices of food-grains in the locality. I will also add, Sir, that this provision of the Bengal Tenancy Act has been extended to Orissa. A survey and the preparation of a record-of-rights are now in progress in Chota Nagpur, and I hope, Sir, that in the course of a few years it will be completed. The papers which will be available in such a survey will help to determine a fair enhancement of rent on the two other grounds

mentioned in clause 27 (*now* 29) of the Bill, but I do not think, Sir, that those papers will be of any great help in the determination of the question of enhancement of rent on this ground. It is therefore desirable that a proper proportion should be laid down in the Chota Nagpur Act, such as has been done in the Bengal Tenancy Act.

"I shall now submit my observations on the second part of the amendment. In the law that is at present in force in Chota Nagpur, no definite grounds have been laid down for enhancements of rent. Such a condition of the law is unsatisfactory, and it will, I am sure, be remedied by clause 27 (*now* 29) of the Bill. The first proviso to that clause lays down definitely the three grounds on which alone an enhancement of rent should be allowed. As the marginal notes of the Bill inform us, these grounds have been borrowed from the United Provinces Tenancy Act and the second proviso from the Tenancy Act in vogue in Bengal. That second proviso is in the nature of an elastic safeguard, which says that no Court shall decree any enhancement of rent which is, under the circumstances of the case, unfair or inequitable. But, Sir, the Bill does not stop there, but it proceeds further and proposes the unprecedented course of restricting enhancements by rules to be framed by the Local Government, even when one or more of the conditions laid down in proviso (*1*) of clause 27 (*now* 29) has or have been satisfied and the increment is also found to be fair and equitable. This, Sir, seems to be a very objectionable method of legislation.

"I, Sir, deprecate legislation by rules, which, I respectfully submit, should be confined to details as auxiliary to the main principles enunciated in the body of the law itself, but which should not control, override or limit them. Sir, the limitations for the right of the landlords to enhance the rent of their tenants should be fully stated in the body of the law, and not partly in the law and the rest in the rules, giving the rules the pre-eminent position to limit enhancements which satisfy the conditions laid down in the law which sanctioned the making of rules. Sir, I am not aware of the way in which the enhancement is going to be limited by the rules, but the proviso as it is at present worded admits of considerable latitude. It will enable the Local Government to lay down rules to restrict enhancements, even after all the conditions laid down in the Act are satisfied and they are found to be fair and equitable. Sir, any limitation on what is fair and equitable can hardly be founded on sound principle. The enhancement is fair and equitable, and ought to be the last word on the subject. But, Sir, if the proviso I protest against, read with sub-clause (*1*) of clause 256 (*now* 264) of the Bill which speaks of the rules to be laid down by the Government, means that the Local Government shall have power to make rules for prescribing the manner in which fair rents should be ascertained on the basis of the grounds laid down in the first proviso of clause 27 (*now* 29) then I respectfully submit that the Hon'ble Member in charge of the Bill should frame the proviso in such a way as to convey that sense, and then, Sir, I for one shall heartily support it."

The Hon'ble BABU KALI PADA GHOSH said:—"I am certainly in sympathy with the first part of the amendment, but at the same time I do not think that this addition is absolutely necessary for the purposes of our Act. Clause 27 (*now* 29) of the Bill deals with an application for enhancement. The Deputy Commissioner shall have to consider all the circumstances set forth in that application, and he may decree such enhancements as may seem to be fair and reasonable. I should say that, in considering the circumstances of the case, the Deputy Commissioner will certainly consider the data which are sought to be provided for by the amendment which is practically section 32 of the Bengal Tenancy Act; so I do not think that it would be absolutely necessary to have that amendment in our Act: nevertheless, I should say, I am not opposed to it. As regards the second part of the amendment, I must say that I had considerable difficulty in giving my consent to this proviso in clause 27 (*now* 29) of the Bill when the Bill was discussed in the Select Committee. I must say that I was opposed to this proviso from the very beginning, because to my mind it

appears that there are already in the Act sufficient safeguards to ensure the fairness of enhanced rent. We have in this Bill, Sir, done away with all private enhancements after the passing of the Act. Enhancement can hereafter only be made by either the Deputy Commissioner or the Revenue-officer, and when we take into consideration the fact that we have put in a clause to the effect that no enhancement should be allowed if unfair and inequitable, I think we have provided sufficient safeguards for the purpose we have in view. But the Hon'ble Member in charge of the Bill was of opinion that unless this proviso was added, the raiyats will be ruined in many cases. I should be the last man to protest against any measure which is calculated to prevent the ruin of the raiyats. But I gave my consent to this proviso, as I was given to understand that, if any such limits be prescribed by the Government, the people will have an opportunity to represent their views, and the notification which may be issued on this subject will not be validated finally before the people are given such opportunity. I submit to Your Honour that we have provided many things in the Bill to be prescribed by notification, but in regard to this particular matter, I should say that in case the Hon'ble Member in charge does not see his way to accept this amendment, the people should be given sufficient opportunity to place their views before Government. Subject to this limitation, I gave my consent to this proviso."

THE Hon'ble BABU DEBA PRASAD SARBADHIKARI said:—"The choice in the Select Committee was as to whether the enhancement was to be limited to two annas in the rupee or something else. That might make matters far worse than if the enhancement was not so limited. The Select Committee under the circumstances were convinced that it would be best to leave the matter alone for the present, as both the raiyats and the landlords could be sure of more generous treatment if the Government was allowed to make rules than if they were limited to two annas in the rupee. It was not considered advisable to limit the enhancement by the Act, because in Chota Nagpur, where the prices of food-grains had an abnormal rise, an enhancement of two annas in the rupee would not be inadequate. Therefore, Sir, I am unable to support the second part of the amendment. Nor can I support the first part because, as has been pointed out, sub-clause (*c*) of clause 27 (*now* 29) of the Bill gives the Deputy Commissioner abundant opportunities to take into consideration all the circumstances placed before him. We must remember that in regard to section 32 of the Bengal Act, we have not in Chota Nagpur that class of Courts which the Bengal Act deals with. Moreover, the Deputy Commissioner, who would have to deal with these matters with his very many other duties, would be overburdened, if all these complex rules of the Bengal Act were to be made a part of the Chota Nagpur Act. Having regard to sub-clause (*c* of clause 27 (*now* 29) of the Bill, there is no reason why the details laid down in section 32 of the Bengal Act or any other details that may be necessary to consider should not be fully gone into by the Deputy Commissioner, if he chooses so to do. These are, however, provisions, Sir, that we can hardly advise the Council to incorporate in the present Bill."

The Hon'ble MR. VINCENT said:—"I regret also that on this point I can only recommend the Council to reject the proposed amendment. It is essentially necessary that power to limit these enhancements should be retained by the Local Government. Rules need not necessarily be issued under sub-clause (*c*) of clause 27 (*now* 29) of the Bill, but rules will be issued if any necessity arises. If the proviso which it is proposed to omit is examined, it will be seen that it runs thus: 'Provided, further, that all enhancements shall be limited in the prescribed manner (if any).' Prices of staple food-crops have, in many parts of Chota Nagpur, increased 200 and 300 *per cent.* within the last 20 years, and, if enhancements based on these prices are allowed in the manner proposed in the amendment of the Hon'ble Member, the most serious agrarian disturbances will in all probability result. We have been referred to the Bengal Tenancy Act as the authority for the proposed amendment, but it has to be remembered that this Bill under discussion is one affecting aboriginal races in Chota Nagpur, and arguments based on the analogy of Bengal cannot be safely accepted in the case of such races.

"Personally, I may go further and say that I doubt very much if, even in Bengal, the provisions of section 32 of the Bengal Tenancy Act have ever been given full effect to, and I believe, if any general attempt is made to enhance rents in accordance with that section, there will be danger of serious discontent and disturbance among the agrarian population of the province. At any rate, in Chota Nagpur, for political reasons alone, it is necessary that the Government should retain power to limit those enhancements of the rents of occupancy raiyats, but, as I have said, it is optional with the Government to make rules, and not obligatory upon them to do so. It has been said that the words 'unfair and inequitable' in the second proviso of this clause provide a sufficient safeguard for the interests of raiyats, but you have to consider the point put before by one Hon'ble Member, that the Courts trying these cases will be the Courts of Deputy Commissioners. The words 'Deputy Commissioner' have been defined in the Bill and include Deputy Collectors, Assistant Collectors, and in certain circumstances Sub-Deputy Collectors empowered under the Act. In deciding whether rent is fair and equitable, or unfair and inequitable, a great deal depends on the personal equation. What one man may consider fair, another man may consider unfair; and bearing in mind the fact that comparatively inexperienced officers will try these cases, it is, therefore, the more necessary for the Government to retain power to prescribe rules generally limiting the amount of those enhancements, in order to obtain at least some uniformity in these cases. The Hon'ble Babu Kali Pada Ghosh is apprehensive, if I understood him correctly, that rules will be issued by Government without due consideration and without any opportunity being offered to the public of criticizing the same. This is incorrect. Before any rules are finally adopted, there must be, I believe, a draft publication, and during the period of this draft publication the public will have ample opportunity of criticizing the rules and submitting their views in regard to the same."

The motion was put and lost.

The Hon'ble RAI KISHORI LAL GOSWAMI, BAHADUR, moved that at the end of sub-clause (*f*) of clause 30 (*now* 31) of the Bill the following be added, namely:—

> or, if the landlord is unable to indicate any particular land as being held in excess, then the area alone.

He said:—"Clause 30 (*now* 31) of the Bill has been framed on the lines of section 52 of the Bengal Tenancy Act. As it was framed in 1885, it was without the sub-sections (5) and (6). Serious practical difficulties in the working of that section as it was in 1885 had been found, and the interpretation of the section as made by the High Court in their several rulings added to those difficulties, with the result that it was practically impossible to get any excess rent from excess area. The landlords generally do not possess complete records of their properties, and they are unable to indicate what is the particular excess land in respect of which they claim excess rent. To obviate that difficulty, the amending Act of 1898 was passed, which added the following sub-section to section 52:—

> (5) When in a suit under this section the landlord or tenant is unable to indicate any particular land as held in excess, the rent to be added on account of the excess area may be calculated at the average rate of rent paid on all the lands of the holding, exclusive of such excess area.

"In order that clause 30 (*now* 31) of the Bill may fit in with sub-section (5) of section 52 of the Bengal Tenancy Act, I have condensed the long sub-section into a short paragraph. I hope, Sir that this will be acceptable to the Hon'ble Members of this Council and to the other Hon'ble Members."

The motion was put and agreed to.

The Hon'ble RAI KISHORI LAL GOSWAMI, BAHADUR, moved that before the proviso to sub-clause (*l*) of clause 31 (*now* 32) of the Bill the following be inserted, namely:—

> Provided that, if the landlord proves that, at the time when the measurement on which the claim is based was made, there existed, in the estate or tenure or part thereof in which the holding is situate, a practice of measuring land before settling rents, the Deputy Commissioner may presume that the area of the holding as entered in any lease or counterpart engagement or (where there is an entry of area in a counterfoil receipt corresponding to the entry in the rent-roll) in the rent-roll relating to the holding was so entered after measurement.

He said :—"This is of course reproducing with certain alterations of a verbal character sub-section (*6*) of section 52 of the Bengal Tenancy Act, in order to fit in with the framework of the clause 31 (*now* 32) of the Bill. The sub-section (*6*) of section 52 of the Bengal Tenancy Act is due to the amending Act which was passed last year by this Council, and I hope, Sir, that this will be also acceptable to the Hon'ble Members of this Council."

The Hon'ble BABU DEBA PRASAD SARBADHIKARI said :—"This amendment was very much needed."

The motion was put and agreed to.

The Hon'ble MR. VINCENT moved that, in sub-clause (*1*) of clause 55 (*now* 54) of the Bill, after the word "agent" the words "free of charge" be inserted. He said :—

"The law makes it obligatory upon every landlord to grant a receipt to a tenant for any rents paid. The words 'free of charge' are now inserted to make it clear that no fee can be demanded by a landlord for the delivery of such receipt."

The Hon'ble BABU KALI PADA GHOSH said :—"I think this amendment is a necessary provision for Chota Nagpur, and I support the motion."

The motion was put and agreed to.

The Hon'ble MR. VINCENT moved that, in the proviso to clause 61 (*now* 60) of the Bill, for the words "rent which accrued due before the date of the sale and any rent so due" the following be substituted, namely :—

rent for any period prior to the date of sale, and rent due for any such period.

He said :—"The reason for this amendment is that it is the intention of the Government that a purchaser of a tenure or holding in execution of a rent decree shall obtain the same free of any liability for rent due prior to the date of sale. As the clause stands, a purchaser may be made liable for an instalment of rent which accrues due after the date of sale, for a period prior to the sale; that is to say the date on which the instalment is payable may be later than the date of sale, though the rent may be due for a period prior to the sale. It is, therefore, necessary to make it clear that the purchaser of a tenure or holding is not to be called on to pay rent for any period prior to the sale."

The motion was put and agreed to.

The Hon'ble MR. VINCENT moved that, at the end of the first paragraph of clause 88 [*now* sub-clause (*1*) of clause 89] of the Bill, after the words "section 86," the following be inserted, namely :—

or any order passed in appeal under section 84, sub-section (*2a*).

He said :—"Under section 88 as it stands, a Revenue-officer specially empowered in this behalf may revise and correct an entry in a record-of-rights. It is not desirable that he should be allowed to revise or correct any entry made in consequence of the decision of an appeal under section 84, and this amendment provides against his making any alteration in a record in such cases."

The motion was put and agreed to.

The Hon'ble MR. VINCENT moved that, in the proviso to clause 88 (*now* 89) of the Bill, before the words "section 86" the words "section 84, sub-section (*2a*), or" be inserted. He said :—

"This amendment follows as a necessary consequence upon the previous one."

The motion was put and agreed to.

The Hon'ble MR. VINCENT moved that clause 88 of the Bill be numbered 88 (*1*) [*now* 89 (*1*)], and that the following be inserted thereafter, namely :—

(*2*) An appeal shall lie in the prescribed manner and to the prescribed officer from any order passed under sub-section (*1*).

He said :—"It is advisable to provide for an appeal against an order of a Revenue-officer revising a record under clause 88 [*now* 89(*1*)], and the amendment is proposed to meet this object."

The Hon'ble BABU KALI PADA GHOSH supported the motion.

The motion was put and agreed to.

The Hon'ble MR. VINCENT moved that the following amendments be made in sub-clause (*1*) of clause 123A (*now* 128) of the Bill, namely :—

(*a*) before "section 82" insert "section 80 ;"

(*b*) for "section 89, section 91, section 94 and section 96" substitute "sections 88 to 96 ;"

(*c*) for "shall apply to such record as if it were a record referred to in these sections" substitute "shall apply as if such record were referred to in those sections."

He said :—"Clause 123A (*now* 128) is part of Chapter XV, which deals with the preparation of a final record-of-rights of village headmen, khunt-katti raiyats and others. Many of the provisions of Chapter XII, which deals with the preparation of an ordinary record-of-rights, are applicable in the case of records prepared under Chapter XV, and the amendment has been framed to utilize these provisions in the case of records prepared under Chapter XV."

The motion was put and agreed to.

The Hon'ble MR. VINCENT moved that, in sub-clause (*2*) of clause 123A (*now* 128) of the Bill, for the words "section 97" the words "sections 94 to 97" be inserted.

He said :—"This amendment is proposed for similar reasons to those just given for the previous amendment."

The motion was put and agreed to.

The Hon'ble MR. VINCENT moved that sub-clause (*b*) of clause 131 (*now* 136) of the Bill be omitted, and that, in sub-clause (*c*) of the same clause [*now* sub-clause (*b*) of clause 136 , for the words "who is not in charge of a sub-division, but is specially empowered by the Local Government" the words "who is empowered" be substituted.

He said :—"The definition of 'Deputy Commissioner,' in clause 3, sub-clause (*viii*), has been amended, but by error this consequential amendment in clause 131 (*now* 136) was omitted."

The motion was put and agreed to.

The Hon'ble RAI KISHORI LAL GOSWAMI, BAHADUR, moved that after clause 137 (*now* 141) of the Bill the following be inserted, namely :—

Suit by co-sharer landlord for rent.

137A. (*1*) Notwithstanding anything contained in section 250A, a co-sharer landlord may institute a suit to recover from a tenant—

(*a*) his share of the rent, when such share is collected separately, or

(*b*) the whole of the rent due to the plaintiff and his co-sharers, when all or any of his co-sharers who refuse to join in the suit are made defendants therein.

(*2*) When, in a suit instituted under clause (*b*) of sub-section (*1*), the plaintiff is unable to ascertain what rent is due for the whole tenure or holding, or whether the rent due to the other co-sharer landlords has been paid or not, owing to the refusal or neglect of the tenant or the said landlords to furnish him with correct information on these points or either of them,

the Deputy Commissioner shall determine—

(*i*) what sum (if any) is due to the plaintiff for rent, interest thereon, and costs, and

(*ii*) what sums (if any) are due to the said landlords, respectively, on account of their share of the rent and interest thereon,

for the period in respect of which the suit is brought; and shall decree the suit accordingly.

(*3*) Notwithstanding anything contained in Explanation I to section 48, or in section 195, a decree awarding to a plaintiff a sum referred to in clause (*i*) of sub-section (*2*) shall, as regards the remedies for enforcing the same, be as effectual as a decree obtained by a sole landlord or an entire body of landlords in a suit brought for the rent due to all the co-sharers.

(*4*) When the sums due from a tenant to any co-sharer landlord are determined under clause (*ii*) of sub-section (*2*), in respect of any period, then no further suit shall lie against such tenant for rent alleged to be due to such landlord in respect of that period.

He said:—"Sir, I understand that the Hon'ble Member in charge of the Bill is prepared to accept this. This addition is based on the lines of section 148A of the Bengal Tenancy Act. Section 148A was enacted last year simply for the purpose of giving relief to co-sharer landlords, who had no opportunity to recover rent by the sale of the tenancy. The history must be fresh in the minds of the Hon'ble Members, so I do not intend to dilate at length on this point. The co-sharer landlords of Bengal and Bihar are deeply grateful to Your Honour for affording them facilities to realize their rents by the enactment of section 148A of the Bengal Tenancy Act. Your Honour will earn the gratitude of the co-sharer landlords of Chota Nagpur by extending the same facilities to them by sanctioning the addition proposed by me."

The Hon'ble MR. VINCENT said:—"I recommend the Council to accept the amendment in its present form on the understanding that the amendment standing in the name of the Hon'ble Member, to insert before clause 251 (*now* 258) of the Bill a new clause 250A (*now* 257), is also pressed. If he will undertake to propose that amendment, I recommend the Council to accept the present one."

The motion was put and agreed to.

The Hon'ble MR. VINCENT moved that the following words in sub-clause (*3*) of clause 140 (*now* 144) of the Bill be omitted, namely:—

the statement required by clause (*ii*) of sub-section (*2*) must also show the rental of the original tenancy according to the record-of-rights, and.

He said:—"Sub-clause (*2*) of clause 140 (*now* 144) already provides that the recorded rental of the tenancy shall be stated in any application under this clause. It is unnecessary, therefore, to provide for the same thing in sub-clause (*3*)."

The motion was put and agreed to.

The Hon'ble RAI KISHORI LAL GOSWAMI, BAHADUR, moved that after clause 195 (*now* 196) of the Bill the following be inserted, namely:—

Execution of rent decree obtained by a co-sharer landlord.

195A. When one or more co-sharer landlords applies or apply for the execution of a decree obtained in a suit instituted under clause (*b*) of section 137A by the sale of a tenure or holding, the Court executing such decree shall, before proceeding to sell the tenure or holding, give notice of the application for execution to the other co-sharers.

He said:—"The necessity of this addition to clause 195 (*now* 196) of the Bill is patent. Clause 137A (*now* 142) which has just been passed necessitates the safeguarding of the interest of co-sharer landlords other than those applying for execution of decree by giving notices to them of the decree by the sale

The Hon'ble MR. VINCENT said :—"I recommend the Council to accept this amendment."

The motion was put and agreed to.

The Hon'ble RAI KISHORI LAL GOSWAMI, BAHADUR, also moved that after the word "sections," in clause 206 (*1*) [*now* 208 (*1*)] of the Bill, the figures "12" be inserted. He said :—

"The object of this is that section 12 of the Rent Recovery Act should not be made applicable to sales effected under the provisions of the Chota Nagpur Tenancy Bill. The reason is that the provision of section 12 of that Act is not sufficiently wide to cover all cases that will spring up under the Rent Act which is now being enacted for Chota Nagpur. The next amendment which will be proposed by me deals with the disposal of the sale proceeds of a tenure or holding."

The motion was put and agreed to.

The Hon'ble RAI KISHORI LAL GOSWAMI, BAHADUR, moved that after clause 206 (*now* 208) of the Bill the following be inserted, namely :—

Disposal of proceeds of sale under section 206.

206A. (*1*) In disposing of the proceeds of the sale of a tenure or holding under section 206, the following procedure shall be observed, that is to say :—

(*a*) there shall be paid to the decree-holder the costs incurred by him in bringing the tenure or holding to sale ;

(*b*) there shall, in the next place, be paid to the decree-holder the amount due to him under the decree in execution of which the sale was made ;

(*c*) if there remains a balance after those sums have been paid, there shall be paid to the decree-holder therefrom any rent which may have accrued due to him in respect of the tenure or holding between the institution of the suit and the date of the sale ; and

(*d*) the balance (if any) remaining after the payment of rent referred to in clause (*c*) shall, upon the expiration of two months from the confirmation of the sale, be paid to the judgment-debtor upon his application :

Provided that, where a tenure or holding has been sold in execution of a decree obtained by one or more co-sharer landlords in a suit instituted under clause (*b*) of section 137A,—

(*i*) payment of the amount due under such decree shall, notwithstanding anything contained in clause (*b*) of this section, be made to the decree-holder and to the other co-sharer landlords in proportion to the amount found to be due to each, and

(*ii*) if there remains a balance, payment of any rent which may have accrued due in respect of the tenure or holding between the institution of the suit and the date of sale shall, notwithstanding anything contained in clause (*c*), but subject to the determination, in the manner and with the effect mentioned in sub-section (*2*), of any dispute as to their respective rights to receive such rent, be made to the said decree-holder and other co-sharer landlords in proportion to their respective shares in the tenure or holding.

(*2*) If the judgment-debtor disputes the decree-holder's right to receive any sum on account of rent under clause (*c*), the Deputy Commissioner shall determine the dispute, and the determination shall have the force of a decree.

He said :— "This is merely a reproduction of section 169 of the Bengal Tenancy Act, and I hope that both the foregoing and this amendment will be acceptable to the Hon'ble Members."

The Hon'ble MR. VINCENT said :—"I recommend the Council to accept this amendment as an improvement on the provisions of an existing law on the subject."

The motion was put and agreed to.

The Hon'ble MR. VINCENT moved that, before the first proviso in section 206 (*1*) [*now* 208 *1*)] of the Bill, the following be inserted, namely :—

> Provided that the purchaser at any such sale shall not be entitled to annul any lease, right or tenancy referred to in clauses (*a*) to (*e*) of section 13 of this Act.

He said :—"This is how the amendment stands on the list. With Your Honour's leave I propose that it should run in this manner: "Provided that the purchaser of a tenure at any such sale, etc., etc.

"The amendment is proposed in order to protect certain interests in the event of a sale of a tenure in execution of a decree for arrears of rent. When a resumable tenure is resumed under section 13 certain interests have been safeguarded, and it is only reasonable that, in the event of the sale of a tenure, the same interests should be protected. There are, it may be noted, similar provisions in the Bengal Tenancy Act for the preservation of protected interests in sales in execution of decrees for rent obtained under that Act."

The motion was put in the amended form and agreed to.

The Hon'ble MR. VINCENT moved that, in sub-clause (*3*) of clause 213 (*now* 215) of the Bill, after the figures "208" the following be inserted, namely :—

> of this Act or under section 280, section 281 or section 282 of the Code of Civil Procedure.

He said :—"Sales of immovable property in execution of decrees under this Act, in certain circumstances, are held in accordance with Bengal Act VIII of 1865, and in other cases are held in accordance with the Code of Civil Procedure—*vide* clauses 206 (*now* 208) and 207 (*now* 210) of the Bill. In sales under clause 206 (*now* 208), third parties claiming an interest in the property about to be sold can put forward claims under clause 208 (*now* 211), and the decision of the executing Court on such claims is not subject to appeal, but a right of separate suit within one year is reserved. In the case of sales under the Code of Civil Procedure, sections 278 to 284 of that Code have been made applicable by clause 207 (*now* 210) of the Bill, and there is, in the case of ordinary Civil Courts, no appeal against an order made under section 280, 281 or 282, but in clause 213 (*now* 215) of the Bill all orders passed after decree and relating to the execution thereof, except orders under clauses 204 (*now* 206) and 208 (*now* 211) are made appealable. It is necessary, therefore, to make it clear that, in the case of sales under clause 207 (*now* 210) of the Bill held in accordance with the Code of Civil Procedure no appeal lies against any order passed under sections 280, 281 or 282 of that Code."

The motion was put and agreed to.

The Hon'ble RAI KISHORI LAL GOSWAMI, BAHADUR, moved that, after clause 229 (*now* 232) of the Bill, the following be inserted, namely :—

Limitation of certain suits for ejectment.

> 229A. Suits for the ejectment of an occupancy-raiyat or a non-occupancy raiyat on any of the grounds mentioned in section 21 or in clauses (*b*) and (*c*) of section 41 shall be instituted within two years from the date of the misuse or breach complained of.

He said :—"Having regard to the backward condition of the landlords and tenants in Chota Nagpur, the Bill has in several instances for the benefit of the tenants provided much longer periods of limitation than those provided in the Bengal Tenancy Act for similar cases. In the present instance, which is for the benefit of the landlord, the current has run counter. One year's limitation has been provided in this case; whereas in suits under the section of the Bengal Tenancy Act corresponding to clause 21(*b*) [*now* 22(*b*)] two years'

limitation has been provided. I think that in such a backward place as Chota Nagpur, two years' limitation should be provided for all ejectment suits referred to in my amendment. It cannot be expected that landlords in Chota Nagpur can be as vigilant as those in Bengal."

The Hon'ble MR. VINCENT said:—"I recommend the Council to accept this amendment."

The motion was put and agreed to.

The Hon'ble MR. VINCENT moved that, in clause 234 (*now* 238) of the Bill, for the words "possession of a village by a village headman, whether known as a pradhan, manji or otherwise" the following be substituted, namely:—

> possession of his office or agricultural land by a headman of a village or a group of villages, whether known as manki or pradhan or manji or otherwise.

He said:—"The wording of clause 134 (*now* 139), sub-clause (*6*), was altered by the Select Committee. By error, clause 234 (*now* 238), which deals with the period of limitation for suits under clause 134 (*now* 139), sub-clause (*6*), was not altered. The necessary alteration has now been made."

The motion was put and agreed to.

The Hon'ble RAI KISHORI LAL GOSWAMI, BAHADUR, moved that, before clause 251 (*now* 258) of the Bill, the following be inserted, namely:—

Joint-landlords.

Joint-landlords.

250A. When two or more persons are joint-landlords, anything which a landlord is, under this Act, required or authorized to do must be done by both or all those persons acting together, or by an agent authorized to act on behalf of both or all of them.

He said:—"The object of this is to prevent harassment to tenants caused by multiplicity of suits. This is taken from the Bengal Tenancy Act, and is a reproduction of section 188 of the Bengal Tenancy Act."

The Hon'ble MR. VINCENT said:—"It is gratifying to find this proposal made by a representative of the landlords of Bengal, and I recommend the Council to accept the amendment."

The motion was put and agreed to.

The Hon'ble MR. VINCENT moved that, in clause 251 (*now* 258) of the Bill, before the words "section 85" the words "section 84" be inserted.

He said:—"This amendment is proposed in order to give the same finality to decisions of Revenue-officers settling fair rents under clause 84 (*now* 85) that is given to their orders under clauses 85 and 86 (*now* 86 and 87)."

The motion was put and agreed to.

The Hon'ble RAI KISHORI LAL GOSWAMI, BAHADUR, withdrew the following motion standing in his name, namely:—

'that sub-clause (*ii*) of clause 256 (*now* 264) of the Bill be omitted.'

The Hon'ble MR. VINCENT moved that, in sub-clause (*viii*) of clause 256 (*now* 264) of the Bill, before the words "Chapter XIII" the words "section 88" be inserted.

He said:—"This amendment is proposed to correct an omission in drafting clause 256 (*now* 264)."

The motion was put and agreed to.

The Hon'ble Rai Kishori Lal Goswami, Bahadur, moved that in sub-clause (*1*) of clause 260 (*now* 268) of the Bill, for the words "in any manner provided in Chapter XVI for the recovery of money," the words "as if they were arrears of rent" be substituted.

He said:—"I understand, Sir, that this will be accepted by the Hon'ble Member in charge of the Bill, so I need not say anything more."

The Hon'ble Mr. Vincent said:—"I recommend the Council to accept this amendment."

The motion was put and agreed to.

The Hon'ble Mr. Vincent moved that the Secretary be directed to re-number the clauses and sub-clauses of the Bill in consecutive order, and to make corresponding alterations in all cross-references thereto.

The motion was put and agreed to.

The Hon'ble Mr. Vincent said:—"I have now to move, Sir, that the Bill, as settled in Council, be passed. In doing so, I have little to add to the statement I made when introducing the Bill into Council. I attempted then to explain the main principles of the Bill, and there have been save in one respect no departures from those principles in the amended Bill which is now before the Council. Errors and defects have been discovered by the Select Committee on minor points, and I have every reason to be grateful to my Colleagues on the Committee, more especially the non-official Members of the same, for the assistance rendered to me in correcting them, but the main features of the Bill have remained, save in one particular, unaffected by these modifications. The one particular to which I refer is the question of the jurisdiction of Civil Courts. In the Bill, as introduced into Council, there were two clauses which materially curtailed the ordinary jurisdiction of these Courts, and I mentioned at the time that it would be necessary to consider these clauses very carefully in the Select Committee. I refer to clause 95 and sub-clauses (*5*) and (*6*) of clause 134 (*now* 139). Clause 95 is now excised from the Bill, as also sub-clause (*5*) of clause 134 (*now* 139), and in this respect there has been a material change in the Bill now before the Council, but all the other main features of the original Bill have been retained. The principle of the settled raiyat has been accepted in Chota Nagpur, and the rights of non-occupancy raiyats in their holdings have been safeguarded. Enhancements of the rents of occupancy tenants by private contract have been prohibited in clear language, and provision has been made for the commutation of rents payable in kind into rents payable in cash. The prohibition against the sale of their holdings by raiyats has been relaxed in certain cases, and all tenants have been protected against the imposition of fresh abwabs or nakumats, and it is hoped that, by these protective measures, the interests of cultivators in Chota Nagpur have been safeguarded and that their position will be ameliorated. On the other hand, provision has been made for the settlement of fair rents by Revenue-officers, and for the preparation of records of landlords' privileged lands, and the interest of the landlords has been considered in these matters; the position of co-sharer landlords also is now ameliorated by the amendments proposed by the Hon'ble Rai Kishori Lal Goswami, Bahadur, and I venture to hope that this Bill may have a really beneficial effect in placing the relations of landlord and tenant in Chota Nagpur in a more settled and satisfactory condition."

The Hon'ble Babu Kali Pada Ghosh said:—"Sir, when the Bill was introduced into the Council last month, I made certain observations, referring specially to such provisions as seemed to be objectionable, and expressed a hope that they would be fully and carefully considered by the Select Committee to which the Bill was referred. It is, indeed, gratifying to observe that our hope has been realized in a great measure, and I feel bound to say that the Bill received, on the whole, a fair treatment at the hands of the Select Committee. A careful reading of the Bill as it now stands will show that it has been weeded of several objectionable features to

which I had made reference before. It may be said that there are still several provisions to which exception may be taken, but I think I may say without fear of contradiction that the law which we are now going to have is far more complete and satisfactory than the very imperfect Rent Law with which we had to deal for the last 30 years. How far it will be a satisfactory measure in its practical working is, however, another matter, as a great deal will depend upon the selection of officers, who will be entrusted to carry out those important provisions of the Bill which deal with customary rights, specially the provisions under the heads 'Record-of-Rights' and 'Settlement of Rents' and 'Landlords' Privileged Lands.' Sir, the recording of customary rights in jungles is a matter of supreme importance in Chota Nagpur, and I regret to observe that in the first few years of the settlement proceedings which, as Your Honour is aware, have already been commenced in Chota Nagpur, these rights were not recorded with such care and caution as the importance of the matter demanded, and the result has been very unsatisfactory in several cases. The raiyats in whose favour these rights were declared without due safeguard and limits have made an abuse of their rights, and the result has been a waste of jungles in some parts of the district of Ranchi. Our worthy Deputy Commissioner, Mr. Stephenson, has already been impressed with the necessity of having a special legislation for the protection of jungles in Chota Nagpur, but before it is enacted, I submit to Your Honour that it is very desirable to entrust this important duty in the hands of experienced officers competent to deal with the subject. A law may be very good on paper, but unless it is worked by an officer who is able to cope with the situation which this difficult problem of customary rights involves, it is not guaranteed to secure the confidence of the people for whom that law is intended. It may be within Your Honour's recollection that during the discussions of the Bill in the Ranchi Conference, I drew Your Honour's special attention to the fact that very competent officers should be selected for the carrying out of the provisions relating to the recording of customary rights, and I repeat that prayer also on the present occasion.

"It has been a long time since the first draft of this Bill was placed before the public, and we have had a long discussion over it. We are immensely grateful to Your Honour for the very keen interest which was taken by you throughout the whole discussion and for the anxious care which Your Honour evinced in trying to be personally acquainted with the requirements of the people who are directly interested in this Bill. Our acknowledgments are also due to the Hon'ble Mr. Vincent, the Member in charge of the Bill, for the great trouble which he has taken in shaping the Bill in a way that has met with the approval of the public generally and for the judicial frame of mind which he brought to bear upon the discussion of the Bill in the Select Committee.

"Before concluding, I crave Your Honour's permission to allude to one matter which, though not strictly relevant to the purpose of this Bill, is not altogether foreign to it. The Bill which is going to be enacted will apply to all the districts of Chota Nagpur excepting Manbhum, where it may be extended later on with certain modifications to suit the conditions of that district. The five districts within Chota Nagpur have, since time immemorial, formed one Civil District under one District Judge, who is called the Judicial Commissioner of Chota Nagpur. Your Honour, when I was leaving Ranchi yesterday to attend this Council Meeting, I was informed that a proposal has emanated from Government to curtail the jurisdiction of the Judicial Commissioner of Chota Nagpur by taking out of his jurisdiction two districts, namely, the districts of Manbhum and Singhbhum, and lump them with Sambalpur and form these three districts into one Civil District, under one District Judge, with head-quarters at Sambalpur. I wish that my information were not correct, as I can hardly believe that Government could seriously think of effecting a fusion of such incongruous elements. I unhesitatingly say, Your Honour, that the district of Manbhum and a good portion of Singhbhum have nothing in common with Sambalpur, and, to place them under the District Judge of Sambalpur, with head-quarters at Sambalpur, will be productive of as much hardship to the people of those two districts

as may be felt by the people of Hooghly and Burdwan if they were placed under the jurisdiction of the District Judge of the Sonthal Parganas, with head-quarters at Dumka. Your Honour, I fervently pray that at the close of your administration you will not accord your sanction to this scheme which, if carried out, will, I assure you, give a rude shock to the people of Chota Nagpur. We are already very grateful to Your Honour for the help which Your Honour rendered us in preventing the transfer of a good portion of Chota Nagpur to the Central Provinces, which was a part of the original partition scheme of Bengal.

"I should be highly thankful if Your Honour could see your way to make a definite pronouncement on the subject, so that it will be known how we really stand in regard to the proposed scheme."

The Hon'ble BABU JOGENDRA CHANDRA GHOSE said:—"I think we have every reason to congratulate the Hon'ble Member in charge of the Bill on the very satisfactory conclusion of his labours. When the Bill was introduced, I objected to it on two grounds. The first was about the curtailment of the jurisdiction of Civil Courts.

"My second complaint was that the provisions of the Bengal Tenancy Act should be introduced in Chota Nagpur, so far as they were possible. I find that the first objection has been given effect to, and as regards the second, I am glad to find that so much of the provisions of the Bengal Tenancy Act as can be introduced into Chota Nagpur have been introduced by the Select Committee, and to-day, through the exertions of my hon'ble friend, Rai Kishori Lal Goswami, Bahadur, most of his amendments were taken from the Bengal Tenancy Act, and which I am glad that the Hon'ble Member in charge of the Bill has accepted."

The motion was then put and agreed to.

The Council was then adjourned *sine die*.

Particulars ... All the lights at the entrance of Mandovi River were re-established on the 1st September 1908.

On account of the natural change of the bar of the Mandovi River the direction now indicated by the two beacons "Alto da Conceição" and "Gaspar Dias" is to be altered and the beacons are to be replaced by two other beacons: one of them is to be placed on Malim Hill, in Bardez, and the other at the Campal, in Panjim.

These beacons will consist of an equilateral triangle on top of a mast which has at its foot the watchman's house. The triangles and house are painted white.

At night a white incandescent light will be hoisted on each of these two masts.

These beacons will be temporary and will be replaced in a short time when another notice will be issued.

The beacon "Tejo" has fallen into the sea and has been replaced by a wooden mast painted white with crossed boards nailed on to it which have been painted black and white alternately. The light placed on this beacon has been altered from red to green.

The course to be made by a ship entering the Mandovi River is to steer in the new direction towards "Campal" and "Malim" instead of making the former course towards "Gaspar Dias" and "Alto da Conceição."

* In addition to this area, 540,000 acres are efficiently protected by the flood banks of the Orissa Canals, the total length of which is 294 miles and 1,547 feet.

† 1,631 feet of spur embankments, Penar river of which the length after the flood season of 1907-08 was 1,335 feet were maintained during the year at Government expense.

In the South-Western Circle a length of 3 miles 3,418 feet in Schedule D. embankment 88 was abandoned during the year, and a length of 6 miles 1,760 feet was added to class D embankments owing to the construction of the Peali left embankment. There was, therefore, a net increase of 2 miles and 3,622 feet in the length of embankments in that circle. In the Gandak Circle there has been a decrease of 2 miles and 4,830 feet in the length of class D embankments. There has been no change in the lengths of embankments in the other circles.

3. *Floods.*—In the Orissa Circle the floods in the rivers Brahmini, Byturni and Kopali were the highest yet recorded. Much damage was done to the agricultural embankments and to Ranges II and III of the High Level Canal. Crops were destroyed in the areas not protected by canal embankments, and many huts collapsed. The floods in the Salindi, Matai and Subarnarekha rivers were also very high. The flood in the Mahanadi was a moderate one.

In the South-Western Circle there was a high flood in the Damodar river. The gauge at Edilpur on 3rd September 1907 was 1 foot 4 inches above the previous recorded maximum. The Cossye river was also in high flood. At Panchkura the level recorded on the 2nd September 1907 was 94·50, which

was 1·20 feet higher than the maximum recorded level of 1898. The Bhagirathi river was in moderate flood on the 27th August 1907 when the Berhampore gauge stood at 4·73 below the highest recorded flood level of 14th August 1890.

In the Gandak Circle the floods were of an ordinary nature. The highest flood in the Gandak river, which occurred on 21st July 1907, rose to 240·00. This was 3·50 below the highest recorded level of 15th August 1903. On the River Ganges the flood level at Bazitpur on 23rd August 1907 stood at 141·80, the reading in the previous year being 143·90. The floods in the Bagmati river were also moderate. The highest level was 181·42 at Belahia on 6th September 1907 and 173·43 at Kodliaghat on 21st July, against 187·32 and 176·37 respectively recorded in the previous year.

4. *Breaches.*—In the Orissa Circle altogether 298 breaches occurred during the year, viz., 124 in the Akhoyapada-Jajpur Division, 33 in the Brahmini-Byturni Division, 11 in the Mahanadi Division, and 130 in the Balasore Division. The total length of breaches was 4 miles and 787 feet. In addition the Orissa Trunk Road between the Byturni and Salindi rivers was breached in two places for a total length of 250 feet. The flood in the Brahmini river nearly overtopped the flood bank of the Pattamundi Canal, necessitating the raising of that bank to 3 feet above the flood level for future safety. The Charigong Tie bund, the Utikan and Damarpur embankments in the Brahmini-Byturni Division and the Jamkunda embankment in the Balasore Division as also several agricultural embankments in the Akhoyapada-Jajpur Division were overtopped and considerably damaged. The weir across the Janardan Ghai, which had nearly been completed, was seriously injured. The damage done to embankments in the Mahanadi and Akhoyapada-Jajpur Divisions has since been made good.

In the South-Western Circle 222 breaches occurred in the Scnedule D embankments and 13 in the *takavi* embankments. Of these, 52 occurred in the embankments on the left bank of the Selye, 58 in the Panna circuit, 39 in the Ghatal circuit, 20 in the Sheikpur circuit and 30 in the Chetua circuit. The total expenditure incurred during the year in closing breaches and in making good special damage caused by flood was Rs. 94,851, against Rs. 41,669 in the previous year, and a considerable further outlay will be incurred in 1908-09. Both at Hooghly Point and Diamond-Harbour in the Hooghly estuary damage was done to the laterite revetments by the cyclone of the 25th June 1907. There were no breaches in the embankments in the Gandak and Northern Circles.

5. *Surveys and Investigations.*—In the Orissa Circle plans and estimate were prepared for extending embankment No. 55 B in the Brahmini-Byturni Division. Longitudinal sections were prepared of the Utikan and Aul embankments. In the Akhoyapada-Jajpur Division levels and sections of some of the agricultural embankments were taken. Surveys were made to determine the cost of raising certain low portions of the Argowal circuit embankment. Surveys and investigations were completed in respect to a proposed embankment on the left bank of the Subarnarekha. An estimate for this has been prepared, and it will be placed before the local Embankment Committee for consideration. Surveys of the Bichitrapur Government estate in the Balasore district to ascertain the locality of bunds permissible in the tidal portion of the estate were also completed during the year.

In the South-Western Circle surveys were made of some portions of the *takavi* embankments, where the Cossye river had badly encroached. A survey was made and longitudinal and cross sections were taken for certain retired lines in the Chetua circuit embankment and in the Darkeswar right and left embankments. A survey was made of the abandoned Bhagirathi embankment to ascertain the area of surplus land available for disposal. A complete survey was also made for the drainage of the town of Berhampur and improvement of the Gobra Nala in the district of Murshidabad.

In the Gandak Circle check levels were taken of the Saran embankment. Levels were also taken during the year 1907-08 along the whole length of the Tirhut embankment to obtain more correct values for the datum blocks and bench-marks. Longitudinal and cross sections were taken of the Bya outer and inner channels.

6. *Original works.*—The outlay of the year (without charges for establishment and tools and plant) under this head amounts to Rs. 90,088 distributed over the different classes of embankments as under:—

	1907-08.	1906-07.
	Rs.	Rs.
Class A	35,623	11,195
Do. B	53,390	29,918
Do. C	1,075	1,167
Do. D	...	...
Total ...	90,088	42,280

The more important works were as under:—

In the Orissa Circle the work in connection with the construction of three permanent escapes in the Dya left embankment at an estimated cost of Rs. 39,362 was approaching completion, the outlay of the year being Rs. 20,463. Eighty per cent. of the work for the improvement of the channel of the South Kania river was done during the year at an outlay of Rs. 4,582.

In the South-Western Circle the raising of the crest of the embankment on the left bank of the Hooghly near Diamond Harbour was completed. The total expenditure on this work has been Rs. 51,201, the outlay of the year being Rs. 10,465.

During the year 1907-08 the private embankment in the Beguserai subdivision of the Monghyr district, generally known as the Gupta bund, was taken charge of and is to be strengthened and maintained by the officers of Government under the provisions of the Act. An estimate amounting to Rs. 88,422 was also approved to meet the probable cost of the work.

No original works were carried out in the Gandak Circle.

7. *Ordinary repairs.*—The expenditure on repairs (without book charges for establishment and tools and plant) aggregated Rs. 3,99,497, which is distributed under the different classes of embankments as follows:—

	1907-08.	1906-07.
	Rs.	Rs.
Class A	53,038	24,805
Do. B	2,63,150	2,17,378
Do. C	70,282	61,418
Do. D	13,027	12,988
Total ...	3,99,497	3,16,589

The expenditure on repairs to the Orissa embankments was Rs. 53,038, against Rs. 24,805 in the previous year. The excess was almost entirely due to repairs to the damage caused by the very high floods in the Brahmini and Byturni rivers. The total cost of repairs to the Schedule D embankments (class B) in the Midnapore district, which are in the Orissa Circle, was Rs. 24,260, against Rs. 36,625 in the year 1906-07.

In the South-Western Circle the expenditure on ordinary repairs to Schedule D and other embankments was Rs. 1,01,588, against Rs. 1,09,274 in the previous year. There was a decrease in the districts of Burdwan, Nadia and 24-Parganas, while the expenditure in the other districts was rather greater than that of the previous year.

On (class C) *takavi* embankments under contract in the Midnapore, Muzaffarpur, Saran and Champaran districts, a sum of Rs. 70,282 was expended during the year as compared with the contract provision of Rs. 1,05,070. The outlay incurred on the maintenance and special repairs of the Gandak embankments was Rs. 39,230, against Rs. 35,996 in the preceding year. The expenditure on repairs to the Midnapore embankments of this class in the Cossye and Balasore Divisions was Rs. 31,052, against Rs. 25,422 during the previous year.

On (class D) *takavi* embankments with an annual apportionment of actual cost, the outlay incurred on repairs was Rs. 13,027, against Rs. 12,988 in the previous year.

8. *Retired lines.*—In the Orissa Circle the amount expended in constructing retired lines of embankments, including under this head slope-cutting, which is an alternative measure, was Rs. 1,509, against Rs. 3,722 in the previous year. In the South-Western Circle the cost of constructing retired lines in the Hooghly, Midnapore, Murshidabad and 24-Parganas districts was Rs. 41,495, against Rs. 28,674 in the previous year. The increase took place chiefly in the Midnapore and Murshidabad districts, while there was a decrease in the Hooghly and 24-Parganas districts. No retired lines were constructed in the district of Burdwan. In the Gandak Circle a sum of Rs. 4,000 was expended in constructing retired lines in the Saran embankment. No retired lines were constructed in the Northern Circle.

9. *Protection of River Banks.*—In the Orissa Circle the total outlay incurred on repairs to revetments and other works for the protection of the river banks was Rs. 13,707, against Rs. 1,035 in the preceding year. The expenditure in 1907-08 includes Rs. 8,031 spent on repairs to the weir across the Janardan Ghai on the Brahmini river. The expenditure on similar works in the South-Western and Gandak Circles was respectively Rs. 21,634 and Rs. 2,037.

10. *Financial.*—The actual outlay during the year on the Orissa embankments (class A) maintained as agricultural works, exclusive of charges for establishment and tools and plant was Rs. 53,038, against Rs. 24,805 in the previous year, the average rate per mile being Rs. 103. The expenditure on class B Government embankments was Rs. 2,63,150, against Rs. 2,17,378 in the year before, the average rate being Rs. 245, against Rs. 201 in 1906-07.

Government has contracted to maintain certain embankments on behalf of the persons benefited at a fixed annual charge in the districts of Saran, Champaran, Muzaffarpur and Midnapore. The following statement shows the expenditure incurred on these embankments as compared with the contract payments :—

11. *Works undertaken under the provisions of the Drainage Act, VI (B. C.) of 1880.*—The Dankuni, Howrah, Rajapur and Barajolla drainage works in the Hooghly district, in charge of the Executive Engineer, Northern Drainage and Embankment Division, were maintained in good order during the year. The cost of their upkeep compared with the previous year is shown below :—

	1906-07.	1907-08.
	Rs.	Rs.
Dankuni	253	2,682
Howrah	862	3,724
Rajapur	9,604	11,716
Barajolla		
Total ...	10,724	18,122

The receipts from these works hitherto credited to the Civil Department have been transferred to this Department from 1st April 1907.

12. *Works undertaken under the provisions of the Sanitary Drainage Act, VIII (B.C.) of 1895.*—The only work which has as yet been taken up under this Act is that known as the Magra Hât drainage scheme in the 24-Parganas district. It is designed to drain the swamps around Magra Hât in the central portion of the tracts enclosed by the 24-Parganas embankments. The swamps are mainly those along the Kaorapukur khal near Hotar, those drained by the Surjipur sluice, those at Joynagar and along the Srichandra and Sangrampur khals as well as north of the railway near Sangrampur and at Dhosa and Hobka. A sum of Rs. 3,76,955 was expended during the year on works, establishment and tools and plant. On the whole fair progress has been made with the scheme.

13. *Drainage works carried out under the provisions of the Embankment Act, II (B.C.) of 1882.*—In the South-Western Circle the expenditure during the year was Rs. 9,531 principally on the construction of sluices at Lowjola and Lokenathpur in the Murshidabad district and at Toperkhal and Khonîady in the district of Midnapore. In the Orissa Circle the Argowal drainage project was in progress during the year. The sluice was practically completed and about three-fourths of the earthwork done. The total expenditure to end of the year amounted to Rs. 89,059 for works only, the outlay of the year being Rs. 46,570. This scheme is now in operation.

Maintenance and repairs.—The Charrial khal drainage scheme was maintained in good condition at a cost of Rs. 1,596 as compared with Rs. 1,902 in the previous year. A large number of sluices in the Schedule D Embankments are maintained under the provisions of the Act at the cost of the estates benefited.

14. *Drainage works carried out at the cost of Government, but not under the provisions of any Act.*—Work in connection with the improvement of the drainage channel from Daudpur to Utterpadima, known as the Tajpur drainage project, in the Contai subdivision of the Balasore Division, was completed during the year.

The Bullee Bhil drainage works in the 24-Parganas district were efficiently maintained at a cost of Rs. 3,969. In the Midnapore district the Balliaghai main and branch drains, which are used both for drainage and navigation, were kept open to traffic throughout the year. The condition of the main drain has deteriorated, and an estimate for silt clearing is under preparation. The khas tahsil khals in charge of this Department in the same district were cleared of silt at a cost of Rs. 9,637.

(a) The difference of Rs. 95 between the figures in this column and those in column 2 of the last year's statement is due to the transfer of estates to other districts with effect from the 1st April 1907, the abatement of revenue sanctioned by the Board on account of land acquired by the East Indian North-Western Railway, the exemption of the estate from the payment of the cess and the decrease and increase in the land revenue roll of certain estates on account of resettlement.

(b) The difference of Rs. 72 between the figures in column 10 of the previous year's statement and those in column 3 of this statement is due to the transfer of certain estates to other districts; the abatement of revenue of certain estates on account of land acquired by the Bengal and Northern Railway and the decrease and increase in the land revenue roll of certain estates on account of resettlement.

(c) The total advance payment at the close of the year is Rs. 6,750, which includes Rs. 3,161 shown in this column. Rupees 45 on account of it was realized during the year.

(d) The difference of Rs. 44 between the figures in column 3 of this statement and those in column 10 of the last year's statement is due to remission of estate and omission of fractions of a rupee.

(e) Out of the balance of Rs. 6,089 a sum of Rs. 1,949 has been collected since the close of the year, and for the remainder action under certificate procedure will be taken in due course.

(f) The difference of Rs. 1,019 between the figures in column 10 of the previous year's statement and those in column 3 of the present statement is due to the transfer of several items from "Advances" to the "Arrear due."

(g) The balance has been arrived at by the deduction of Rs. 1,052 due from Government on account of *khas mahals* benefited by the embankment.

PRELIMINARY FORECAST OF *BHADOI* CROPS, BENGAL, 1908.

THE following note is published for general information.

F. W. DUKE,
Offg. Chief Secy. to the Govt. of Bengal.

The 28th September 1908.

DEPARTMENT OF AGRICULTURE, BENGAL.

PRELIMINARY FORECAST OF THE BHADOI CROPS OF BENGAL, 1908.

(On an average of five years ending 1906-7, the area under autumn rice in the territory to which this forecast relates has represented some 6·0 per cent. of the total area under this crop in British India).

Explanatory.—Autumn rice is the chief *bhadoi* crop of this Province. It occupies 50 per cent. of the total area under all *bhadoi* crops. Maize and millets are to be found chiefly in Bihar and Chota Nagpur.

Character of the season.—Sowings this year were normal in Orissa and Chota Nagpur and late in Lower Bengal and Bihar. Climatic conditions were not favourable except in Chota Nagpur and Orissa where the prospects are hopeful. In Lower Bengal, as well as in Bihar, the rainfall was short in the early part of the season, and later on damage was done by heavy rain in Lower Bengal and by drought in Bihar. The recent rain has improved prospects in Bihar. Floods did damage in Midnapore, Shahabad, Cuttack and Balasore and insect pests in Burdwan, Bankura, Hooghly, the 24-Parganas, Nadia and Cuttack. The present season has not been a very favourable one.

Area sown.—The area sown this year has been estimated at 8,724,900 acres against 9,251,000 acres last year. The normal area is estimated at 9,162,900 acres.

Outturn.—Sambalpur estimates more than a normal crop (105 per cent.). Balasore, Ranchi, and Singhbhum estimate 100 per cent. Khulna and Palamau report 97 and 91 per cent., while Burdwan, Darjeeling and Hazaribagh report 88, 80 and 85 per cent. In 13 districts, the outturn estimated by

local officers varies from 70 to 79 per cent.; three districts report 60 to 68 per cent. crops, and two districts, Darbhanga and Bhagalpur report 55 and 54 per cent. crops. In Murshidabad (49 per cent.), Monghyr (47 per cent.), Nadia (46 per cent.) Purnea (45 per cent.), Muzaffarpur (41 per cent.) and Patna (38 per cent.) the outturn is poor.

According to the estimates of the District Officers, the outturn of the different kinds of *bhadoi* crops for the Province, as a whole, amounts to 68 per cent. of the normal.

The increase in the area sown with autumn rice and other *bhadoi* cereals is due to the fact that on account of the falling off in the demand of jute, the ryots have reduced the area under jute and increased that under autumn rice in the Basirhat Subdivision. Want of seasonable rain, deficient rain in the beginning and latter part of the season and heavy downpour of rain in the middle of the season in all the Subdivisions of the district and the appearance of insect pests which caused great damage to crops, account for the lower outturn. There was no rain up to 15th June in Diamond Harbour and cultivation of crops suffered. Sowings were late this year.

The crops have suffered seriously owing to want of rain and the outturn would have been less had it not been for the good crops obtained from the lands where the *kosi* flood waters have reached. In the rest of the Supaul and Madhipur thanas, not more than a one-anna crop is likely to be reaped. Deficient rain has materially affected the outturn as well as reduced the area sown with autumn rice.
